

CERTIFICATE OF APPROPRIATENESS

Application Date: January 7, 2015

Applicant: Jessica L. Wilson, owner

Property: 1507 Ashland Street, lots 15 & 16, block 146, Houston Heights Subdivision. The property includes a historic 1,380 square foot, one-story wood frame single-family residence situated on an 8,800 square foot (66' x 132') interior lot.

Significance: Contributing gable-front cottage style residence, constructed circa 1910, located in the Houston Heights Historic District West.

Proposal: Alteration – Construct a 480 square foot one-story addition at the rear of the contributing residence and install two dormers on the south side of the roof and three dormers on the north side.

See enclosed application materials and detailed project description on p. 5-14 for further details.

Public Comment: No public comment received at this time.

Civic Association: No comment received.

Recommendation: Approval

HAHC Action: -

APPROVAL CRITERIA

ALTERATIONS, REHABILITATIONS, RESTORATIONS AND ADDITIONS

Sec. 33-241(a): HAHC shall issue a certificate of appropriateness for the alteration, rehabilitation, restoration or addition of an exterior feature of (i) any landmark or protected landmark, (ii) any building, structure or object that is contributing to an historic district, or (iii) any building, structure or object that is part of an archaeological site, upon finding that the application satisfies the following criteria, as applicable:

- | S | D | NA | S - satisfies | D - does not satisfy | NA - not applicable |
|-------------------------------------|--------------------------|-------------------------------------|----------------------|-----------------------------|----------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | | | |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | | | |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | | | |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | | | |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | | | |

| <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | | | |
- (1) The proposed activity must retain and preserve the historical character of the property;
 - (2) The proposed activity must contribute to the continued availability of the property for a contemporary use;
 - (3) The proposed activity must recognize the building, structure, object or site as a product of its own time and avoid alterations that seek to create an earlier or later appearance;
 - (4) The proposed activity must preserve the distinguishing qualities or character of the building, structure, object or site and its environment;
 - (5) The proposed activity must maintain or replicate distinctive stylistic exterior features or examples of skilled craftsmanship that characterize the building, structure, object or site;
 - (6) New materials to be used for any exterior feature excluding what is visible from public alleys must be visually compatible with, but not necessarily the same as, the materials being replaced in form, design, texture, dimension and scale;
 - (7) The proposed replacement of missing exterior features, if any, should be based on an accurate duplication of features, substantiated by available historical, physical or pictorial evidence, where that evidence is available, rather than on conjectural designs or the availability of different architectural elements from other structures;
 - (8) Proposed additions or alterations must be done in a manner that, if removed in the future, would leave unimpaired the essential form and integrity of the building, structure, object or site;
 - (9) The proposed design for any exterior alterations or addition must not destroy significant historical, architectural or cultural material and must be compatible with the size, scale, material and character of the property and the area in which it is located;
 - (10) The setback of any proposed construction or alteration must be compatible with existing setbacks along the blockface and facing blockface(s);
 - (11) The proposed activity will comply with any applicable deed restrictions.

PROJECT DETAILS

Shape/Mass: The existing residence measures 30'-8" wide by 46'-10" deep with a 10'-3" eave and a 25'-1" ridge height. The addition will begin at the existing back wall and measure 30'-8" wide by 16' deep with an eave and ridge height matching the existing house.

Setbacks: The residence features a 32'-2" front (east) setback, a 4'-7" north setback and a 31'-6" south setback, all of which will remain unchanged. The addition will feature a 37' rear (west) setback.

Foundation: The residence features a pier and beam foundation with a 2'-4" finished floor height to remain. The addition will feature a pier and beam foundation with a 2'-4" finished floor height.

Windows/Doors: The existing residence features a wood front door and wood double hung windows with a 1/1 lite pattern, all of which will be retained. The addition will feature aluminum fixed and casement windows.

Exterior Materials: The existing residence feature wood bevel lap siding to be retained. The addition will feature matching wood bevel lap siding and a wood rain screen. A vertical 1" wide strip of aluminum will be used to delineate the addition from the original house.

Roof: The residence features a hipped roof with a 6/12 pitch clad in composition shingles. The proposed addition will extend the roof rearward with a rear gable and feature a 6/12 pitch and be clad in composition shingles.

Front Elevation: The residence features a partial width front porch, a front facing door, two pairs of windows, and one window in the front porch gable. No alterations will be made.
(East)

Side Elevation: The residence features two pairs of windows and a single window, all of which will remain. The addition will extend the wall by 16' and feature no windows. Three dormers with casement windows will be installed beginning 17'-5" from the front wall, with 6'-9" between the first and second dormer and 6'-8" between the second and third.
(North)

Side Elevation: The residence features two pairs of windows and a single window, all of which will remain. The addition will extend the wall by 16' and feature one fixed window and one casement window. Two dormers with casement windows will be installed beginning 17'-5" from the front wall with 6'-9" between the first and second dormer.
(South)

Rear Elevation: Not visible from public right of way. See elevation drawings for details.
(West)
