### **Council Member Jerry Davis Instrumental in Removing Blight in Northeast Houston**

**HOUSTON — July 10, 2013** — Houston City Council Member Jerry Davis led the charge on Wednesday to eliminate a dilapidated shopping complex in Northeast Houston. With strong support from Mayor Annise Parker and City Attorney Dave Feldman, the City has issued a repair or demolish order. Within 60 days of Friday, July 12<sup>th</sup>, 2013 the building must be demolished or repaired or the property owner must submit an acceptable plan to remedy the blight.

The former K-Mart has been an eye-sore in the community for over a decade. As a result of today's unanimous vote from Houston City Council we have an opportunity to improve the quality of life for District B residents. "My constituents brought me here to make our community and district a better place to live. Today, we took another step in the right direction," said Council Member Davis.
