# 28: Independence Heights Frontage Roads

Rutas Laterales de Independence Heights

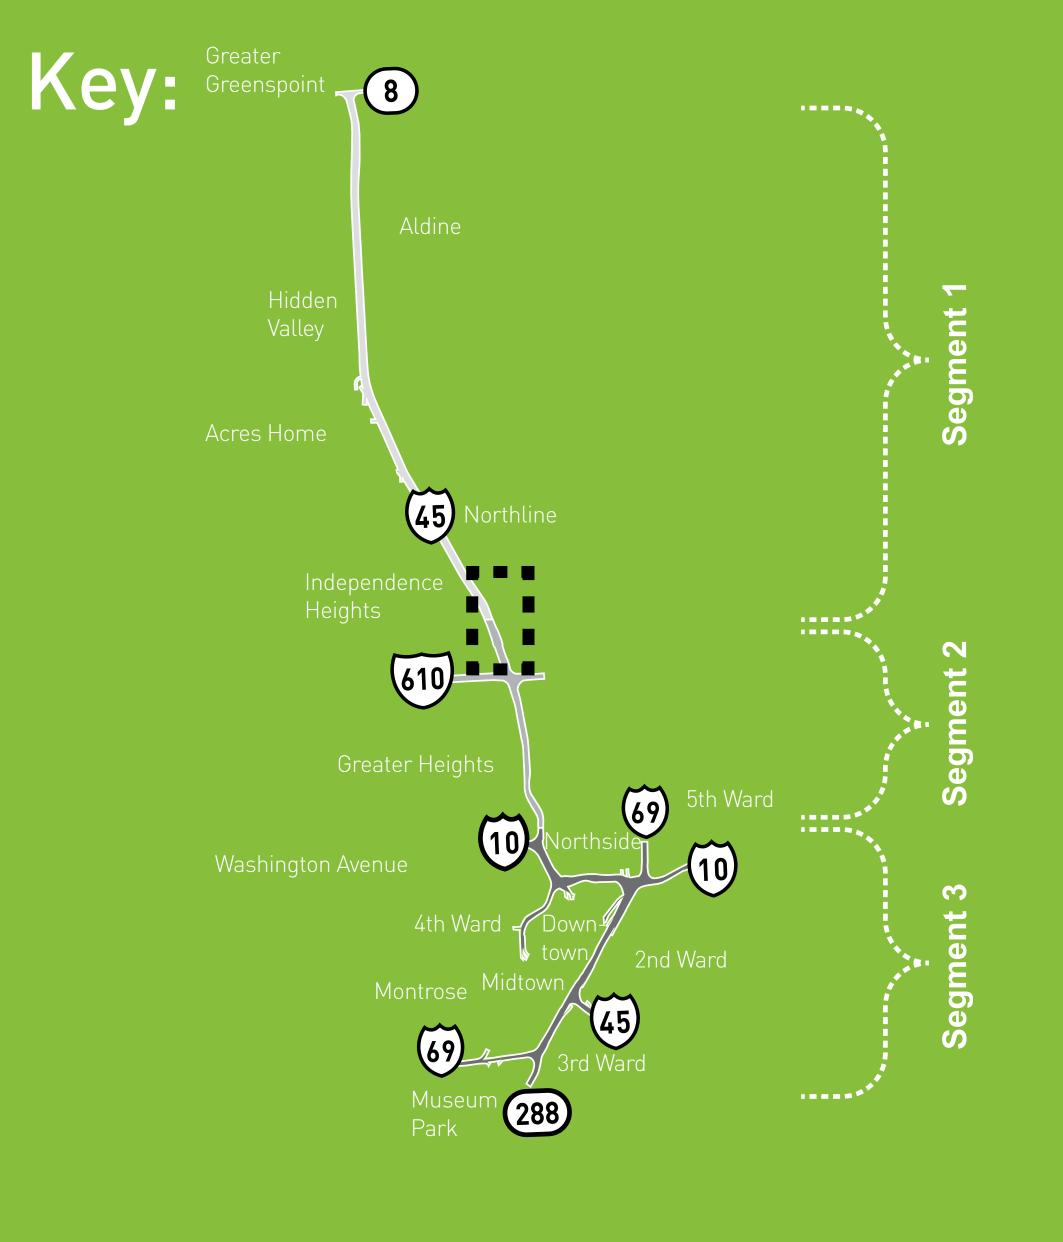

## Description:

Segment 1 of NHHIP impacts frontage roads along I-45 approaching the interchange with I-610. Connectivity and properties in the nearby Independence Heights neighborhood may be impacted by these frontage roads.

