**City of Houston: Household Income 2000 & 2012**

- Household income includes the income of the householder and all other individuals 15 years and over in the household, whether they are related to the householder or not.
- In City of Houston, those households earning \$200,000 and over more than doubled during 2000 and 2012, compared to the nation which close to being double.
- In 2012, the proportion of households earning over \$150,000 is 9.5%, which is very similar to the nation's share.
- Those households earning less than \$50,000 declined from 64% to 55% during 2000 and 2012 in the City of Houston.
