Council Members Stardig, Johnson, Hoang and Rodriguez absent.

Council Members Clutterbuck and Noriega thanked Ms. Blanlot and Ms. Cahoon for the recognition and commended those with the City of Houston who worked on this; and upon questions by Council Member Noriega, Ms. Cahoon stated that the federal government under the National Flood Insurance Program produced updates to the national flood insurance program manual solely for insurance agents rating policies twice a year, in May and October, historically with those revisions there were some increases in policy premiums to keep up with the risk and when a homeowner renewed their policy the information should be on the application and she would encourage them to check and see that they were receiving the correct discount, but the 25% discount enjoyed by some policy holders were only for the areas of high risk special flood hazard areas, by law the maximum amount for those living in Houston's low risk flood plains was 10%. Council Members Stardig, Hoang and Rodriguez absent.

Mr. Randall Kallinen, 511 Broadway, Houston, Texas 77012 (713-320-3785) appeared and stated that he was present regarding HPD's deadly force, the shooting or wounding of civilians by the Houston Police Department; that in 2009 there were 15 deaths and 17 wounded by the police department and it was a large increase, over 50% from past years, the system in place was largely secret, incident reports, grand juries, autopsy reports, homicide investigations, IAD reports were all secret, he and the Greater Houston Coalition For Justice were calling for investigation. Council Members Sullivan and Rodriguez absent.

Ms. Arlene Kelly, 2715 Lazy Spring Drive, Houston, Texas 77080 (713-462-3808) appeared and congratulated the Mayor and new Council Members and stated that today she was also present to speak about the high number of police shootings, particularly the number of shootings of the mentally ill and the fact the CIT program instituted 10 years ago by the then chief, Chief Bradford, had hardly been utilized recently and seemed SWAT teams had taken over the incidents which were counter productive, the opposite of how the incidents should be handled. Council Members Sullivan and Rodriguez absent.

Ms. Sylvia Gonzales, 10102 Elm Knoll Trail, Houston, Texas 77064 (832-283-5752) appeared, presented information, congratulated the Mayor, Controller and new Council Members and stated that she was present imploring Council to listen on behalf of the many organizations represented today of the Greater Coalition and of which she was representing LULAC; that she realized Mayor Parker inherited the program and knew with her knowledge she would help; that in the 130 year history of the department in Houston never had the community suffered so much in terms of police brutality and killings. Council Member Sullivan absent.

Mr. Frederick Cooper, 11302 Sageberry, Houston, Texas 77089 (281-484-4929) appeared, presented information, and stated that today he was representing the NAACP along with the Greater Houston Coalition For Justice and they clearly wanted to highlight that they loved the Lord and the police working to keep them safe; that they were not present trying to beat on anyone, but clearly such an increase in anything warranted questions and in HPD who was looking at the statistics, who were digging numbers and asking questions; that as a minority he knew they were over represented when it came to police brutality and deaths; that their Brown and Asian brothers took it as well and they did not want it to continue, if there was room for improvement they would like seeing it done and see Council drive the effort. Council Member Sullivan absent.

Mr. Johnny Mata, 2121 Fountainview Drive, Houston, Texas 77056 (832-723-3110) appeared and stated that he was present representing the American GI Forum, a veterans organization, and he was a member of LULAC and had been in the trenches many years; that

years ago they met with Chief Bradford and the Community Service for the Justice Department was very instrumental and they got an MOU Plan and they worked for five years; that they asked the Justice Department to come back and activate, because that plan was never signed, it was very constructive, helpful and many civil rights groups were involved.

Council Member Jones thanked all for coming and stated that when people asked questions about law enforcement it did not mean they were anti law enforcement, but that they wanted law enforcement to be fair and she worked with different groups including Mr. Mata and the NAACP and mental health experts on shooting issues and it alarmed her they had more than the national average and on the tazing; that perhaps they should have an independent review; that she worked with Council Member Edwards years ago on a Civilian Review Team which had independent subpoena power so there was no secrecy and she would like that important so the police would have a good working relationship with the community. Council Member Lovell absent.

