At 2:09 p.m. Mayor Turner requested the City Secretary to call the List of Speakers.

Mr. George Gitschel, 10118 Limbrook Hollow St., 77042, (832)426-4735 appeared and stated that he is the President, CEO and Founder of Echohub, they came here 6 years ago proposing to build a 650 million dollar facility to take all of Houston waste and to take it and turn it into products that can be reused all on their own dime, they employ 3,000 people, contribute 1.7 billion dollars to the local economy every year, they went through the Bloomberg Award and Procurement through the City, they won the bid, they were supposed to get a contract with former Mayor Parker and started with Mayor Turner and his Aids and thought they would get started in 2016 when all of the sudden a single stream contract came up that they could not bid on because it was rigged from preventing them for bidding on it and they have proof of that through e-mails that they have requested from the City and that it is another travesty and the ability to be able to compete and to provide a service to the City that would have been benefitable to Houstonians and he thinks it is really sad that they are going to do a contract with FCC which is 25 year old technology and there is a market ban on recyclables in the Government of China so there is no place to bring all these things and the difference of what they were going offer and what they were about to save Houston which is 1.5 billion dollars and they all they wanted was a chance to compete fairly and Houston is going to the same thing that Dallas is doing with FCC, in recycling and the 3 route system and they have a garbage tax of \$26.00 month and right now they charge the citizens of Houston zero and the next year or 2, guess what is coming to Houston which is a

garbage tax which is \$120 million dollars a year and it is all on their shoulders and it did not have to be this way but that is what they are going to do. Council Member Christie absent.

Members of Council questioned Mr. Gitschel at length.

Mayor Turner recognized Council Member Knox for a procedural motion; Council Member Knox moved that the rules be suspended for the purpose to hear Mr. Lorenzo Bulter out of order and seconded by Council Member Kubosh, all voting aye, nays none. Council Member Christie absent. **MOTION 2017-0011 ADOPTED**

Mr. Wayne Dolcefino, 3701 Kirby, Suite 560, (713)360-6911 appeared and stated that he is not going to sit around here and argue who they should pick to recycle garbage and he is only here to talk about transparency which is a word that get around a lot and the reason he wanted to speak to Council about this because their names are on the documents that are sent to Attorney General when the City wants withhold records and when he files for requests which the City has ignored and will be held in contempt for ignoring, he filed a request on December 31st for the names of the evaluators of this Recycling Contract for the actual scoring sheets and maybe for the contract itself, they have sent to every Council Member Office the document and the City said yesterday to the Attorney General in seeking to withhold it and he is not big on reading stuff and it says that negotiations with the City and the selected bidder would be negatively impacted, why, they are voting on the contract tomorrow, what is the negative impact now and he is always interested when Politicians stated on what a great deal this is and this is the best deal that they are going to get and that they should be proud of it and let everyone see what a great deal it is if they are so proud of it and it also states that this would negatively impact the prices that were offered, why, they already got the prices; his company is spending a lot of time arguing about public information act request and he is asking for them to do contracts transparency and do it honestly, he does think that Echohub got rigged and yes he thinks there was an effort to make sure that they did not get to place a bid and when Echohub did not get a courtesy response, the City ignored them for 4 months and they came to his company to hire them and all they did was ask for information. Council Member Laster absent.

Members of Council questioned Mr. Dolcefino at length.

Minister Gilda Black, 4219 Kelling St., 77045, (713)702-5880 appeared and stated that she comes from District K and she wanted to commend everyone that is around this horseshoe and how they handle the hard times during Harvey and she came to speak with the Mayor because she has a problem with Baker Ripley and she wanted to establish that she is relevant, she is still homeless, she left her home on 8/30 and been through 3 shelters and she has been put in a Comfort Inn that was hinden and the manager from that Inn lost his job because he wanted them to remain safe and she does understand that there was a sum of money that was set forth with Baker Ripley and she had been told by some people not to talk to anyone else about Barker Ripley, she was forbidden to ask any questions and that is why she is here because there is something wrong there and the problem is that she is poor, disabled, she is grandmother and she is out of her home for 5 months, she was turned down by FEMA and she met every criteria in the application and it is from her understanding that she had been accepted but she does not know what she is accepted for and she does know what the contract was given to her but if they are representing her, she wants them walk with her and she wants to know what her entitlements are and she has not been told any of those things.

Upon questions by the Mayor Turner asked Ms. Black stated her house get flooded and she said yes that her house got flooded and had mold and she was able to utilize services to help her and Members of Council questioned Ms. Black. Council Members Davis, Martin and Gallegos absent.

