

Midtown Meters

New Hours

Monday- Saturday
7 AM - 12 AM

What are benefits?

Reduction in traffic congestion by reducing the number of cars circling for free parking

Reduction in single occupancy vehicles

Encourages alternative modes of transportation

Better management of the public right-of-way

What about spillover to residential blocks?

In the fall, ParkHouston will recommend the Community Parking Program (CPP) for Midtown. The program authorizes annual permits that exempts residential blocks impacted by spillover parking from the meter rates or time limits.

The CPP program is currently active in the Museum District.

Payment Options

Download the ParkHouston app (powered by ParkMobile)

Text PARK to 77223

Pay with Google Pay

Pay online at ParkMobile.io

Why the change?

Parking surveys conducted in January and February revealed many blocks with an occupancy greater than 50% after 6 PM. The high demand calls for improved management of the supply. Pricing is a tool to better manage the supply.

How do I report meter issues and parking violations?

 parking@houstontx.gov

 Houstontx.gov/311

Your concern will be investigated and you will receive a confirmation email of the results.

Can I validate customer parking?

Yes, parking validations are available through the ParkHouston app.