Council Member Noriega stated that she knew Mr. Mata and Ms. Gonzales came when they were concerned and she heard them; that there were other factors such as there were more guns than there had ever been on the street, but his issue was well taken and she would take it under advisement; and Mr. Mata stated that two officers should be in a car with proper equipment and the community should be involved. Council Member Lovell absent.

Upon questions by Council Member Bradford, Mr. Mata stated that there were not regular meetings between community leaders, HPD and the Justice Department representatives; that through his leadership they had constructive dialogue, but during the last Administration they were ready to sign the plan and it went nowhere and this product needed to be refined; and Council Member Bradford stated that they needed a better information exchange between HPD leadership and citizens in the community; and urged Mayor Parker to move forward as quickly as possible to develop a comprehensive safety strategy. Council Member Lovell absent.

Council Member Jones moved that the rules be suspended for the purpose of extending the time for questions of Mr. Johnny Mata, seconded by Council Member Noriega. All voting aye. Nays none. Council Member Lovell absent. MOTION 2010-0036 ADOPTED.

Council Member Gonzalez stated that it was mentioned everything seemed secretive and to some extent he could see that, but as a point of fact HPD was not the only entity which looked into incidents of deadly force, it was also reviewed by Internal Affairs, the District Attorney's Office, the Attorney General's Office and the Medical Examiner's Office also reviewed it; and upon questions, Mr. Mata stated that first he would like the memorandum of understanding revisited, it was five years in the works and they would not have to reinvent the wheel; that second he would like the Mayor's Office and Council to revisit the Citizen Review Committee; that they needed transparency and the coalition would be looking at other police departments, the grand jury, etc., and since Jose Campos Torres died, 30 years ago, the Justice Department, LULAC, GI Forum and other groups met statewide with law enforcement throughout Texas and reported back to their perspective areas and developed dialogue with 25 police entities on a monthly basis and the most serious thing was that elected officials needed to be more forceful, forthcoming and make things work. Council Member Lovell absent.

Council Member Johnson thanked all for coming and keeping this at the forefront; that he supported the Houston Police Department and believed they did an excellent job, he believed there were a few rogues which gave the department a very bad name and he hoped they could begin to get rid of them and knew Mayor Parker worked diligently in the past with the Citizen Review Board and believed it was time to create one with subpoena power. Council Members Lovell and Jones absent.

Council Member Noriega moved that the rules be suspended for the purpose of extending the time for questions of Mr. Johnny Mata, seconded by Council Member Bradford. All voting aye. Nays none. Council Members Lovell and Jones absent. MOTION 2010-0037 ADOPTED.

Council Member Noriega stated that was right and she thought they could take it up in committee, but she would point out articles in the paper talked about this as a regional issue and it needed to be addressed regionally as well; and Mayor Parker stated that she would be happy to. Council Members Lovell and Jones absent.

Council Member Bradford stated that was his request and he would like to bring to the Public Safety Committee a full discussion to examine the plusses and minuses to both sides of the issue; and Mayor Parker stated that she was not aware of the MOU that was discussed and to Council Member Noriega that would be a good place to start and they could also schedule a review of the Crisis Intervention Team protocols and whether they changed recently and she would work with them on further Agenda items. Council Members Lovell and Jones absent.

Council Member Rodriguez on a point of personal privilege stated that he wanted to welcome Mr. Russell Adair of the Eastwood community who was present and thank him for all his work in the community. Council Member Jones absent.

Council Members Adams and Jones absent.

Mayor Parker stated that they were in litigation on the issue right now and she believed there may be some interest in Council looking at the ordinance and they would take his comments under advisement. Council Members Adams, Noriega and Jones absent.

