Daniel Montez is the CEO of Denver Harbor Clinic and Houston Community Health Centers, Inc. Founded by Montez and other community leaders in 1999, Denver Harbor Clinic is the first of several envisioned community-based health centers providing high-quality, accessible health care to underserved people throughout Houston.

Under Montez's leadership, Denver Harbor Clinic applies business principals to address Hispanic health care disparities and spur neighborhood economic redevelopment. Montez recently received the 2006 St. Luke's Leadership Award from St. Luke's Episcopal Health Charities in Houston in recognition for his work in the Denver Harbor community.

Montez has more than 20 years of business leadership in the health care sector, with an emphasis in strategic planning, operations and accounting. Prior to founding Denver Harbor Clinic, he held a number of leadership positions, including COO for Universal Healthplan (Medicaid HMO), two positions with the University of Texas Houston Health Science Center, as well as assistant director for sponsored projects office and administrator/CFO for Houston Recovery Campus, the largest substance abuse facility in Harris County. He has a bachelor of science in accounting from University of Houston at Clearlake.

Born in Harlingen, Texas, Montez moved to Houston when he was six and continues to make it his home with his wife and two children.
