Description

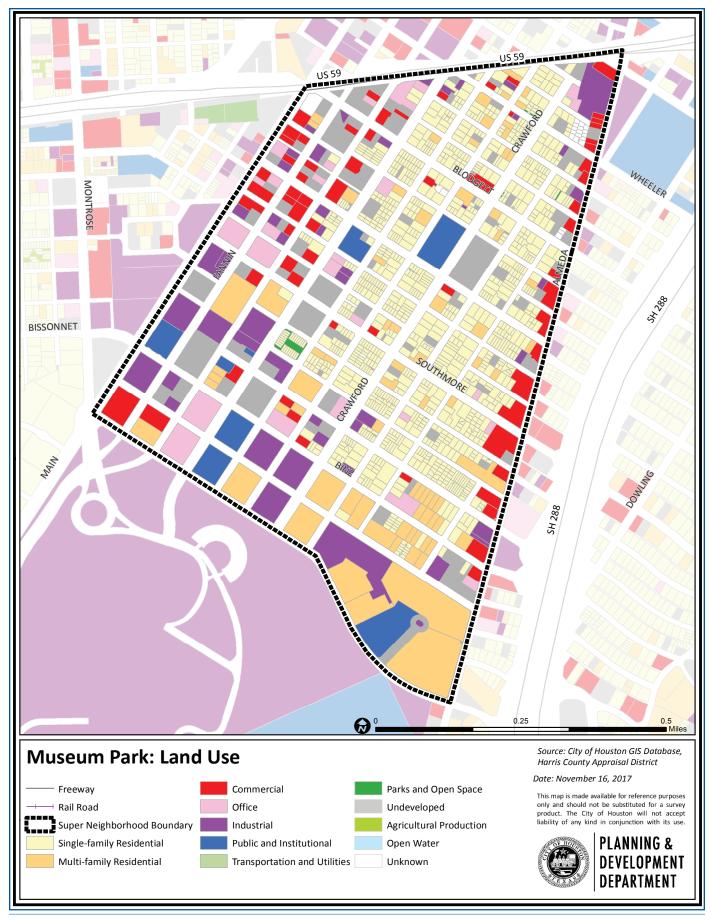

Museum Park is the neighborhood north of Hermann Park that is home to the majority of the City's museums. It is nestled between downtown and the Medical Center. Historically, the neighborhood was separated from the Riverside area during the 1970s with the construction of Highway 288. Museum Park is a district of large homes, small apartment buildings and scattered commercial buildings. While many of the pre-World War II buildings have been renovated and some new residential construction has occurred, substantial redevelopment in the area has not taken hold.

Highlights

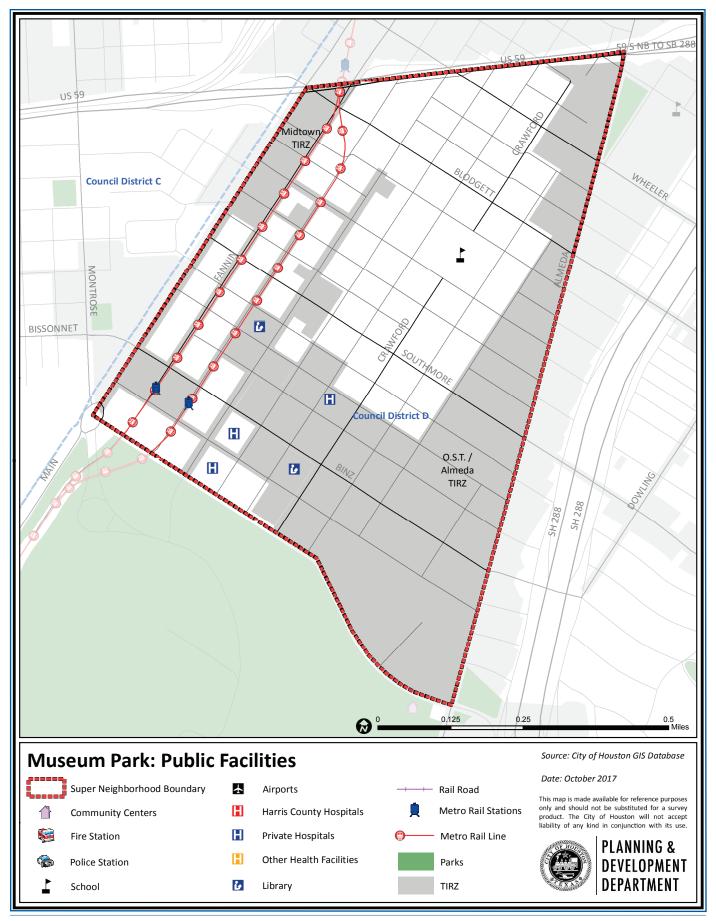

- ✓ Houston City Council District D
