2012 Major Thoroughfare and Freeway Plan Amendments

Frequently Asked Questions

Q *What is a Major Thoroughfare and Freeway Plan Amendment?*

A The City of Houston's Major Thoroughfare and Freeway Plan was first adopted by City Council in 1942. It is a long range plan that provides for a system of thoroughfares and collectors to support overall mobility. It does not deal with timing of right-of-way acquisition or road construction. The Plan is updated through an annual amendment process. Amendments generally delete, add or modify a portion of a planned thoroughfare or collector. Streets such as Beechnut, Clear Lake City, Fry, and Louetta are examples of planned major thoroughfares that have matured over the years. The Plan will continue to be modified in order to meet Houston's growing transportation needs.

Q *I received a letter from the City. Why? What does this have to do with me?*

A If you have received a notice in the mail from the City, it means that our records show you own property that may be impacted by a proposed amendment to the Major Thoroughfare and Freeway Plan. Please read the enclosed report to learn more about the proposed amendment that may specifically impact you and your property.

Q *My property is located in the County, not within the City limits. Why is the City dealing with issues in the County?*

A The City of Houston's Major Thoroughfare and Freeway Plan covers not just the road network within the City limits, but also within the City's Extra Territorial Jurisdiction (ETJ). The City's ETJ extends into portions of Harris, Waller, Fort Bend, Liberty and Montgomery Counties. This allows transportation needs to be addressed on a regional basis.