Upon questions by Council Member Johnson, Mr. Henderson stated that the building did not pass; that the architect said he had to pay the city the money first, but then later the city explained he did not have to pay impact fees until the plans had been okayed, but his architect said he had to pay it before he submitted plans, but when he paid it he asked could he get his money back if the plans did not pass and he was told yes, he did not know who the person was,

but if they knew better they should have explained it; and Council Member Johnson stated that he needed to speak with Mr. Drabek because by city ordinance and policy those fees were not refundable, but he would have opportunity to sell or transfer the fees to another owner. Box 3624, Houston, Texas 77253-3624 (713-523-6969) appeared and stated that he was present with a concern of policies in HPD which had been longstanding, one came to light recently because of the death of Myra Ikle, no one in the Homicide Division was sensitive to her, her community or the circumstances of her death because gay people could not serve in that department, they never had; that a Black female officer called her at home because she got a job in Homicide and when they found she was Lesbian she was gone in a week because she was not welcome there; that since Chief Bradford left the doors were not as open to the community; that he did not think there was any legitimate purpose for officers to wear ski mask and brandish guns in businesses where there were scantily dressed women because it was difficult to hide a weapon wearing a bikini, but it was a regular practice; that he knew no one in Legal or he would go about concerns in interpreting appellate law different from what the appellate courts did, even Mr. Zumo, the lawyer the city hired said he was correct and the city was not on certain points, but no one returned his calls. Council Member Noriega absent.

Council Member Adams thanked Mr. Hill for coming and stated that Ms. Myra was a sensitive issue and she and Council Member Bradford attended the visual last night and to Mayor Parker many attendees last night had the same issues, killing and brutal beatings should not happen regardless and they brought up concerns of having no one to talk to; that the transgender community stated they had no one to talk to when their lives were in danger; that she supported HPD and people should have someone to speak to when they felt their lives were in danger; and Mr. Hill stated that he went to the scene and there was a lot of soft soil and you could get shoe impressions, but there was no evidence any impressions were taken and he talked to the homeless there and one indicated he spoke to another who may know something and was in hiding and he could help police track down information, but there was no one to talk to; and Council Member Adams stated to Mayor Parker stated that she would ask for her support in making sure TxDOT cleared some of the area where the homeless went often because a lot of activity occurred there. Council Members Johnson, Rodriguez and Noriega absent.

Council Member Jones moved that the rules be suspended for the purpose of extending the time for questions of Mr. Ray Hill, seconded by Council Member Bradford. All voting aye. Nays none. Council Members Johnson, Rodriguez and Noriega absent. MOTION 2010-0038 ADOPTED.

Council Member Jones stated that she believed this was a human rights issue; that it was important as much as law enforcement was valued they must also value citizens, if citizens did not trust police they would not talk and more murders could be a result; that people not allowed in certain divisions jumped out at her and she would respectfully request of Mayor Parker to find out if in fact this was true, whether it was written or unwritten policy if people were moved out of certain divisions if found they were certain categories of people as it was problematic to her; that she sent an email to the Mayor on transgender issues such as having dignity and respect when you go to the restroom and could not get it resolved last term, but she emailed her something the next day and the problem was solved and she thanked her and she hoped she would tackle this issue the same; and Mayor Parker stated that she would assure her there was no policy of discrimination in the Houston Police Department and if there was an informal policy it would be dealt with. Council Member Bradford stated that a number of officers did a number of great things and public safety was a community responsibility and his concern and question was he was baffled to hear a citizen and community leader after community leader come forward and express their inability to communicate with the top officials in the Houston Police Department; and upon questions, Mr. Hill stated that he dealt with every Houston Police chief since Herman Short; that his (Council Member Bradford's) office was open and they wasted no time, they discussed issues and came to understandings and he won and lost some, but was always heard and treated fairly and that had not happened in the last six years; and Council Member Bradford stated to Mayor Parker that he would suggest they do what ever they could as quickly as possible to send a message to leadership; and Mayor Parker stated that she did not know what else she could do except replace the Police Chief which she was already in the process of doing; and Council Member Bradford stated that was part of the equation, but none the less it was sad when citizens believed they could not communicate. Council Members Johnson, Rodriguez and Noriega absent.

