Council Member Alvarado absent.

Council Member Sekula-Gibbs thanked Mr. Das and all members of the Indian community who were present along with Mayor White and stated that the community had brought much to the project which she recognized, but she also wanted to say the tragedy of the earthquake near India she wanted to send condolences to all who had family and friends there and wanted to let them know the India House and ICC were working hard to help with fund raising to lend support and aid; and Mr. Das stated that the tragedy was primarily on the boarder of Pakistan and India with many more killed on the Pakistan side, but he was certain there were fund raisers going on. Council Member Khan stated that Mr. Hussain had started many projects in the City of Houston which made this city better for a lot of people; and if you named any event with a humanitarian angle Mr. Hussain was always in the forefront; and thanked him for leading the efforts in the press conference on the fund raising for victims; and urged that all give some amount toward the relief efforts; and Mr. Hussain stated that this was devastation at historic proportions and every dollar did count and was equal to almost 50 rupees.

Council Member Garcia stated that his heart went out to their community and prayers were with him and his community; that in these times all of society was challenged with one natural disaster after another, but Houston had a big heart and would be there for them.

Mayor White thanked Mr. Hussain for being present and stated that even though people like to give goods money gave more flexibility and having said that he thought someone should immediately contact Mr. Michael Moore and Mr. Andy Shaw, some things may be of surplus of local needs and organized in warehouses; that the practical issue would be seeing if there was someone with regular transport service and that would be the best place to stage it and if they went into the frontier province of Kashmir it would need to be done by helicopter.
Ms. Trina Jones Stanfield, 5715 Logan Lane, Houston, Texas 77007 (713-869-0144) appeared and stated that she was speaking on the parking permits in the 5700 block of Logan Lane; that the current residential parking times 9:00 a.m. to 9:00 p.m. Monday through Saturday had worked well for residents, but very difficult for commercial properties and felt all properties should be treated fairly and suggested since it was a mixed use neighborhood Council take it under careful consideration to make it useful to all and answer not just present parking issues but any future parking issues due to expansion of more commercial properties; that she was willing to help Council by her experiences with the parking and recommended the restrictions be kept for the residential parking directly in front of their properties, but with no restrictions in front of commercial properties. Council Members Galloway, Khan and Green absent.

Upon questions by Council Member Quan, Ms. Stanfield stated that one side of the street had about five residents, dance studio and property to become two high-rise condominiums. Council Members Galloway, Khan and Green absent.

Council Member Berry stated that he felt a certain amount of frustration, that time, energy and expertise of the Council body had been devoted to a great extent to one street, but it was probably a great example for them because such issues were being played out through the City and they were a good test case; that they had the problem before the dance studio with overflow from restaurants. Council Members Galloway, Khan and Green absent.

Council Member Holm thanked Ms. Stanfield for coming and sharing; and upon questions, Ms. Stanfield stated that residential permit parking was important but did see unfairness as it prohibited commercial businesses to have the use of parking in front of their business; and Council Member Holm stated that there was a win/win situation and thought they could positively address everyone’s needs. Council Members Galloway, Khan, Quan and Green absent.

Ms. Nancy Bertin, 5727 Logan Lane, Houston, Texas 77007 (713-862-2628) appeared and stated that she also lived on Logan Lane in a two story home which was her grandparents, she had been there since 1973 and lived through the time there were no parking restrictions, then two hour parking, then 9:00 a.m. to 4:00 p.m. Monday through Friday and then 9:00 a.m. to 9:00 p.m. Monday through Saturday; that she was supporting the current hours of 9:00 a.m. to 9:00 p.m. Monday through Saturday as people would come park in front of their home and walk to catch a bus and the there was no parking for visitors; that they were also expecting big upcoming construction and they would like those workers to park in the lots available to them and not on their street; that also in the future they could have more restaurants and more needed parking; and also agreed with Ms. Stanfield that the restrictions should not apply to commercial property. Mayor White, Council Members Galloway, Khan, Quan, Sekula-Gibbs, and Green absent. Mayor Pro Tem Alvarado presiding. (NO QUORUM PRESENT)

