Emergency Solutions Grant (Fund 5000)

SPECIFIC EXPLANATION:

HCDD requests approval for a “Substantial Amendment” to the 2015 Annual Action Plan to reallocate $142,236.28 in Emergency Solutions Grant (ESG) funding from the 2015 Emergency Shelter activity line item to the Rapid Rehousing activity line item for the 2015 program year.

The funds will be used to prevent homelessness by providing short- to medium-term rental and utility assistance, housing relocation and stabilization services, moving expenses and other case management services for eligible households that need to be quickly re-housed and stabilized. To be eligible for this program, the renter must be at or below 80% of the area median income (i.e. $55,350 for a family of four). Specifics of the proposed ESG reallocations are listed on the table attached to this RCA.

In accordance with HUD’s Citizen’s Participation Plan regulations, the City is required to amend components of its Consolidated Plan/Annual Plan for a variety of reasons, including when a reallocation of funds increases or decreases the budget of an activity by more than 25% or when a new activity is added to an Annual Action Plan.

TIRZ Affordable Housing Fund (#2409)

SPECIFIC EXPLANATION:
The Housing and Community Development Department (HCDD) recommends the appropriation of $46,144,987.70 of TIRZ Affordable Housing Funds to build single-family and multifamily affordable homes, as well as to administer HCDD’s affordable home activities.

This Ordinance allocates funds for administrative use. For direct program activities, specific contracts will be brought to Council for allocation in accordance with local procurement rules. The Ordinance will also enable HCDD’s Director to adjust budget line items and provide sufficient administrative funds to adequately manage current grant-funded programs and to financially augment programs not funded by grants. SOURCE OF FUNDING

State Homeless Housing and Services Program (HHSP)

SPECIFIC EXPLANATION:

The Housing and Community Development Department (HCDD) recommends Council approve a Contract between the City of Houston and the Texas Department of Housing and Community Affairs (TDHCA) accepting a $286,002.25 Homeless Housing and Services Program (HHSP) grant.

Per the TDHCA, the funding must be used by the City on activities eliminating and/or preventing homelessness. Specifically, allowable activities include construction, development, or procurement of housing for homeless persons; rehabilitation of structures targeted to serving homeless persons or persons at-risk of homelessness; provision of direct services and case management to homeless persons or persons at-risk of homelessness; or other homelessness-related activities as approved by the TDHCA.

HHSP was established by the 81st Texas Legislature through an appropriations rider and codified during the 82nd Texas legislative session. Through HHSP, the state provides funding to the eight largest cities in support of services to homeless individuals and families including services such as case management and housing placement and retention. Cities served through HHSP include Arlington, Austin, Corpus Christi, Dallas, El Paso, Fort Worth, Houston and San Antonio. For State Fiscal Year 2017, the State has approximately $5 million in HHSP funds available.

This item is a procedural, administrative matter required by the State for the City to receive the funds it was previously awarded. An Ordinance allocating the accepted HHSP funds for use by local nonprofit organizations will be presented to Council for consideration within the coming weeks/months.

AMOUNT OF FUNDING: No new funding

SOURCE OF FUNDING: [ ] General Fund [ ] Grant Fund [ ] Enterprise Fund

SPECIFIC EXPLANATION: The Housing and Community Development Department requests that Council amend the contract between the City and SER-Jobs for Progress of the Texas Gulf Coast Inc. to allow the use of New Market Tax Credits (NMTC) in financing the renovation of a 22,000-square-foot building. In April 2016, Council allocated $5,300,000 in federal Community Development Block Grant (CDBG) funds for the acquisition and renovation of the SER-Jobs building. The proceeds from the NMTC will supplement the funds needed by the developer to complete the project.

The renovated building at 1710 Telephone Road will be SER-Jobs’ future site of a new Workforce Opportunity Center, which will serve up to 4,000 low-income individuals annually. The facility will feature a Career Café, educational workshops, occupational training and youth services. The center will enable SER-Jobs to increase its capacity by 9% annually to serve Houston residents, expand its classroom and service delivery space, and create a hub for the community to access services and resources to achieve career goals. By 2020, SER-Jobs anticipates doubling its capacity by serving 8,000 persons annually.

SER-Jobs is a 50-year-old non-profit organization serving as a leader in non-traditional vocational education. It is an equal partner with high school districts and community colleges, establishing a solid reputation for service to high-risk, hard-to-serve populations.

Amount of Funding: $10,660,000

SOURCE OF FUNDING: [X] Grant Fund

SPECIFIC EXPLANATION:

The Housing and Community Development Department (HCDD) requests City Council approval for an Interlocal Agreement between the City of Houston and the Harris County Flood Control District (the District), a special purpose district created by the Texas Legislature in 1937 and governed by Harris County Commissioners Court. The Agreement will allow the District to utilize $10,660,000 in CDBG DR2015 Flood Events funds to perform voluntary property buyouts to eligible property owner applicants. The funds will be used to purchase structures in the floodplain, demolish and/or remove the structures, and maintain the use of the property as open green space. Areas identified by the corresponding Action Plan “DR2015 Flood Events” are located in three neighborhoods, Braeburn Glen, Glenburnie and Cashiola, and Langwood. This federal voluntary property buyout and demolition improvement project will reduce the number of flood prone homes in low-income areas and protect the City’s investment in the community.

The project will provide several benefits to the community, including but not limited to: relocating families to higher ground out of harm’s way, eliminating future flood damages and health and safety risks for owners and rescuers, reducing repetitive subsidized flood insurance and federal disaster assistance, restoring floodplains to their natural and beneficial function for stormwater storage, creating open space with the potential for community amenities (i.e. parks, gardens, playing fields, etc.), and eliminating the threat of flooding for targeted homeowners and businesses in the affected areas.

