

CERTIFICATE OF APPROPRIATENESS

Application Date: April 1, 2015

Applicant: Trey Sullivan, Sullivan, Henry, Oggero & Associates for Arpan Gupta, Carnegie Homes, owner

Property: 430 Marshall Street, Lot 2, Block 1, Westmoreland Subdivision. The property is a vacant 3,900 square foot (52' x 75') interior lot.

Significance: The property is a vacant lot located in the Westmoreland Historic District.

Proposal: Project Type – At the November 2013 HAHC meeting the applicant received a Certificate to construct a 2 ½ story 2,597 square foot single family residence with an attached rear garage. The front gable residence will measure 30' wide, 45' deep, and 35' to the ridge. The applicant now requests a renewal of the expired 2013 Certificate.

- Windows- Wood clad 2-over-2 sash windows, 2-lite casement windows, and 2 and 4-lite fixed windows.
- Siding- Smooth finish cementitious horizontal lap siding.

See enclosed application materials and detailed project description on p. 6-18 for further details.

Public Comment: No public comment received.

Civic Association: No comment received.

Recommendation: Approval

HAHC Action: Approved

CERTIFICATE OF APPROPRIATENESS

Basis for Issuance: HAHC Approval

Effective: April 23, 2015

PLANNING & DEVELOPMENT DEPARTMENT

COA valid for one year from effective date. COA is in addition to any other permits or approvals required by municipal, state and federal law. Permit plans must be stamped by Planning & Development Department for COA compliance prior to submitting for building or sign permits. Any revisions to the approved project scope may require a new COA.

APPROVAL CRITERIA

NEW CONSTRUCTION IN A HISTORIC DISTRICT

Sec. 33-242: HAHC shall issue a certificate of appropriateness for new construction in a historic district upon finding that the application satisfies the following criteria:

S D NA

S - satisfies D - does not satisfy NA - not applicable

- (1) The new construction must match the typical setbacks of existing contributing structures in the historic district
- (2) The exterior features of new construction must be compatible with the exterior features of existing contributing structures in the historic district
- (3) The proportions of the new construction, including width and roofline, must be compatible with the typical proportions of existing contributing structures and objects in the historic district
- (4) The height of the eaves of a new construction intended for use for residential purposes must not be taller than the typical height of the eaves of existing contributing structures used for residential purposes in the historic district; and
- (5) The height of new construction intended for use for commercial purposes must not be taller than the typical height of the existing structures used for commercial purposes in the historic district.

PROJECT DETAILS

Shape/Mass: The residence will measure 30' wide, 45' deep, 23'-1" to the eave, and 35' to the top ridge.

Setbacks: The residence will be setback 20' from the front property line, 3' from the east property line, 19' from the west property line, and 12' from the rear property line.

Foundation: The residence will be built on a pier and beam and slab foundation. The pier and beam foundation will feature brick skirting and foundation vents and will have a foundation height of 3' above the grade.

Windows/Doors: The residence will feature wood clad 2-over-2 double hung sash windows, 2-lite casement windows, and 2 and 4-lite fixed windows. The residence will feature a wood paneled entry door with a decorative upper lite and sectional overhead garage door.

Exterior Materials: The residence will be clad with smooth finish cementitious horizontal lap siding. The front porch will feature brick piers topped with round wood columns, wood guardrails, and brick steps with wood handrails.

Roof: The residence will feature a front gable roof with an 8.25/12 pitch and will feature shed roof dormers with a 2/12 pitch. The front two-story tower will feature a polygonal roof with an 8.25/12 pitch. The roof will feature closed soffits. The roof will be clad with composite shingles. The front porch will feature a gable on hip standing seam metal roof.
