INFORMATION TECHNOLOGY DEPARTMENT

Department Description and Mission

The Information Technology Department was created in 2002 to improve technology utilization throughout the City by using proven and emerging strategies to reduce cost, limit growth and improve citizen services, as well as, reduce security and system failure risks.

Primary Objectives of the Department:

- 1. Create a new Information Technology Department that focuses on delivering services in alignment with its clients' requirements.
- 2. Consistently deliver innovative solutions to business requirements while minimizing operating expense.
- Reduce cost of IT services by leveraging resources, streamlining processes, consolidating facilities, adopting new technology and aggregating purchases.
- 4. Reduce IT spending by eliminating duplication of effort.
- 5. Improve IT services.

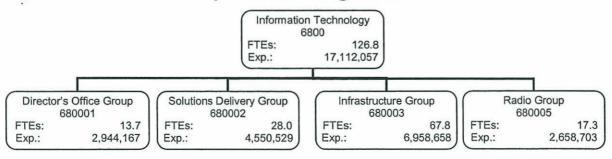

Department Short Term Goals

- 1. Consolidate IT resources, starting with Phase I departments.
- 2. Position new IT Organization for future phases of consolidation.
- 3. Establish an IT Governance process.
- 4. Transition the initial phase for the public service users of the new radio system.
- 5. Implement a custom developed system for Municipal Court Case Management.
- 6. Continue to assist HPD in the implementation of the Next Generation Records Management Technology.
- 7. Consolidate data centers/servers to reduce operating and capital expenses and implement an effective Disaster Recovery Plan over the next three years.

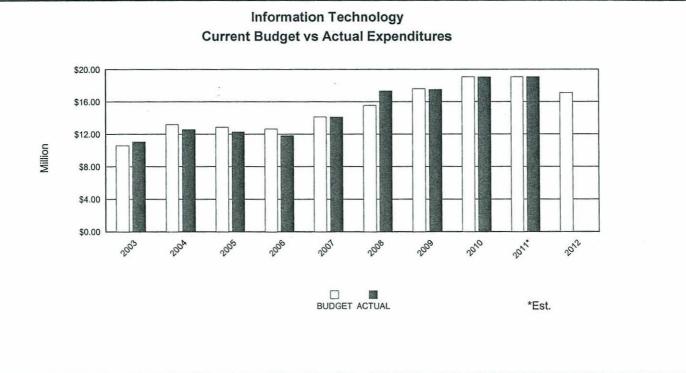

Department Long Term Goals

- 1. Implement an effective Disaster Recovery Plan and establish a Network Operating Center to provide 24/7 monitoring.
- 2. Development of a Citywide Security Framework.
- Implement new service delivery processes that are documented and commit to Service Accountability Standards.
- 4. Establish capability to operate all of the City's data centers and servers.
- 5. Significantly improve reliability and stability of email, networks, etc.
- Reduce cost of IT services by defining and managing performance against defined performance metrics; consolidating processes and facilities; adopting new technology; aggregating purchases across consolidated departments.
