### *Driveway Construction Options*

Replace the broken length and width of the driveway with plain reinforced cement concrete at no cost to the home owner.

Grade the subgrade to proper slope and form the driveway to meet the new grades /slope. You would see the finished dirt with proper slope. Home Owner to finish the Driveway with their desired finish at their cost.

#### *Improvements will include:*

- Storm drainage
  - Pavement conditions and mobility
  - New 6-foot sidewalks and ramps to meet ADA standards (only on Sage Rd.)
  - Water and waste water utilities as necessary
  - Decorative driveway/walkway options for property owners
- **ACTION NEEDED:** If you have not submitted your approved Option for driveway/walkway reconstruction, please visit the sign-in table for a copy of the form.
