CITY OF HOUSTON
QUARTERLY INVESTMENT REPORT
Executive Summary
For the Quarter Ending December 31, 2005

The accompanying Quarterly Investment Report lists in summary form and in detail the investment positions of the City of Houston operating funds as of December 31, 2005. As of that date, the City had a total of approximately \$1.7 billion invested. The majority of these funds, with the exception of about \$29 million that must be segregated for tax and insurance purposes, are contained in the city's General Investment Pool. The General Investment Pool consists of working capital, and construction and debt service funds that are not subject to yield restriction under IRS arbitrage regulations. All investments are governed by state law and the City's Investment Policy, which dictates the following investment objectives, in order of priority:

1. Safety
2. Liquidity
3. Return on Investments
4. Legal Requirements

Approximately 75% of the City's investments are currently invested in securities issued by US government-sponsored enterprises, such as the Federal Home Loan Bank, Fannie Mae, and Freddie Mac. The remaining amounts are invested in a variety of instruments, including United States Treasury obligations, municipal securities, high-grade commercial paper, repurchase agreements, and money market accounts. The securities contained in the city's investment portfolios generally have an AAA or equivalent long-term rating and at least an A-1, P-1 or equivalent short-term rating by the major bond rating companies, indicating a portfolio of the highest quality and lowest credit risk.

The weighted average maturity of the City's investments has historically ranged from about 1 year to about 2 years. The average maturity is currently about 1.7 years. From an operating standpoint, approximately 40% of the funds invested are designated to be spent on capital projects such as roads and bridges, the water and sewer system and the airport system. Investment maturities are arranged to coincide with needed expenditures for these capital projects. In addition investment maturities are arranged to meet short-term obligations, such as payroll and debt service payments.

Standard & Poor's Investment Services has assigned its AAf credit rating and S1 volatility rating to the General Pool. The AAf credit quality rating is the highest rating available from Standard & Poor's and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deterioration. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

During the quarter ended December 31, 2005, the general pool averaged a yield of 3.73% based on the amortized cost of the portfolio.

The General Pool consists of all working capital, construction, and debt service funds which are not subject to yield restriction under IRS arbitrage regulations. Combining the net cash-flows of all funds allows the City to invest in longer-term, higher-yielding securities without sacrificing the ability to meet short-term cash needs. The General Pool strategy, as outlined in the City's Investment Policy, combines a variation on the traditional laddered maturity strategy which matches assets and liabilities, with more active management strategies, such as yield curve analysis and bond swaps.

For the quarter ending December 31, 2005, the 3-month average yield was 3.73%. The weighted average maturity (WAM) was 614 days.

Standard & Poor's Investment Services has assigned its AAAf credit rating and S1 volatility rating to the General Pool. The AAAf credit quality rating is the highest rating available from Standard & Poor's and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deterioration. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

The Tax Exempt Pool strategy, as outlined in the City's Investment Policy, is to invest in high quality, short-term municipal bonds and one or more tax-exempt money market mutual funds in order to meet the liquidity demands of the City.
