Date: April 2019

- Out of the five largest metros in the U.S, only Dallas and Houston metros saw a population increase of 131,767 and 91,689 persons respectively, between 2017 and 2018.
- “Every county in the Houston metro area gained population last year, with Harris capturing the most residents. All the growth, however, came from the natural increase.” according to the Greater Houston Partnership’s report.
- Note: Data comparison is from July 1, 2017 to July 1, 2018.