## Also Addresses:

Traffic

Property

## We Heard:

The impact on single family housing in a neighborhood like Independence Heights could be devastating to their revitalization effort.

First and foremost is my concern regarding the impact of the residents of Independence Heights. Loss of homes and a church is not acceptable.

## TxDOT Proposal

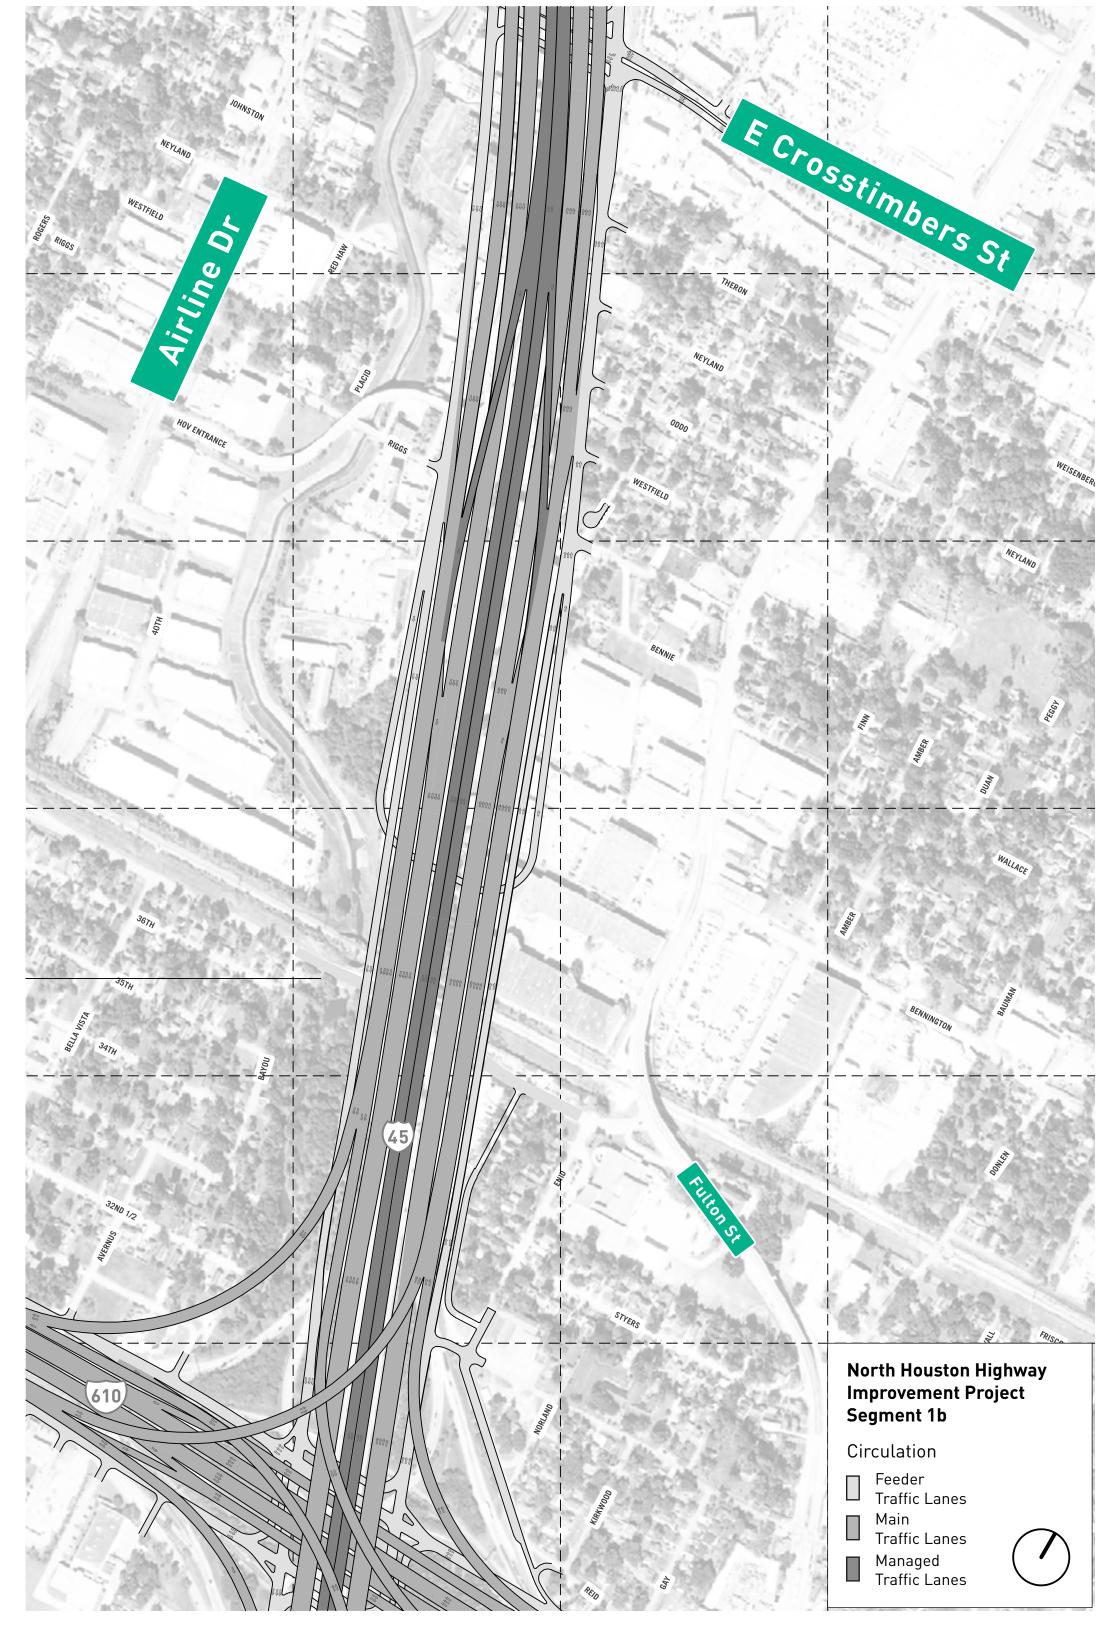

The current TxDOT proposal includes frontage roads along I-45 near Independence Heights neighborhood.

