

HOUSTON PARKS MASTER PLAN

PHASE II

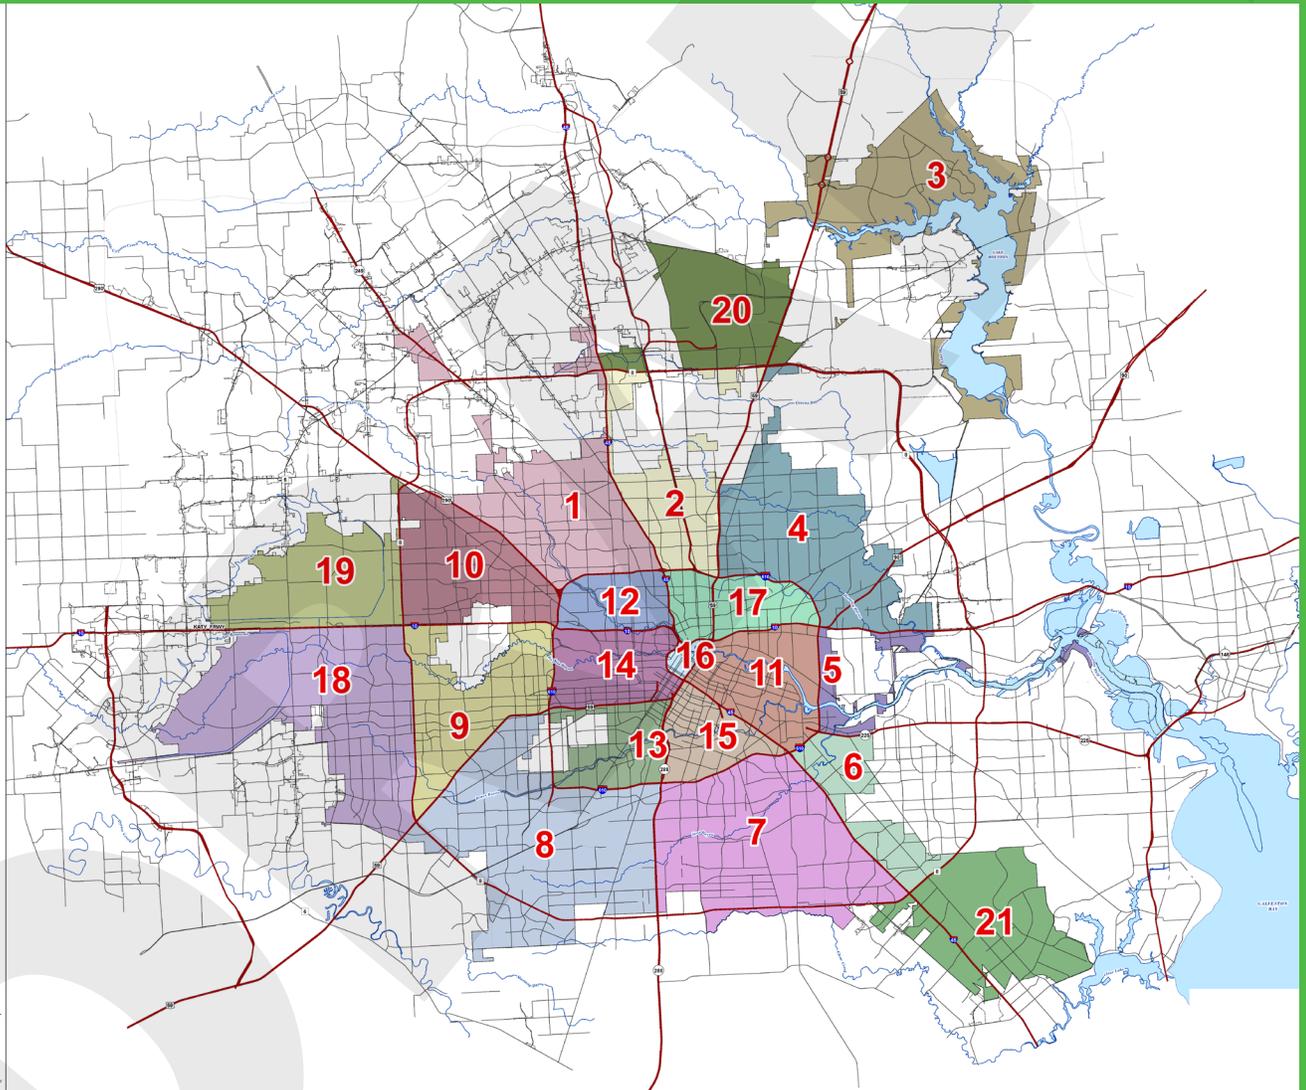

The Houston Parks and Recreation (HPARD) Parks Master Plan presents the vision of the residents of Houston and the goals, or Big Moves, to be made by the Department in the next 20 years. An online survey was conducted from March 2014 through July of 2014. Approximately 1,800 responses were received. Two-thirds of survey respondents identified connecting their neighborhood to hike, bike, and walk trails and revitalizing existing parks as their highest budgetary priority for HPARD.

HPARD performed a year-long initial assessment of each Park Sector in the City with support from the Planning and Development, the Health and Human Services and the Housing and Community Development Departments of the City of Houston, The Houston Parks Board, The Houston-Galveston Area Council and the Center for Sustainability at Rice University. Volunteer Interns from St. Thomas University, Texas A&M University, Lone Star College, and Texas Southern University were indispensable in this effort. Maps of areas of park need were created using data provided by the Trust for Public Land ParkScore™ Project; HPARD continues to partner with the Trust for Public Land to improve the methodology and assess park needs specific to Houston.

PARK SECTOR 7:

This Park Sector contains approximately 1,315 acres of park land (Harris County, HPARD & other providers). There are approximately 165,000 residents, 46% Hispanic and 43% African-American. An additional 45 acres of park land are needed in this Park Sector. Trust for Public Land ParkScore shows high need in the northwest and central portions of the Park Sector.