Mr. John Johnson, 7102 Wendemere, Houston, Texas 77088 (832-453-1900) appeared and stated that he had been coming in a number of years; that he heard the Mayor was taking care of many issues in many departments and he had problems with the Fire Marshall and came to see if she could do something with Code Enforcement, the engineers there had no clue, they had tunnel vision, if they did not read it in a book they had no common sense; that there was a 25 foot setback line for some buildings and one was his project, but the building took up the entire lot other than the setback and storm drainage and they said he needed a detention pond, but you needed area for plantings and sidewalk and that was eight of the 25 feet and after calculations the detention pond would have to be eight inches deep so you were just making a pool of water and right at the sidewalk and with any small rain it would fill up and go back into the church; that he spoke with Mr. Mark Loethan and said a Texaco was being built down the street and they did not have one and neither did the apartments there; that he was told the Texaco had one underground, but there was no such thing as an underground pond, a pond was an open body of water. Council Members Gonzalez and Noriega absent.

Council Member Jones stated that she had opportunity to study flooding and areas that never flooded before now flood; that she spoke to many people, including Council Member Costello who was an expert, and when you replace grass with concrete there was no where for water to go, the lay of the land was changed and there was a way to retain water underground and they were trying to protect property. Council Members Gonzalez and Noriega absent.

Mayor Parker stated that Mr. Johnson had two locations where he was working on projects with one being rejected because of the requirement of detention and the other had been rejected by multiple divisions so there were other issues to be worked on. Council Members Gonzalez and Noriega absent.

Council Member Costello stated that his colleague wanted him to speak; and upon questions, Mr. Johnson stated that he had an engineer; and Council Member Costello stated that several years ago the city addressed drainage related issues on small lots and it was a criteria he helped to write and it was for low impact development and he should meet with his engineer and explore those opportunities, they were in Chapters nine and thirteen of the Design Criteria Manual. Council Members Sullivan and Noriega absent.

Council Member Hoang stated that he thanked Mr. Sherman for coming and for being willing to help in preventing criminal activities; that security cameras sounded good, but his concerns were if they violated deed restrictions or the First Amendment; and Mr. Sherman stated that people were photographed in banks, at lights, retail stores, on his property, etc.; and Mayor Parker stated that apparently there was a program in the city which allowed management districts and other similar entities to install video surveillance cameras and they could direct Mr. Sherman to the appropriate person to explain current policy and she believed it was housed in Public Safety under Mr. Dennis Storemski, the Public Safety and Homeland Security Director; that he could meet with Mr. Espitia with Citizens Assistance who was present to discuss his proposal. amount of reports, etc., she was told she could not identify the suspects or incident but a witness in another vehicle said she could not identify the person either, but her concern was she called the Mayor's Office and spoke with someone who transferred her to HPD who transferred her to the Crime Unit and disconnected; that she called again and it was finally suggested she go to Council with her concern, what if the same vehicle caused a death next time and was not investigated this time. The City Secretary stated that Ms. Carol Haddock with the Public Works Department would make comments on the public hearing. Council Members Johnson, Hoang, Rodriguez and Lovell absent.

