The City Secretary began calling the list of speakers.

Mr. Jason King, 9411 Longbow Circle, Magnolia, 77354, (713)206-3117 had reserved time to speak but was not present when his name was called. Council Members Nguyen, Laster and Costello absent.

Mr. Ray Hunt, no address, no phone number, appeared and stated that the HPOU had been accused of stalling the body cameras which was far from the truth, the HPOU was not opposed to body cameras since 2013 and they also were informed last month of that a proposal to have body cameras delivered to 4,000 police officers about 11 months ago was never acted upon and he was present today to complain about the procurement process, Item 55, the HPOU had approached the Mayor and Police Chief early this year to get a show and tell, so the members could see the cameras which the Mayor and the Chief thought it was a great idea which they planed it but heard that any vendor that came would excluded in the process and they canceled it and last month they were called to the Police Department to sign a confidentiality agreement and then they were shown the camera that the police would be using which that was the first time that HPOU had been included in the selection of the camera or draft of the policy and 23 of their members wore the cameras and he contacted 18 out of the 23 and the overwhelming sentiment was that more cameras should had been tested and appeared that a decent camera was put up against others and at this time they can not support Item 55 and they had two productive policy meetings but they need more time; that he held a body camera for the first time yesterday and it possible that this camera can stand up to the others out there but they do not know because the procurement process would not let that happen and they believe the selection of vendor should be reopened and four cameras tested. Council Members Nguyen, Laster and Costello absent.

Mr. Jerry Ford, Jr., 12627 British Knoll Ct., 77014, (832)613-2341 appeared and stated he was the Founder and President of the Texas Southern University Democrats and was present today to express his concerns for the body camera policy in particularly, page 6, paragraph 1, 2, 3, 4, 9 and 10 which he thinks should be revised because they look at the whole theory behind the body camera was a video system that was conductive to the safety of the officer and the citizens and not to have an incident like Ferguson but he believes because of this page, this loop hole in the policy it opened them up to a situation like that which defeated the whole purpose of the policy for the body cameras to allow the officers to turn on and off the cameras and before they pass any body camera policy, they should revise to this page. Council Members, Martin, Nguyen, Gonzalez and Laster absent.

Ms. Kim Ogg, 612 west 26th St., (713)974-1600 appeared and stated she here to testify against and to recommend against the purchase of the body cameras at this time until the public policy was fully flushed out in a general order for HPD and she wanted to make remarks that the Mayor was about to leave this city into the largest collection of evidence that they ever attempted, recording thousands of hours of police work with victims, on scenes, and with regards to the input of the lawyers, of the others practitioners that were going to be involved in handling the evidence, both defending and prosecuting and she has not spoken to any of the lawyers in the Criminal Courthouse which they did not know anything about this. Council Members Martin, Nguyen and Christie absent.

Ms. Sue Lovell, 1802 West Main, 77098, (713)520-6756 appeared and stated she was here on something that she thinks was very important which has to do with public safety, she had spoken to Members of Council earlier which was the Safeclear Program which Council was going to have to vote on tomorrow and she simply cared about process and how things move along, Safeclear has a National reputation, it has a higher standard and in this RFQ there were some things that were wrong which was the mileage, that there was no response time, that

magnetic signs were allowed and most of all there was no public meeting on this contractor on the issues that were there which also includes a rate fee and there was no stakeholders at the table. Council Members Martin, Nguyen, Pennington, Laster and Christie absent.

Mayor Parker stated that Council had the ability to vote up or down on the contract, if the contract was voted down obviously the Administration would immediately begin to negotiate a continuation of the existing contract because they do not want the program to lapse. Council Members Martin, Nguyen, Pennington, Laster and Christie absent.

Mr. Travis McGee, 5747 Lakefield, 77033, (832)488-7709 appeared and stated he was present to voice concerns of the body cameras and he thinks that anything that starts off wrong would end off wrong, that a policy needs to be in place because it does not make sense to go out and purchase the cameras without the policy in place, the policy means accountability and if there was no policy, then there was accountability and not only that, it was about the price tag, do some research, it should not be rushed and still needs more public input, particularly the ones that had been effect on questionable police actions; he believes that the third party needs to come in and there were 28 different major cities that did not go with the vendor that the City of Houston decided to go with and he thinks that they city should weigh more opinions, get more input from the citizens and then a go honest policy would be developed and also the policy should go inside with the Civilian Review Board, it should benefit everyone, not just the Houston Police Department. Mayor Parker, Council Members Nguyen, Pennington, Laster and Christie absent. Mayor Pro Tem Gonzalez presiding.