Upon questions by Council Member Edwards, Ms. Bertin stated that she wanted the parking restrictions hours to stay as they were now for residents, but she understood an ordinance was in draft stage that would allow businesses on streets such as theirs to park on the streets also; and Council Member Edwards stated the ordinance being drafted as she understood would go forward and they would have to look at all parking decals; and Council Member Edwards stated that she would be against customizing decal parking for one area and a solution needed to be compatible for all communities. Mayor White, Council Members Galloway, Khan, Quan, Sekula-Gibbs, and Green absent. Mayor Pro Tem Alvarado presiding. (NO QUORUM PRESENT)

Council Member Holm thanked Ms. Bertin for coming and stated that this Council had wrestled hard over Logan lane because it would be a model for the future and she would suggest to her colleagues there was a win/win solution and the suggestion Ms. Bertin made was to keep hours 7:00 a.m. to 7:00 p.m.; and Ms. Bertin stated the hours were 9:00 a.m. to 9:00
p.m.; and Council Member Holm stated that she believed 100% of the residents were satisfied with that and they would receive letters for that and it also came about after the Planning Department confirmed the validity of the petition for it; that also next week it was her understanding there was an ordinance amendment that would address the residential parking ordinance, not Logan Lane, but the entire ordinance, and it would be a band-aid for the on-going problem throughout the city that would allow commercial entities to opt out of their space; and the Parking Commission which was established would address comprehensively the entire residential parking ordinance, whose needs had changed since its draft; and urged colleagues to have confidence answers were solvable for the whole city. Mayor White, Council Members Galloway, Khan, Quan and Sekula-Gibbs absent. Mayor Pro Tem Alvarado presiding. (NO QUORUM PRESENT)

Council Member Edwards stated that she wanted to be clear on what she was saying; that she appreciated Logan Lane’s situation and there were three or four such situations in Montrose and it seemed no one wanted to address them, so if there was an exception made for Logan Lane they would have to look at all those cases and if they were willing then she was fine, but if not she would say they should move on from there; and she would be standing firm; and Council Member Holm stated that she agreed there should be no exceptions, but was asking that they support the ordinance adopted on July 6th that was adopted for Logan Lane and for its credibility and then address the commercial opt out for the entire city through an ordinance coming next week. Wayside to a restaurant and she went to the bathroom then when she returned to the table Mr. Garcia told her he had drank a half a glass of beer, but a supervisor of theirs who was on vacation was in the restaurant and he called the other supervisors who came into the restaurant and asked Mr. Garcia to go outside with them and then said he would have to leave and go take a test for alcohol; that the test did not show he had any alcohol in him, but then they suspended him unjustly; that he was an excellent employee and had perfect attendance, it would be a year since he was suspended; and she did not feel there was equality in the outside workplace. Council Members Galloway, Khan, Quan, Sekula-Gibbs and Berry absent. (NO QUORUM PRESENT)

Council Members Galloway, Khan, Quan, Sekula-Gibbs and Berry absent. (NO QUORUM PRESENT)

Mayor White asked Ms. Duran, in Spanish, if she had seen someone in the City’s Human Resource Department, and Ms. Duran stated yes, but when she complained that there was injustice in the Parks Department they disciplined her and made her life unbearable; and Mayor White stated that Mr. Lonnie Vara was the Director of Human Resources and Ms. Dillard, of Citizens Assistance, would speak with him and they had Ms. Duran’s telephone number and he did not know if there was a procedure for this problem but the process was clear with Human Resources and he would read the policy; that it was important Ms. Duran and her friend, Mr. Garcia, understand that it was necessary to look out for their future and there were times when there was not necessarily a resolution for all the employees, but he would read the policy and procedures; and Ms. Duran thanked Mayor White and stated that she wished there was more equality because there were a lot of problems outside; that she lost her baby because the supervisors did not give her the paperwork on time and they put her to work on a very heavy job and that was why she wished they would look into her complaint. Council Members Galloway, Khan, Quan and Sekula-Gibbs absent. (NO QUORUM PRESENT)