#### **PROS**

- Provides connections to/from I-610 to I-45

#### CONS

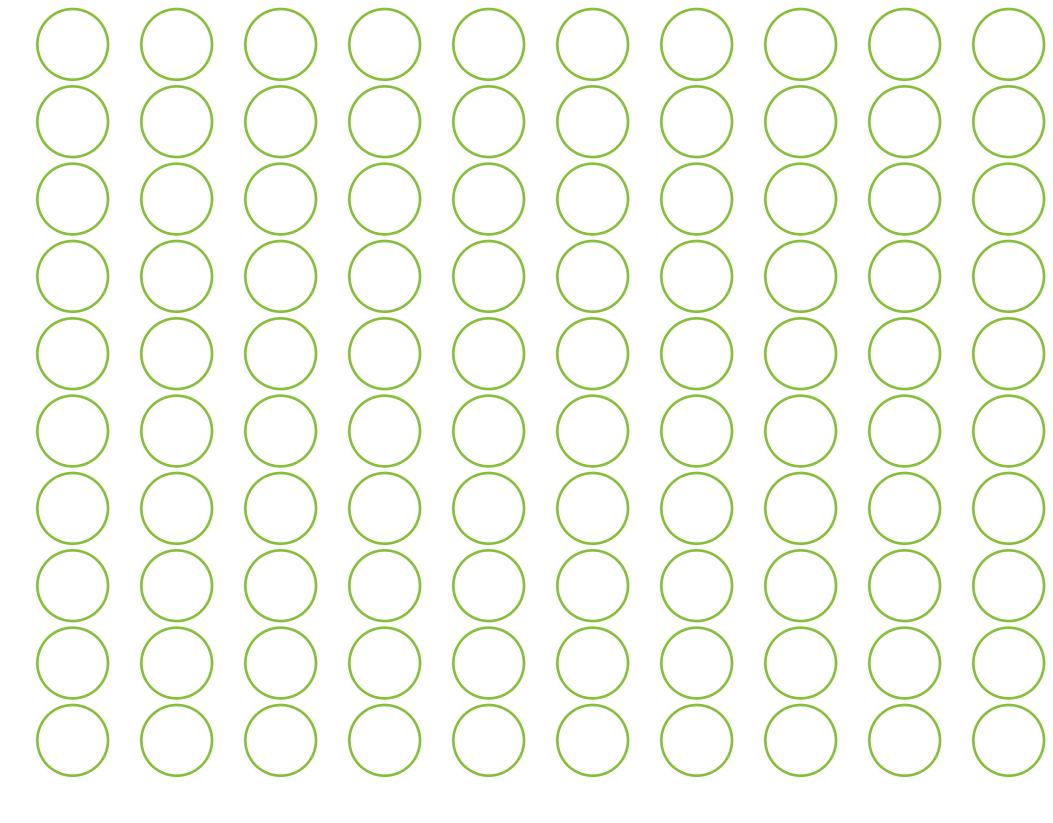

- Expanded right-of-way
- Requires more property acquisitions

## Give us your input.

Put your #20 sticker on the alternative you prefer.

