

TAX INCREMENT REINVESTMENT ZONES

The Adopted FY2003-2007 CIP includes projects funded by the city's twenty Tax Increment Reinvestment Zones (TIRZ) for information purposes. Created by the city according to state law, each TIRZ receives all incremental property tax revenues collected by the city within the boundaries of the TIRZ beyond that collected in the year the TIRZ was created. The TIRZ then uses these property tax funds, and other income, to make improvements within the TIRZ that would otherwise be built by the city. These improvements generate private sector investments in the TIRZ that would not otherwise occur. The improvements are administered through the zone board, and, in all but two cases, a redevelopment authority.

Funding for TIRZ projects may come from several sources including: direct developer financing pursuant to a developer reimbursement agreement, redevelopment authority bond financing, loans from financial institutions, and from incremental tax revenue provided through Harris County or a school district. Each TIRZ develops a project plan to govern resource allocation and project decisions. City Council approves project plans, amendments to those plans, and bond sales the TIRZ may conduct to finance improvements.

The projects are specific to the zones and are not funded through any City CIP or through one of the major departmental programs. The projects, identified by zone, collectively total just over \$314.8 million over the next five years and include street paving, water, sewer, storm sewer, lighting, landscaping, impact fees, park improvements, and a variety of pedestrian infrastructure improvements.

The information contained in this new section of the CIP has been taken from TIRZ project plans. The level of specificity in those plans varies, which also accounts for the variance in the information provided here.

The remainder of the Adopted FY2003-2007 CIP has been reviewed to determine which projects are located inside a TIRZ, thereby making them potentially eligible for TIRZ funding. Adopted CIP projects located inside a TIRZ could be funded by the TIRZ instead of utilizing City funds programmed in this CIP. Potential for TIRZ financing is determined by the financial capability of the TIRZ and the eligibility of the project under the TIRZ's project plan.
