## Contribution Rates

Use the chart below to find the contribution for the coverage you elect. First, look for the category in the left-hand column that fits your situation, then select the corresponding rate for the plans of your choice. If you have family members who remain in the HMO or PPO, select the rate based on the age of the oldest family member keeping the HMO or PPO plan. Your total monthly contribution is the sum of the rate for HMO or PPO, plus the rate for Aetna, TexanPlus or Texas HealthSpring.