Mr. Isiaiah Fields, 17800 North 85th St., Scottsdale, AZ, 85255, (480)235-2557 appeared and stated he was the Director of Government Affairs for Taser International, Taser International was the world's largest manufacturer of police body cameras as well as third party cloud storage of software and they were in over 5,000 agencies in the United States, have sold over 64,000 cameras to date; the last 28 major cities to make a side scale department in the last three in half years had all selected Taser International for both cameras and third party cloud storage and they were in 453 agencies in the State of Texas including San Antonio, Dallas and Fort Worth, make no mistake that the body cameras themselves, the hardware, were an important piece of the body camera program and the selection of that needs to be done carefully and thoughtfully, they started making law enforcement cameras back in 2005, putting them on their Taser weapons and 2009 they started to sell body camera and they learned very early on, it was the software and the storage that was the most important piece of this entire process and Council needed to make sure they had thought through the security every step of the way, that they have a change of custody to be accounted for, that they have a tamper proof system where the public and the officers can trust and they need the ability to update the technology on a regular bases; Taser International had come up with technology with evidence.com and that was the software that they sell and they manage digital evidence. Council Members Stardig, Nguyen, Laster and Robinson absent.

Mr. Mike Burrridge, 801 Donaldson Dr., McKinney, 75071, (505)860-6712 appeared and stated he was a 28 years law enforcement veteran, a retired Chief of Police and had watched this meeting with a great deal of interest because this was an important issue and he appreciates Council Members involvement and community involvement; he was present today because he was the Director of Watch Guard video and Watch Guard Video an Allen, Texas based company which has approximately 200 employees and all their products were designed, manufactured, quality assurance programs were all done in their factory, for over ten years Watch Guard had been producing video capture and management systems that were effectively, efficiently and securely manage digital evidence used in law enforcement and to

date they have about one third of all law enforcement agencies in the United States that used a combination of their camera system or body worn system; their system captures and manage over 200 million videos a year and until recently he was the Vice President of Watch Guard their largest competitor and the reason he joined Watch Guard was because he believed that his experience had shown him that Watch Guard produces the industry leading products and solutions, their goal was to provide the highest quality products to the law enforcement community and the communities that they serve and their products were designed from the ground up for one function and that was to capture digital evidence that could be used to protect the communities and the officers that wear the equipment. Council Members Stardigm Boykins, Nguyen, Gonzalez, Laster and Robinson absent.

Mr. Jason Stuczynski, 415 Century Parkway, Allen, 75013, (904)625-6028 appeared and stated as Mr. Burrige stated which there was not much more he can say because its already been said on behalf of Watch Guard but he would say that he did ask him to speak for them today because he chose Watch Guard, much for the same reason their customers chose Watch Guard, they have roughly 6,000 customers Nationwide and Council Members were right, that body cameras were new to them relatively speaking but they were new to this whole industry which the technology was changing every day, so what he came here today not as a proposed vendor but in their opinion, they were a proposed partner to the City of Houston and he also wanted to echo that they have 200 strong employees at Watch Guard and that number was growing rapidly and it was a blessing to serve people who serve them; Watch Guard was committed on the product, the solution and capabilities. Council Members Stardig, Nguyen, Gallegos, Laster and Costello absent.

Mr. Augustin Pindeo, 7838 Battlecreek, 77040, (832)883-2570 appeared and stated being in the Civil Rights field and with LULAC and also with the Greater Houston Coalition for Justice, there was a great deal of concern with the lack of transparency in trying to acquire the body cameras and they feel that there were not enough opportunities given to the officers to vet the cameras to make sure it works well for them, not only were they concerned about the ordinary citizens but they were concern about the officers and he believes they need a proper vetting period which was about 3 to 6 months to have the opportunity to see the different providers. Council Members Stardig, Nguyen, Gallegos, Laster and Costello absent.

Mr. Randall Kallinen, 511 Broadway, 77012, (713)320-3785 appeared and stated as other people before him have done, he go looked to his right and it states the people were the city but what he had been hearing from Ray Hunt was that the police had been meeting with the city in regarding the policy and it was almost done but there had been no request from anybody else that he knows of who represents the public, the public and the people want to be in on this policy argument, they do not want to come by at the end when the policy was made in a bow and state here it is with all the 15 pages with the 1,000 details, they would like to be in the process because they also would like to benefit from what the people were saying and the research and to hear what everybody was saying and to benefit of the discussion and the knowledge of all the other stakeholders. Mayor Parker, Council Members Stardig, Boykins, Nguyen, Laster and Costello absent. Mayor Pro Tem Gonzalez presiding.