Mr. Lorenza Butler, Jr., 3906 Daphne St., 77021, (832)880-3733 appeared and stated would they join Mayor Turner at the Mayor's VIP Reception at 6:00 p.m. at Ansheuser Bush and the drinks are on the Mayor, will they join him at the Greater Houston Frontiers Club on the 30th for Dr. Martin Luther King Memorial Scholarship Breakfast and they already have over 300 applicants, they need to be Houston Strong because the children are the next generation of Martin Luther Kings or Thurgood Marshall or writer or architect but not without the assistance of their school, Council and the City the hope for some of these kids are lost and again for them to join them. Council Members Davis, Martin, Travis, Gallegos and Laster absent.

Members of Council question and thanked Mr. Butler.

Mr. Dominic Mazoch, 110 West Rocky Creek, 77076, (713)697-0748 appeared and displayed his Metro key card because he took Metro today and that is what he will speak about is Metro and the question is when he refers to thing as the inner core of the City, he would like to know what he means by that, is it the inner loop like I45, 610 within that loop and there is one thing about Houston is that we have a diversity of problems and the one thing that affects everyone in this City is traffic in being able to get to point A to point B and the Mayor has a major decision to make around April because a person on the Metro Board is about to be timed out and he been on the Board for 8 years and it is around this horseshoe where they think about putting man or woman on this Board and they need to look at who this man or woman should be when looking for an individual to go on the Board and he thinks that a person needs to be transit dependent to get an idea of what is going on, he or she needs to know the Metro network, how the Board works and how they procure things, there are somethings that Metro needs to changed like he does not believe that Metro has the best bus fleet and they need to think what is the best thing to provide without using a lot of money for both the poor and the taxpayer, one system is not going to fit and they need more systems and this person needs to have respect for the operators, the people that repair the buses. Council Members Davis, Martin, Travis, Gallegos, Laster, Green and Edwards absent.

Mayor Turner let him finish his statement and Members of Council questioned Mr. Mazoch.

Ms. Nia Colbert, 1000 Greens Rd., 77060, (346)252-9541 had reserved time to speak but was not present when her name was called. Council Members Davis, Martin, Travis, Gallegos, Laster, Green and Edwards absent.

Ms. Gloria Zenteno, 7742 Broadview Dr., 77061, (281)825-7834 appeared and stated that she wanted to speak about celebratory gun fire and fireworks, she is native Houstonian, she lives in the Greater East End and she also the Owner and Founder of Barrio Dogs and the reason she wanted to bring up the organization is because that is part of her issue today because on New Year's Eve her plan like many was to spend a quiet and safe evening at home with her family and pets, the fireworks and gunfire started very early and when she reported it she was told that a patrol car would come by and investigate and when it never did and when she called again she was told that there were no resources for any calls this evening because of the increase of gunfire and fireworks that happens in the City and it continued throughout the early hours to day of New Year Day, her pets were in a horrible state and she family could not fall asleep because of the constant fear of gunfire and fireworks and her organization was notified by many people about their pets were missing and her company Barrio Dogs saw a spike in reporting of residents in the results of the fireworks and gunfire and her hopes are in speaking out today that there can be a

way to address the very dangerous day to celebrate this holiday and to bring an end to this way of celebrating. Council Members Davis, Martin, Travis and Laster absent.

Mayor Turner thanked her for being present and stated all of them share her concern because they have noticed that it has gotten worse all throughout the City and they will be looking at this very carefully between now and then try to come up with ways on how to decrease that activity.

Members of Council questioned Ms. Zenteno at length.

Ms. Sylvia Medina, 1209 Elliston, 77023, (281)825-7950 appeared and stated that she thinks that they know what the issue is and this has been an issue for discharging of gunfire and fireworks, they are willing to work in the East End, they will roll up their sleeves and maybe Council Member Cohen can add this to the Quality of Life Committee and they are willing to provides the time and the talent to sit at the table to come up with a solution, education is key, working with the Schools, the PTOs, the Public Relation Campaign, with HPD and she is asking them to take up on the offer in the East End because they will do everything that they can to bring this issue to the forefront, they do not want to complain they want help with a solution and Council Member Gallegos is well aware of the issue because he was Civic Club President and thanked them for their time. Mayor Turner, Council Members Stardig, Davis, Martin, Travis, Laster, Green and Edwards absent. Mayor Pro Tem Cohen presiding.

Mayor Pro Tem Cohen thanked Ms. Medina for coming because a lot of times people come with problems but they do not always want to help with a solution and she agrees in bring the topic up in the Quality of Life is a great idea.