#### TxDOT Proposal

# Alternative 28.1 - Removed Frontage Road

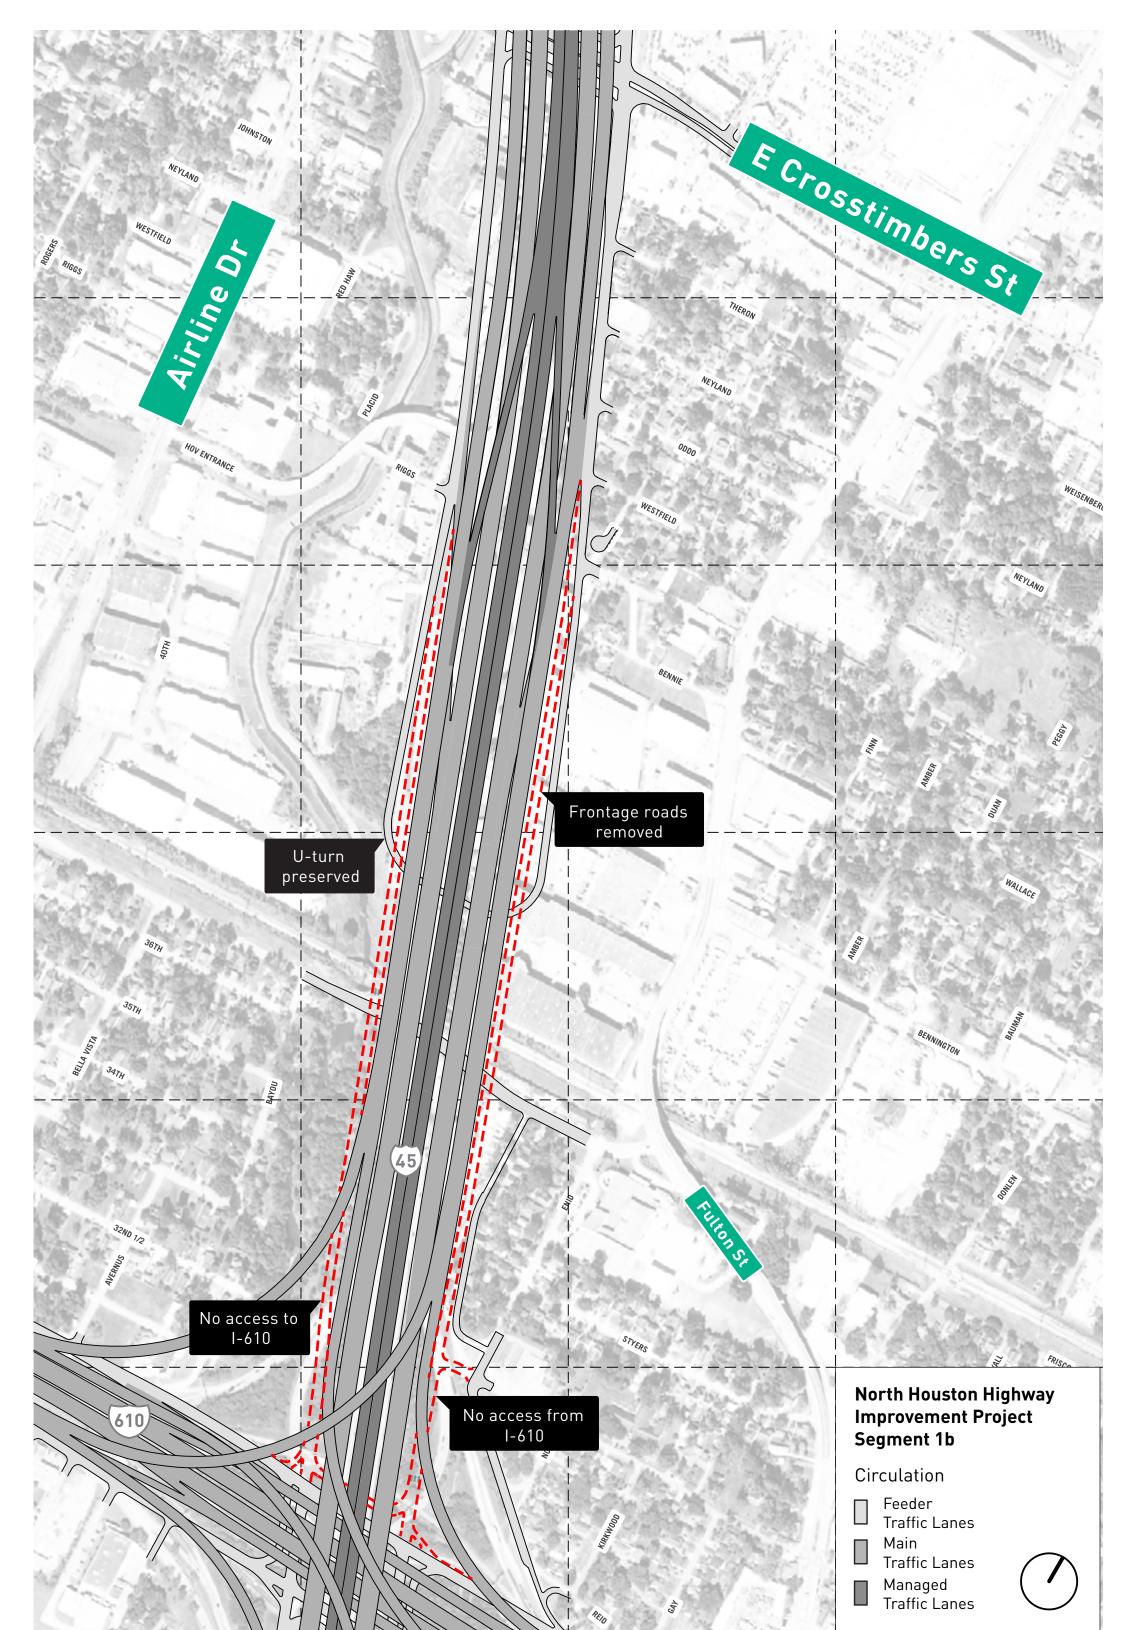

An alternative to this includes removing frontage roads between Riggs and the I-610 interchange. The U-turn along the frontage road would be preserved.

#### **PROS**

- Less property acquisitions
- Less right-of-way acquisition required

#### CONS

- Still some property acquisitions required
- No continuous frontage roads

## Alternative 28.1 - Removed Frontage Road