Mr. Tom Bregel, 1644 Crestdale Drive, Houston, Texas 77080 (713-461-3258) appeared and stated that his heavy trash pickup was due the last Thursday of September, the day before Hurricane Rita was coming into town, and it was all still on the street; that he called 311, the Mayor’s Office and his Council Member’s office and after it stayed a week or two their grass died and it all looked terrible, the whole subdivision had stuff piled outside for two months, but 311 said the September pickup was cancelled and he would suggest when starting back to work they start where they left off, he should not be penalized 30 days because of a storm or holiday; that in November, because of Thanksgiving, they did not come until the fourth Thursday of December; that he was also present because of flood control, he would like the city to pass an ordinance that would prohibit blowing or sweeping across the property line onto city property, into the streets or ditches; that it piled up at inlets and blocked drainage and caused flooding; that he would also like something to go down ditches and bayous and get rid of Cattails and such so when rain came the water could still flow; that he would also like a fine placed on those who still caused trash, etc., to be in the streets and block the water outlets. Council Members Khan, Holm, Quan, Sekula-Gibbs and Green absent. (NO QUORUM PRESENT)

Upon questions by Mayor White, Mr. Bregel stated that he lived in the Long Point area, Spring Branch; and Mayor White stated that because they got behind in that area City employees volunteered all weekend to get caught up on the heavy trash pickup and they would work on it. Council Members Khan, Holm, Quan, Sekula-Gibbs and Green absent. (NO QUORUM PRESENT)

Council Member Berry stated that he hoped Mr. Bregel had what he said in writing as it would be useful and he would like to have it, regarding cleaning the ditches they had equipment to do it, but lacked the funds; that they should be doing it; and on trash pickup, they had more calls on that than five issues combined and it made him think that what they could do was
communicate better; that as the Mayor said they had companies and volunteers, etc., working on it and his hat was off to Mr. Buchanan as they had done a very good job, but communication strategy should be worked on. Council Members Khan, Holm, Quan, Sekula-Gibbs and Green absent. (NO QUORUM PRESENT)

Council Member Edwards stated that Mr. Hall, who was a staff person for Council Member Lawrence, would like to meet with him right after this meeting and regarding sweeping trash into the drainage and ditches there was a committee meeting yesterday which discussed that and his Council Member was vice chair of the committee and could give him and update. Council Members Khan, Holm, Garcia, Quan, Sekula-Gibbs and Green absent. (NO QUORUM PRESENT)
Council Member Edwards stated that this spoke to a larger issue of noise pollution in the City of Houston and the noise ordinance did not accommodate toward loud music, etc., and she did not know how they would manage it, but they did not have the technology, resources or something to control it; and the issue needed to be looked at in a bigger picture. HEARINGS

1. PUBLIC HEARING on the use of Tidwell Park in the City of Houston, Harris County, Texas, as a Park, Recreation Area, Scientific Area, Wildlife Refuge or Historic Site - 9:00

The City Secretary stated that the first hearing was a hearing on the use of Tidwell Park as a Park, Recreation Area, Scientific Area, Wildlife Refuge or Historic Site, that no speakers had reserved time to appear at the hearing, that there was a packet distributed for each Council Member in their backup material and Ms. Katy Farley, Legal Department, would make comments. Council Members Galloway, Wiseman, Khan, Holm, Garcia, Alvarado and Green absent.

Ms. Farley stated that they were present to have the hearing as required by Chapter 26 of the Texas Parks and Wildlife Department, that the Health Department had requested the use of approximately 6 acres of land out of Tidwell Park for the construction of a multi service center that would be used to provide health and nutrition programs, neighborhood improvement and protection programs and basic needs services, community events and educational programs, that Chapter 26 required that before they could transfer the parks property for another use City Council had to listen to the evidence that would be presented today and make a determination that there was no feasible and prudent alternative to the use or taking of Tidwell Park for the multi service center project and that the project had taken reasonable steps to minimize the harm to the park, that the Health and Parks Directors were going to speak and at that point they would open it up to questions that anybody may have. Council Members Galloway, Wiseman, Khan and Holm absent.

Mr. Stephen Williams, Director, Health and Human Services, stated that a variety of studies and feedback from various community interests had indicated a need for a park in the northeast area and in his opinion Tidwell Park was the most feasible location for the center, the location presented a unique opportunity for Health and Human Services and Parks and Recreation to actually engage in joint programming, for example there was a relationship between physical activity and obesity, so it would be the impotence for why they were wanting to do it. Council Members Wiseman and Khan absent.