Ms. Deborah Moran, 5615 Grape St., 77096, (713)774-0924 appeared and presented information and stated it is a New Year and another talk from her and she is back about the LED street lights and also about personal lighting, in the past year or 2 the same information that she been giving the Council has caused Cities to change their lighting and they are moving into warm lighting because these Cities are listening to American Medical Association why did Houston almost fail, Mayor Turner did order a review on the street lighting in January of 2016 but 2 weeks later Centerpoint Energy came up with a report which basically shot it down financial and looking at all of the information and she is here after more than 2/3 of the installation is already in because there are things that they can do in going forward one is like Los Angeles they already installed over 100,000 lights but the remaining lights could be changed into the warmer lights and that can help save more money and Los Angeles has come down about 30% in its wattage and secondly, if they do that, it can effect some of the suburban. Mayor Turner, Council Members Stardig, Davis, Boykins, Martin, Travis, Gallegos, Laster, Green and Edwards absent. Mayor Pro Tem Cohen presiding. **NO QUORUM**

Mr. Chris Liu, 1330 Old Spanish Trail, 77054, (832)375-5506 appeared and stated that he is from Sugarland but he went to school in Austin and he is very aware of the lightening situation and the new lights that are being put in by Centerpoint and in Austin he was involved in the dark sky initiative with the Hill Country Alliance and Texas Park of Wildlife, they have done a good job on educating the public about warmer lightening and how it effects public health and he thinks that they should be putting in dimmer LED lights, it is more cost effective and blue light have been shown to be adverts to our health which would increase health care cost and to him being a business major that this makes good business scenes to be putting in warmer lightening and he encourages them to make decisions and to take in consideration of the public health and to the cost aspect. Mayor Turner, Council Members Stardig, Davis, Boykins, Martin, Travis, Cisneros, Gallegos, Laster, Green and Edwards absent. Mayor Pro Tem Cohen presiding. **NO QUORUM**

Council Members Stardig, Martin, Travis, Gallegos and Laster absent.

Mayor Turner stated that the Inspector wanted him to clean his property and Mr. Johnson stated he wants to do that and he is doing that but the problem is that he cannot move as fast as the Inspector wants him to move and Mayor Turner asked him how much time did the City give him and Mr. Johnson explained how big his property was and he told the Mayor that he is doing it by himself and he would like to have at least 3 months and Mayor Turner asked him to speak to Rhonda, who is with the Mayor's Citizens Assistant Office after Members of Council finished questions.

Mr. Michael Morton, 1206 Nance, 77002, (713)459-2665 appeared and presented information and stated that his small architecture firm is in a 135 year old historic building in the Downtown Warehouse District and his family also owns the property, his community consists of residents, artists, small businesses, living and working lofts, restaurants, offices and art studios, their neighborhood is historic, diverse and unique to Houston and the Downtown District's 20 years vision for their neighborhood is to preserve the historic core of warehouses structures and existing art studios and to support population growth goals and workforce housing opportunities at new development sites and this is an exciting and positive new direction for what has been an undeserved part of the central business district, while these are positive features but they also have some negative ones, they suffer from extreme flooding due to the undersized and deteriorating conditions of the ageing storm water system and his building took on 3 feet of water during Harvey and his next door neighbor flooded for the fourth time in 2 years and they deal with constant noise and trash from I10 and there is a criminal presence due to the proximity of the jails and parole facilities and he genuinely believes that a low-level shelter is needed as an option for Houston's homeless citizens and is also understand that the proposed location is probably the fastest, cheapest and easiest solution and he is not convinced that this is the best location and he concerned about the safety of anyone there during a flood event and please see the images of the facility during Harvey, those living and working near the facility will likely experience increased unsanitary condition, as well incidences of crime by those who prey on the homeless and the placing this facility here will be an additional burden on this already neglected part of Downtown and the goal should be to find a location that provides the best chance for long term success and the City of Houston should hire a broker and like businesses do when searching for

property to occupy and there are multiple sites should be identified that meet the required criteria and then it should be put it to a vote. Council Members Stardig, Cohen, Boykins, Martin, Le, Travis, Gallegos, Laster and Green absent.

Members of Council questioned Mr. Morton and Mayor Turner stated as they explore they will look at different possibilities and if people give recommendations they will take a look at them like for example people requested for them to look at the property on Jensen which is no longer available and it is not like they are stuck on one, they do look for other options.

Mr. Ronald Williams, 14411 Twin Twist Court, Missouri City, TX, 77489, (346)715-3173 had reserved time to speak but was not present when his name was called. Council Members Stardig, Cohen, Boykins, Martin, Le, Travis, Gallegos, Laster and Green absent.