Mayor Pro Tem Gonzalez stated to be clear he through the last time Mr. Kallinen was here, he mention to him that the policy was online; they had information so the public can give input and that there had been opportunities out there and he was not saying it's been far reaching on that but he did want point that out just to be clear. Mr. John Mata, 7110 Greenwood Point Dr., Cypress, 77433, (713)539-3828 appeared and stated he was appalled what he read, when the Police Department presented what was to be a proposed plan but the final approve was in Council Members hands and what Council decides today was going to have a major impact on the lives, not only on the police officers, that had not been vindicated but of those people that had lost a love one and they have not had a resolution; Council had a lot of issues if Council does not make this right and you already had heard from his colleagues. Mayor Parker, Council Members Stardig, Boykins, Martin, Nguyen, Laster and Costello absent. Mayor Pro Tem Gonzalez presiding.

Mr. Ken Ulmer, 1700 Brittmoore, 77043, (713)800-6600 appeared and stated he was contractor for Safeclear and had been one for 10 years and he was actually the implementer of the pilot program before Safeclear became Safeclear, he was also the Chairman of the City of Houston Automotive Board and he was really here to talk about Safeclear; Safeclear in his opinion and in a lot of others opinion the single best traffic management program in the United States and they had saved so many countless lives with a small budget and there was set backs, the budget issue when they lost their funding in 2010 which set the program back substantially and he had heard of some of the problems in the industry like the employees being treated as sub-contractors to not to paying taxes and there was another issue with flipping vehicles, as Council may or may not know, these were issues that had been tied to Safeclear in these meetings and in this discussion and this was not Safeclear that this had been going on in this industry for a very long time, these are not new issues, that these issues were not aroused because of Safeclear, these were issues that need to be fixed and there was no question about it, it needs to be fixed and enforcements and if you look at the Police Officer Tow Service Agreement, it reads employees multiple times in that agreement, yet 90 percent of the companies do not have employees. They have subcontractors, this was an issue on the side streets or main highways, it was an issue anywhere they were, so all he wants to clarify and he the decision that Council needs to make was that, is Safeclear a program that needs to move forward which he thinks it should. Mayor Parker, Council Members Stardig, Boykins, Martin, Nguyen, Pennington, Laster and Costello absent. Mayor Pro Tem Gonzalez presiding.

bidding process was fraud, the application was not clear, the applications that were excepted from the contractor did not met current contact standards, mileages distance were fraud with the result of some contractors being unstaffed and lack of equipment, the price increase without a public hearing and in his opinion if this was passed in its current state, that Council Members and the public needed to be aware, the whole United States was looking at them and they have a chance to make this right now. Mayor Parker, Council Members Stardig, Boykins, Martin, Nguyen, Pennington, Laster and Costello absent. Mayor Pro Tem Gonzalez presiding.

WRECKER, CORPORATE AUTO SERVICES, INC, dba MILLER'S AUTO & BODY REPAIR, HOUSTON AUTO TECH, INC, dba HOUSTON AUTO TECH for the Houston Police Department 5 Years - **TAGGED BY COUNCIL MEMBERS KUBOSH, LASTER and STARDIG**
This was Item 28 on Agenda of November 10, 2015- was presented,

Mayor Parker presented and made the following statement:

“In accordance with the language of the SafeClear contract, the Chief of Police has the authority to determine a response time performance standard as a means of insuring the best possible services are provided to “non-consent” SafeClear tow customers. That language is as follows:

2.02 Scope of Services

(b) Operator shall provide Tow Services for all “non-consent tows” authorized by the City from Freeway Segment on a 24- hour basis provided the operator responds to the scene **within the time specified by the Police Chief or designee. The Police Chief shall promulgate maximum response times based on the time of day, the day of the week, the nature of the incident, and other factors the Police Chief deems relevant.** Operator shall not have to respond in less than 6 minutes of dispatch by a law enforcement officer. Operator shall respond within the maximum time established when dispatched by a law enforcement officer.

1. The Police Chief may specify a response time provided it is not less than 6 minutes of dispatch.
2. The Police Chief may promulgate response times based on the time of day, the day of the week, the nature of the incident, and other factors the Police Chief deems relevant. “

Mayor Parker stated that she was in agreement with this language and support the authority of the Houston Police Department’s Chief of Police to make this decision.

Furthermore, it is my intention, once the matter of the SafeClear contract is resolved to provide each SafeClear vendor with a letter of notification that each one of them will be required to respond to all SafeClear incidents within 6 minutes. I firmly believe this specific requirement contributes significantly to reducing traffic congestion time and the probability of secondary crashes from occurring and it is also my intention to conduct a 90-day preliminary follow-up analysis to determine the effect(s) of this directive.