Mr. Joe Turner, Director, Parks and Recreation, stated that they were in favor of it, the park would benefit from the project because the proposed project would introduce additional park users to their regional park, more people coming to the park would help them increase the use of compatible amenities that they both had and at the same time increasing park use would help them to deter vandalism at the facility so the Parks Department was totally in favor of the project. Council Members Wiseman and Khan absent.

After questions and discussion by Council Members, Council Member Lawrence asked how many multi service centers they had throughout the City of Houston and how many districts did not even have one multi service center; and Council Member Berry asked if they had an estimated cost on the construction of the multi service center and did they know what the nearest County facility that was a multi service center.

After further discussion, Council Member Galloway moved to close the public hearing, seconded by Council Member Quan. All voting aye. Nays none. Council Members Holm and Ellis absent. MOTION 2005-0975 ADOPTED.

The City Secretary stated that on the next hearing no speakers had reserved time to appear at the hearing, that she was required to announce that the vote to adopt a property tax rate for the City of Houston for 2005 would be considered at the City Council meeting to be conducted in the City Council Chamber, Second Floor, City Hall, on October 26, 2005
convening at 9:00 a.m. Council Members Edwards, Holm and Ellis absent.

MAYOR’S REPORT - Project Houston Hope - Infrastructure

Mayor White stated that there were two things that he would circulate to the Council Members and then send to their offices which he knew a number of people were interested in, one was the much delayed report on where they stood on the TIRZ and it had some scheduled proposed actions that they needed to take as a body and he welcomed input, obviously one of the issues raised there was that he was not sure they had the right organizational structure in the administration to provide adequate, integrated oversight of the TIRZs and a lot of it had fallen on his shoulders to do and because of the events of the last month it was delayed, that some of the circulated attachments were important because they dealt with some of the issues in the individual TIRZs as well as chronology, that the City Secretary would also circulate the information concerning the Emergency FEMA Reimbursements, not the rental vouchers or hotel payments or the adjustments of claims on destruction of property, that there had been well over $200 million distributed in various Council districts and it had a breakdown by precincts about those FEMA reimbursements, that people had asked that they make sure that their constituents would make sure that Houstonians were not pushed to the back of the line, that it went to show some of the impact of the local economy that some of the positive impact from the fact that they had reached out and taken in those Americans that had been victimized by the storm’s devastation. Council Members Wiseman, Ellis and Green absent.

Mayor White stated that at this time they had a Mayor’s Report on some of the infrastructure improvements in the Houston Hope areas, and recognized Mr. Michael Marcotte, Director, Public Works and Engineering for the presentation. Council Members Wiseman, Ellis and Green absent.

Council Member Garcia moved to suspend the rules to consider Item No. 28 out of order, seconded by Council Member Alvarado. All voting aye. Nays none. Council Members Galloway, Khan, Holm, Ellis and Green absent. MOTION 2005-0977 ADOPTED.

28. ORDINANCE relating to employment conditions, compensation and benefits of classified Firefighters of the City of Houston; approving a Collective Bargaining Agreement between the City of Houston and the HOUSTON PROFESSIONAL FIREFIGHTERS ASSOCIATION, LOCAL 341 INTERNATIONAL ASSOCIATION OF FIREFIGHTERS, amending Exhibit “A” of City of Houston Ordinance 2005-565 by reorganizing certain classifications, ranks and pay grades within the Houston Fire Department, and containing other provisions relating to the foregoing subject; suspending the operation of certain ordinances; providing for severability; and declaring an emergency – was presented. Council Members Galloway, Khan, Holm, Ellis and Green absent.

After discussion Council Members congratulated Mayor White and Mr. Roland Chavez, Union leadership, for working together on behalf of the firefighters who had been waiting for this day.

Upon questions by Council Members, Mayor White stated that the contract did not add anything to the budget, but it was within the budget that they had approved; that whenever they
increased base pay, and they had certain pension formulas, there was an increase in the pension, that they did not have that strange thing in the Police contract, which they inherited, which was pension based on the last paycheck, that they took a look at it and extended negotiations that they had with the Firefighters Pension Board; and Council Member Alvarado stated that Article 12 was the same as in HPD’s contract on the selection of executive assistants and assistant chiefs, and Mr. Michel stated that was right, it was Article 20 in the police contract and was the same. Council Member Goldberg absent.