The project is not subject to Eminent Domain.

TIRZ (Fund 2409)

SPECIFIC EXPLANATION:

The Housing and Community Development Department (HCDD) recommends Council approve a $10,000,000 Land Assembly Grant Agreement between the City of Houston and the Land Assemblage Redevelopment Authority (LARA) for the acquisition, maintenance and conveyance of properties associated with the Complete Communities initiative.

LARA has seen success in its mission to convert tax-delinquent lots – often neighborhood eyesores and magnets for crime – into affordable homes for families who contribute to Houston’s tax base. LARA’s key accomplishments to date include:

- Acquired 1,210 parcels in neighborhoods with high concentrations of abandoned, severely tax delinquent vacant lots
- 121 (parcels) lots are currently under contract with builders and CDCs for new affordable housing construction
- 351 new affordable homes have been constructed and sold to low- and moderate-income families, returning $42,962,294 worth of total market value to the tax rolls
- 410 (parcels) lots are available to CDCs and builders under LARA’s Solicitation for Proposals

LARA now wishes to expand its scope beyond the acquisition of tax delinquent properties to also include any properties that meet the vision of the Complete Communities initiative. The funds are for the creation of a revolving fund restricted to acquisition and maintenance of additional property. The revolving fund will be reimbursed on a predetermined basis by the Director of the Housing and Community Development Department. In the event the funds are not used for these intended purposes, LARA agrees to return any unused or ineligibly spent funds to the City of Houston.

RECOMMENDATION: Approval of an Ordinance authorizing the repeal and replacement of the Single-Family Home Repair Program (SFHRP) Guidelines for Tier I (Minor Repair), Tier II (Rehabilitation), and Tier III (Reconstruction) activities

Amount of Funding: N/A

SPECIFIC EXPLANATION: The Housing and Community Development Department (HCDD) requests Council repeal the current Single-Family Home Repair Program Guidelines and approve new Home Repair Program (HRP) Guidelines that will broaden the program focus to include not only low- and moderate-income elderly and disabled homeowners, but also homes of employed applicants with minors and unemployed applicants providing full-time care to disabled household members. Additionally, the new guidelines will recognize additional program resources and will incorporate practices established during the Disaster Recovery Round 2 Program and subsequently named “best practices” by the U.S. Department of Housing and Urban Development (HUD).

Like the current program, the new program will address repairs needed to alleviate threats to the health, life, and safety of the home's occupants. These guidelines govern current allocations, and any future allocation of federal and local funds for housing rehabilitation and reconstruction activities to be performed under the HRP.

A summary of the minimum criteria for the new guidelines is as follows:

1. The home listed on the HRP application must be the homeowner’s primary residence.
2. The eligibility income limit for the household is 80% of Area Median Family Income (AMFI).
3. Tier I (Minor Repair) - Repairs not to exceed $9,999
4. Tier II (Rehabilitation)
   a) Moderate Repairs - $10,000 to $29,999
      i. A five-year affordability period is placed on the home, requiring partial repayment if the home is sold within five years of completion of the home repair activity.
   b) Substantial Repairs - $30,000 to $65,000
      i. A 10-year lien is placed on the home, requiring partial repayment if the home is sold within 10 years of completion of the home repair activity.
5. Tier III (Reconstruction)
   a) Repairs more than $65,000
      i. A 20-year lien is placed on the home, requiring partial repayment if the home is sold within 20 years of completion of the home repair activity.

This Ordinance enables the Director of the Housing and Community Development Department, at his/her discretion, to amend the guidelines in order to comply with HUD and other regulatory requirements or to ensure the efficient and proper administration of the program. Such administrative revisions must limit the area median income requirement for participants to no more than 80%.

RECOMMENDATION: Approval of an Ordinance authorizing and approving the Home Repair Program for Disaster Recovery 2015 Guidelines

Amount of Funding: N/A

SOURCE OF FUNDING

SPECIFIC EXPLANATION:
The Housing and Community Development Department requests approval of an Ordinance authorizing and approving guidelines for the Home Repair Program for Disaster Recovery 2015 (HRP-DR15), which will assist as many low- and moderate-income homeowners as possible whose homes received damage in the 2015 flood disasters. The main objective of the program is to provide decent, safe and sanitary housing to homeowners affected by the 2015 disasters through activities designed to provide home repair assistance. Under the Houston Action Plan for Disaster Recovery - 2015 Flooding Events, $12 million is allocated for housing (Single-Family Home Repair) activities. These guidelines outline the governance of such activities.

The program gives priority to age-dependent (age 65 and older or age 5 and under) and disabled households. HCDD has been recognized by the U.S. Department of Housing and Urban Development (HUD) for best practices under its Disaster Recovery Round 2 Program, and these guidelines will not only adopt these best practices, but will also recognize additional program resources.

A summary of the minimum criteria for assistance, as stated in these guidelines, is as follows:
1. The home damaged by the 2015 disasters must be single-family and must be the homeowner’s primary residence.
2. The household income eligibility limit is 80% of the Area Median Family Income (AMFI).
3. The maximum amount to be spent on each home is $45,000, including change orders.
4. A five-year lien will be placed on the home, requiring partial repayment if the home is sold within five years of completion of the home repair activity
5. Homeowners are responsible for all moving and relocation costs, if necessary

This Ordinance enables the Director of the Housing and Community Development Department, at his/her discretion, to amend the guidelines in order to comply with HUD and other regulatory requirements or to ensure the efficient and proper administration of the program. Such administrative revisions must limit the area median income requirement for participants to no more than 80%.