Ms. Carol Ellinger Haddock stated that she was Senior Assistant Director of the Department of Public Works & Engineering, that it was more than six years ago that the Texas legislature provided a new tool for addressing contaminated properties by authorizing Municipal Setting Designations or MSDs, that an MSD protected public health by designating a particular parcel, beneath which contaminated groundwater was prohibited from use as potable water, that this State law was administered by the Texas Commission on Environmental Quality or TCEQ, that MSDs were intended to encourage redevelopment of vacant or abandoned property while protecting the public health, that she was here today because, although the TCEQ was the agency that issued an MSD, participation in the State program required local support, that on August 22, 2007, the City Council amended Chapter 47 of the Code of Ordinances by adding a new Article 13, that Council action provided a process by which the city may support, or not support, a party's MSD application to the State, that today they were holding a public hearing for an application submitted by the Annie D. Adams Family Partnership, for 12 acres of land located at 1025 Lockwood Dr., that the property was formerly owned by Rheem Manufacturing, they manufactured containers and drums at the site, that these operations were conducted at the site from the 1930s until the property was sold in 1986 to this applicant, that groundwater monitoring had occurred at the site since 1990 and the area of contamination was stable and in some areas shrinking in both size and concentration, that there was no source material at the site, however, four contaminants of concern still existed in the groundwater that exceeded human ingestion protection levels, that today's public hearing was a required step in the MSD process, that on November 16th 2009 written notices were mailed to property owners within ½ mile of the property and to owners and operators of water wells within 5 miles of the site, that Public Works then hosted a public meeting on December 12th at the Ripley House Community Center, which was located near the site, that based on the information supplied in the application, input from various Departments, and input at this public meeting, her Director had requested this public hearing, that depending upon the outcome of today's hearing, the Director of Public Works and Engineering would request that Council adopt an ordinance to support this MSD application, that the ordinance would include all elements required by State law and Article 13 of Chapter 47 of the Code of Ordinances, that in particular it would state that the City supported the application of Annie D. Adams Partnership to the TCEQ, that it would prohibits the use of groundwater from beneath the designated property as potable water, and would prohibit the maximum depth of the designated groundwater, in this case 200 feet. Council Members Johnson, Hoang and Lovell absent.

The City Secretary stated that no one had signed up to speak at the public hearing. Council Members Johnson, Hoang and Lovell absent.

Council Member Clutterbuck moved to close the public hearing, seconded by Council Member Noriega. All voting aye. Nays none. Council Members Johnson, Hoang and Lovell absent. MOTION 2010-0040 ADOPTED.

Council Member Clutterbuck stated that this was an item for automated recycling containers through an interlocal agreement for cooperative purchasing with Tucson, Arizona and was a pragmatic and efficient way to purchase and add over 20,000 new automated recycling containers to 20,000 households and to convert 30,000 tub containers into automated recycling, that it was good news to the citizens of the City to participate in the automated stream recycling, which was where they did not have to separate out their recycling into glass and plastic and paper, they could just dump everything in the trucks as they come through and they sort it as a single stream recycling, that the item would add 50,000 more households to recycling, that they looked forward to converting additional homes to recycling in the future and the next wave would be paid for with the savings that the Solid Waste Department was going to be achieving through the bio bags that they were asking everybody to participate in.

Mayor Parker stated that she wanted to point out that they were not actually purchasing these containers from the City of Tucson, Arizona, it was a cooperative purchasing agreement and they were the lead City, so they were the named City, that it was a nationwide contract that the City was piggybacking on.

After further discussion Council Member Johnson stated that he appreciated the Mayor clearing up the notion that this was not coming from the City of Tucson, which was his question, that they were going to spend \$2 million and he wanted to make sure where that money was being spent, were they spending it with a local company, would there be some local participation if this in fact was grant money, that he wanted to make sure that some of that money, at some point, could be spent in the City of Houston with their local businesses, that he wanted to know who was the contractor who would be doing the business, was it a local or State company. Mayor Parker absent. Mayor Pro Tem Clutterbuck presiding.

Mayor Pro Tem Clutterbuck stated that the company was Totter, Inc. and were from Statesville, NC, they were the manufacturers of this special kind of automated recycling tub, but they could get him more information as to whether or not they had any local participation. Council Member Pennington stated that on the recycling issue Council Member Johnson mentioned the involvement of local companies, that he thought that Waste Management had the same kind of ability to separate the different kind of recycle materials and he presumed that the department had done it's due diligence and given everybody an opportunity but just in case they did not know he just wanted to suggest it as a way they could keep the money at home. Mayor Parker and Council Members Adams, Sullivan, Rodriguez, Noriega and Bradford absent. Mayor Pro Tem Clutterbuck presiding.
