The Stormwater Fund provides for the maintenance and repair of drainage infrastructure, such as storm sewers and roadside ditches. The City undertook a major restructuring of its water, sewer and drainage financing at the end of FY2004. This restructuring created a new Combined Utility System with the capacity to transfer funds from its surplus amounts to the Stormwater Fund to support stormwater drainage operations and maintenance.

Note: The Stormwater Fund is not technically an enterprise fund, but is grouped with the Combined Utility System for clarity
