

## LP Gas Permit Requirements:

LP Gas Permit is required by the Houston Fire Department for all restricted and unrestricted units which employ propane. If your unit uses propane, the following information applies:

- 1) The unit must be taken to a propane dealer licensed to perform inspections of equipment (this is an annual requirement). Tags will be placed on the gas equipment. For list of approved propane dealers click [here](#).
- 2) The LP Gas permit must be paid for at the Fire Department office located at **1002 Washington 77002** (Bring your driver license. In the case of units which will operate at one location, bring your property agreement letter. In the case of route trucks, bring your commissary letter/contract.) Cost is **\$175.00**
- 3) Take your unit to 7411 Park Place, 7am, on a Tuesday or Thursday morning. Make sure your unit is in compliance with the requirements listed on the LP Gas Inspection Report Form. Click [here](#) for form. (**Important:** Bring your paid LP Gas permit application and your receipt from the gas company which inspected your equipment.)

Other information: Fire extinguisher minimum size is: 3A40BC

If you plan to deep-fry on the unit, provide a type K Extinguisher in addition to the 3A40BC extinguisher.

The extinguisher must have the inspection tag.
