PROJECT DETAILS

Shape/Mass: Existing porch measures 6' 6" deep by 26' 10" wide. The 13' wide west section features a gabled canopy and smooth texture brick matching the brick on the rest of the original structure. The east 13' 10" section is a later addition with no canopy and brick with vertical scoring.

The applicant proposes to remove the non-original section of the porch. Sections of original brick that were removed in order to incorporate the porch addition to the original structure will be replaced with matching smooth texture brick. This material was used in the porch addition and will be re-installed onto the original structure.