Mr. Carlos Calbillo, 207 Cordell, 77009, (832)758-8640 appeared and presented information and stated that he is pleased to hear that the Mayor is looking at other options, a lot of energy had been expended from Downtown and he is asking if they can use new power to come up with something outside of Downtown and it is not hard to find and the Metro Parking facility as they have heard has flooded 4 times in 2 years so why take a chance on moving these people there and have to move out when we have a lot of rain and please make it their focus to find another place. Council Members Stardig, Martin, Travis, Gallegos, Laster and Green absent.

Mr. Gregory Gilbert, 3509 Bloom Field, 77051, (713)261-7861 appeared and presented information stated that he was here last month on his project on building tiny homes and they need empty lots to do that and they would like to spread tiny homes throughout Harris County, their plan is to create a new workforce for the victims of homelessness. 46. ORDINANCE approving, authorizing and awarding Single Stream Recycling Agreement between the City of Houston and **FOMENTO DE CONSTRUCCIONES Y CONTRATAS, INC d/b/a FCC SA** for the Solid Waste Management Department; providing a maximum contract amount - 15 Years with one five-year option - \$36,802,241.00 - Recycling Revenue Fund

TAGGED BY COUNCIL MEMBER KNOX

This was Item 32 on Agenda of January 3, 2018- was presented,

Mayor Turner stated that he wanted to make some general comments, Item 46 came up midportion of last year and Council Members recommendation was to go back and get best and final offer which they did and the deal before them is \$11 million dollars better than the deal that was before them in July and to go back to best and final offer did produce and FCC did come out ahead, this is a company that has done outstanding work throughout the world and they are also doing business throughout the State of Texas, the facility that they built in Dallas is about 60,000 square feet and the facility that they are proposing to build here in Houston is over 100,000 square feet and the state of the art of technology is critically important because the market is changing and China has indicated that the products that they use to take, they are not taking anymore, so technology is very important along with keeping up that technology is important and once the facility is built which would be over 100,000 square feet, they would turn immediately over the City of Houston and the value to that facility would be \$23,000,000.00 which is a plus and when they first presented it the first time around they were proposing for \$25.00 dollars and the second time around they were proposing is \$19.00 so they came in better than and they will be creating 100 jobs or even more and for a financial point of view, it was a much better deal for the City of Houston, with technology, it meets the needs and what the City of Houston asked for.

At 10:35 a.m. Mayor Turner stated that they would move to the Mayor's Report.

MAYOR'S REPORT

Mayor Turner stated that the one thing that they are going to do throughout the year, there are number of things that come up with Ordinances in reference to fees, annual fees and what they are going to start getting, they will be getting a sheet with all of their annual fees that come up

and are on the schedule and had been passed out and they can see them and the other thing that they will be getting is there are a lot of dollars that are flowing in and different dollars on Housing and there will be a sheet on that it will help track the dollars that are coming from Housing and that will also be coming on a regular bases and if there are other categories that come on the list they will add to the sheet.

Mayor Turner stated that this is the first of what he hopes will be a weekly update on the progress of their recovery from Harvey, they are taking a neighborhood by neighborhood approach to getting assistance to the many people who need it and in November they will open a pilot version of Neighborhood Restoration Center at the Kashmere Multi-Service Center and the experiment has been operated by the City of Houston and Baker Ripley and he glad to say that it was successful connecting more than 700 Houstonians to disaster case management and vital services and now they are opening 8 more centers in neighborhoods hit hard by the floods and Baker Ripley will continue to be a partner and so will Memorial Assistance Ministries, services will be provided from many directions and 7 centers will be open next week, Arces Homes, Greenspoint, Edgebrook, Spring Branch, Pasadena, West End and Northeast and the 8th will open on February 1st in Cypress and most of the centers will be open every weekday and they can get more information on the addresses and operating hours of these centers at Houstonrecovers.org and he wanted to thank his City Staff, Baker Ripley, Memorial Assistance Ministries and all of the other partners who are making this happen, when they are able to get more centers to open they will announce them.

Mayor Turner further stated in the meantime they will continue to work hard to deliver on their other recovery priorities and helping displaced people get back into safe and secure homes, making Houston stronger, safer and more resilient and they are putting contracts in place, establishing policies and reviewing ordinances and all this so that they can get hammers swinging on home repairs and flood mitigation projects as soon as the money starts flowing from Washington into the City and it is important to realize that these priorities will require significant investment and so along without County and State colleagues they are still advocating strongly for appropriate federal disaster relief from Washington and he continues to urge the Senate to take action on the 3rd disaster supplemental as soon as possible and to ensure that Houston receives an appropriate share of that money and the House has already approved the Bill.