After further discussion by Council Members, a vote was called on Item No. 28. All voting aye. Nays none. Council Member Goldberg absent. ORDINANCE 2005-1133 ADOPTED.

Mayor White stated that they would sign the new contract after the Council Members comments. Council Member Goldberg absent.

Council Member Quan moved to suspend the rules to hear from Mr. Roland Chavez at this time, seconded by Council Member Garcia. All voting aye. Nays none. Council Members Galloway and Green absent. MOTION 2005-0990 ADOPTED.

Mr. Chavez appeared and stated that he wanted to say thank you to each and everyone of them, that for those who had been on Council for many years knew the history of what had transpired over several administrations, that there were several things going through his mind but he would not be present today standing before them if he did not have the support of their Board and asked the Members of the Board to stand and be recognized, that they were the men and women who had been elected by 3,800 firefighters and if they looked at the faces of the Board they could see that there was a big change happening, that next week would be one year that he had been in his position and he was humbled, proud and privileged to lead the third largest Firefighters Union in the entire Country, that it had been an honor and privilege to stand before them, that he had 27 years in the Fire Department and was all he had ever known, that from college he joined the Fire Department and 20 years ago he got involved with the Union and planned on retiring from the Fire Department in the Union, that this was his goal to one day be standing in front of the City Council and he did it, that he wanted to thank Mayor White for allowing them an opportunity, after the first contract, to go back and seek out what it was that their members wanted and they brought that back to the Mayor and his negotiating team and
they worked out a deal, that it was historic, that each of their members knew how historic it was as far as a collective bargaining contract, each of the City Council Members now played a part in history, they were the first sitting City Council and Mayor to sit on the firefighters first collective bargaining ever, that it was a legacy, it was something that was going to be talked about for many more years to come and he applauded each and every one of them, that though it was not perfect, it was a start and a foundation and there would be some changes, obviously, but it had to be agreed upon by everybody, obviously, that the goal that their firefighters wanted to achieve was to be the best in the Nation, and they were already there, but now they would like to be compensated and recognized among the peers of New York, Chicago and Los Angeles and those cities, that they understood there was a beginning and a start, but this was it, that he wanted to thank each and every one of them for supporting their contract and they looked forward to working with them for many more years to come, that he applauded them, the membership and the Board, and he would say over and over again, if it was not for the citizens of Houston, the voters, who back in November 2003, they would not be here today, that he wanted to thank them from the bottom of their hearts and they would continue to do the best professional job that they asked them to do. Council Members Galloway and Green absent.

Mayor White stated that there was both good and bad in dealing with the counterpart for the Union like Mr. Chavez, as a negotiator he was very effective because there was no bluff in the bluster, he laid it down like it was and he could trust him when he said he represented the people in his Union and he could or could not do something, that the positive was that they all dealt with people where the louder the bark the less the bite, but Mr. Chavez delivered for his members and did it without ever shouting and screaming or maligning the people who disagreed, that was leadership and he respected Mr. Chavez for it. Council Members Galloway and Green absent.

