

Youth Beep Baseball League

Houston Parks and Recreation Department Youth Beep Baseball League

Beep baseball is an adapted version of standard baseball, played by people with a visual impairment. Presented by the Texas Parents of Blind Children, this spring league can be played by children who have a visual impairment along with their sighted siblings and friends.

Beep ball uses modified beeping baseballs, beeping bases and blind folds for players and is adaptable for the entire family. The spring league will run every Sunday afternoon from April 12 to May 17, with a few exceptions. We welcome help from parents and volunteers.