This map was produced using data provided by the Trust for Public Land ParkScore™ Project to show areas of park need. The green areas represent a ½ mile service area of public parks (city or county) and SPARK Parks (school parks open to the public after school) or other publicly accessible non-HPARD Parks. The orange and red represent areas where there is not access to a park within ½ mile. The degree of need (red is very high need and orange is high need) is based on population density, household income (less than \$35,000), and presence of youth (19 yrs or younger). The office and industrial land uses are represented in grey, so as to specifically highlight residential and commercial areas of need. Approximately 41% of the area in this Park Sector is in need of park land accessible within ½ mile, as compared to the rest of the of the City of Houston (55%).

OPPORTUNITIES

The Sims Bayou trail system will provide access to the residents of this area to a total of 14 miles of trails and over 6 miles along Clear Creek. There is a utility corridor in the southern portion of the sector that almost connects Sims Bayou and Clear Creek, opportunities to develop a north/south trail should be explored.

PARK AMENITIES

The table below shows the total existing amenities (including, HPARD, County and SPARK Parks), the target goal per amenity, and the amenities needed based on population standards for each amenity.

AMENITY	PLAYGROUNDS	PICNIC SHELTERS	TRAILS (MILES)	OUTDOOR BASKETBALL COURTS	TENNIS	VOLLEYBALL	DOG PARKS	SKATE PARKS	COMMUNITY CENTERS	SWIMMING POOLS	OUTDOOR SPRAYGROUNDS	BASEBALL (LIT & UNIT)	SOFTBALL (LIT & UNIT)	SOCCER (LIT & UNIT)
GOAL	41	16	33	21	22	3	2	2	6	4	2	24	5	16
EXISTING	34	15	29*	21	22	1	0	0	6	4	1	24	3	14
NEEDED	7	1	4	-	-	2	2	2	-	-	1	-	2	2

* This number includes miles of trails currently planned along Sims Bayou (7 miles) and Clear Creek Bayou (6 miles) under the Bayou Greenways Initiative (BG2020).
