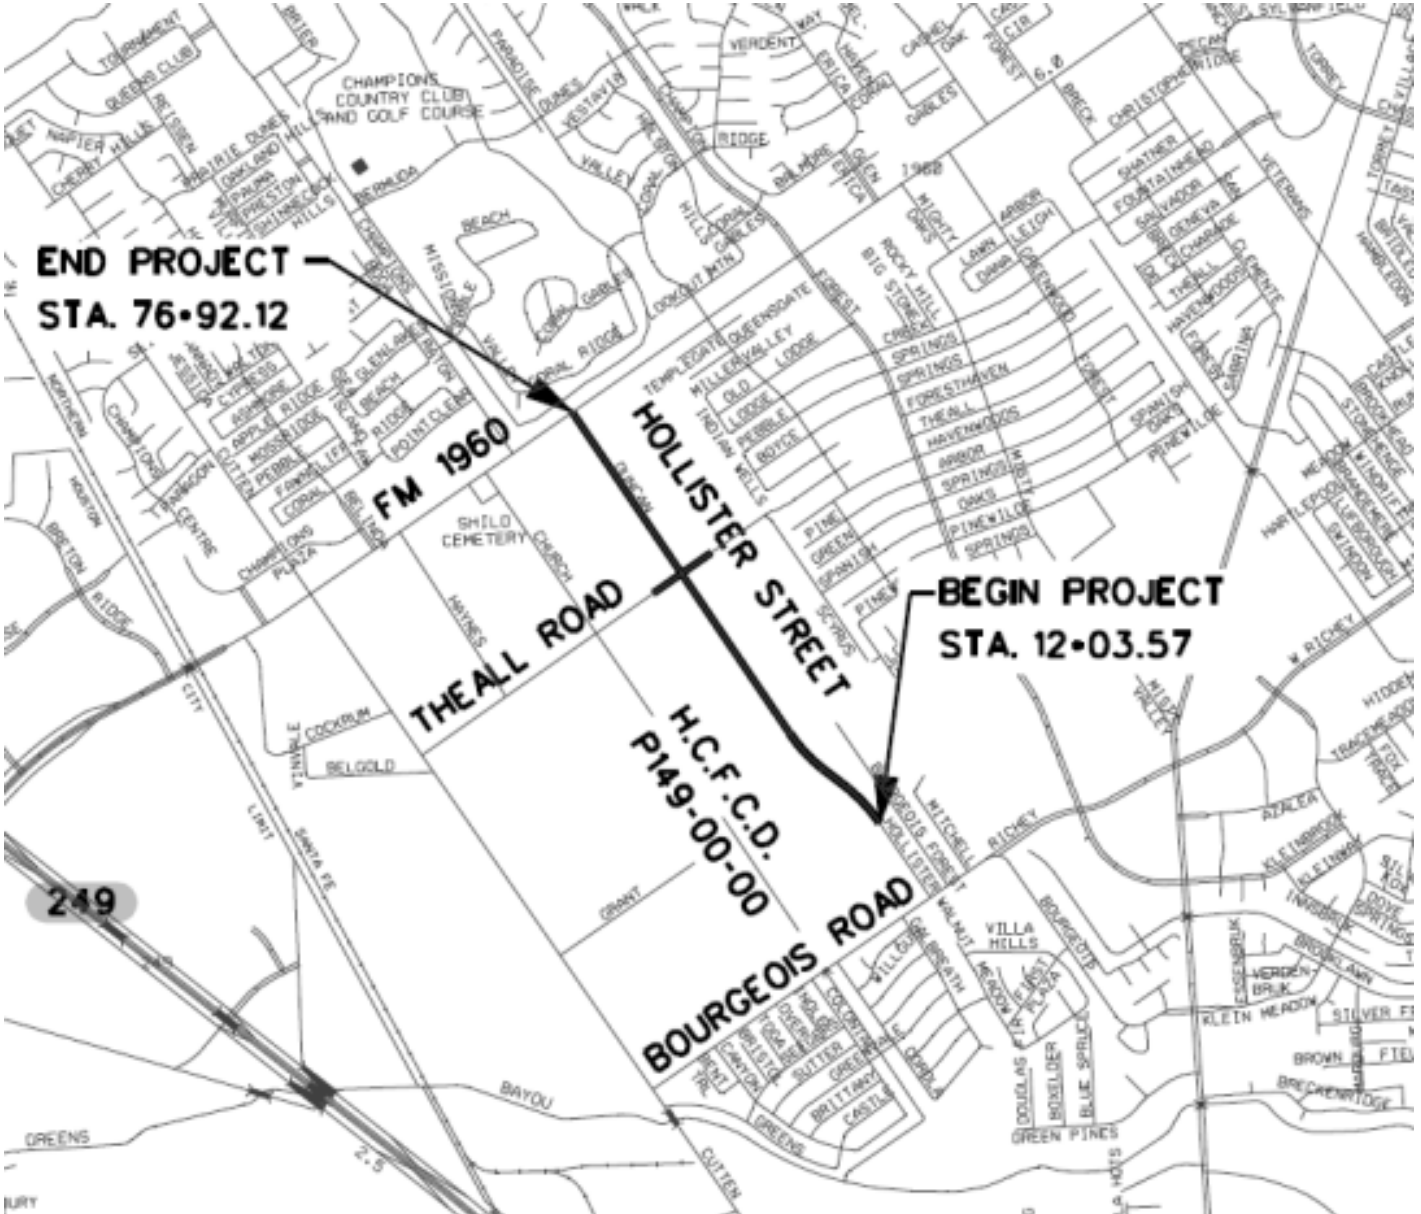
REQUEST

Designate Hollister Road from West Richey to FM 1960 as a major thoroughfare



JUSTIFICATION

Hollister Road (formerly Duncan) designation:

- This is currently not designated, but this is proposed to be a major thoroughfare

Hollister Road is proposed to be a:

- 1.25 mile long corridor in the city of Houston ETJ

Hollister Road has been constructed as a four lane boulevard section north of West Richey to FM 1960. This corridor will serve as the final north segment of the entire Hollister Road corridor stretching from Hammerly to FM 1960. Advantage is to require 25 foot building lines instead of 10 foot building lines for future platted property.