Council Member Ellis stated that he was reading the Mayor’s memo dated October 12, 2005, Tax Incremental Reinvestment Zone, that it made a lot of sense and there were issues that they had discussed in the past, that the Mayor had set up a plan to address it before the 2006 Fiscal Year budget process, that he also talked about seeing Tax Incremental Reinvestment Zones as a way to inject tax abatements into a zone and to accelerate some of the projects in that zone and asked Mayor White with regard to tax abatements and what the policy of the City would be, the Mayor’s opinion, which he agreed with, that when a company was looking to relocate and wanted tax abatements the City should give them tax abatements in a manner of accelerating some type of infrastructure funding that would benefit their company and was Mayor White going to incorporate policies with regard to the tax abatements as he was doing with the Tax Incremental Reinvestment zones, and Mayor White stated yes, that there were a couple of things that he was not 100% clear on but he knew there had been tax abatements that had been granted over a long period of time, that he did not know how many exactly there were but were done in the form of what was called a tax reinvestment zone and at one point he was distinguishing, just so they got their terms right, that what some people called tax abatement the lawyers called a reinvestment zone because it was something having to do with the legal way, they were not actually lowering the taxes but were giving part of the taxes back, that they had been few and far between where they had offered incentives or a specific economic development, they did so with the City Council a month ago and they would notice how they did that and structured it was somebody creating a retail space that otherwise would not have existed and they were investing in something that would make the lower floor of that something that they could walk through that created that common space and amenity that was more like a traditional infrastructure investment rather than simply saying they were writing checks over to the developer and the other one was that they needed some parking in parts of downtown so the addition and acquisition of additional parking in that area so they wanted to link it to some of the types of things that the public normally invested in as opposed to being some kind of corporate welfare, and Council Member Ellis asked if they were going to put some mechanism in place where they could recapture some of the tax incremental reinvestment zones revenues for the increase in their public safety, were they going to address that they were putting a burden on property owners that were outside of the zone with regard to public safety
funding, and Mayor White stated that the last three pages were literally his notes of meetings that occurred for hours and hours on end, probably 12 hours of meetings in August 2005 to sort through it, that it was Attachment No. 3, that it was subject to Council approval and discussion and because of the administrative mess created by so many TIRZs; that there were a couple of the TIRZs where they both identified public safety needs and a source of funding that was uncommitted where they suggested allocations for public safety and more over on all the TIRZs starting with the next fiscal year the tax increment should be decreased by a factor representing inflation applied to current inflation, that they had not gotten to the engineering and the idea was that they should not be assuming that there was an increment or not be allocated to a district, that was due to inflation, that they were probably raising the base, that he was trying to link somehow so as they were changing the rules of the game they were explaining to stake holders why and how they were going to take money and put it into more public safety, and Council Member Ellis stated that they might have a Fiscal Affairs Committee meeting to go through all of it and have Ms. Johnson present and staff members for the Mayor so they could ask all the questions that they might have, that he would think they might want to wait until later in the year to do that. Council Members Galloway and Berry absent.

Council Member Ellis stated that he wanted to congratulate the Local 341 for getting a long overdue contract with the City of Houston. Council Member Galloway absent.

Council Member Goldberg stated that he wanted to congratulate India House on Item No. 19 passing, that if they wanted to look to a model for community participation they did not have to look any further than India House, that the community was raising three quarters of a million dollars, that the community was so supportive of it. Council Member Galloway absent.

Council Member Goldberg stated that he thought they needed a new ordinance, that he visited with the Health Department a few weeks ago and they were always talking about the mobile food vendors and the inspections that the City of Houston did were great and he thought they did it exactly right, the problem came when they went to the commissaries, which the City did not own a single commissary, and if the commissaries gave them a receipt saying they were there and they were not there it was not a crime, even if they knew the commissaries were giving out fraudulent receipts they could not stop them, there was no legal action that he thought they could take to stop them, they needed an ordinance making it a crime to give out a receipt saying that a mobile food vendor was present at the commissary when they were never there, that everyone knew it was going on, it was an ethical violation, not a legal one, and he had talked to the Health Department about it and they would like to see that ordinance pass and he thought they should take a look at it. Council Member Galloway absent.

Council Member Goldberg stated that he had mentioned before about graffiti problems in his district and in other districts and wanted to thank Mr. Joe Crouch, who sent him photographs of before and after and he was pleasantly surprised at the immediacy of the action they took in cleaning up the graffiti. Council Member Goldberg absent.

Council Member Goldberg stated that he wanted to wish the Astros good luck and knew they would represent the City well all over the Country. Council Member Galloway absent.

Council Member Wiseman stated that she appreciated the comments that her colleague made with respect to the mobile food vendors because it was an issue that they most definitely had to address, that it was an issue for the communities and she was hopeful that Council Member Goldberg’s committee would look at amendments to ordinances that related to mobile food vendors and any issues that they could bring to the table with respect to the level of enforcement and the effectiveness of the enforcement of the existing ordinances. Council Member Galloway absent.

Council Member Wiseman stated that she wanted to thank Mr. Buck Buchanan again for the tremendous job that he had been doing with the storm debris removal throughout the City.
Council Members Galloway and Khan absent.

Council Members Galloway, Wiseman, Khan, Green and Berry absent.

Council Member Edwards stated that she wanted to congratulate the Wings Over Houston Show, that it was a great program and she was excited to see a number of youth out there. Council Members Galloway, Wiseman, Khan, Green and Berry absent.
