The City calculates the special minimum lot size area in accordance with the following:

1) List all lot sizes in the application area in descending order;
2) Each lot’s area (in square feet) is expressed as a percentage of the total area of all lots in the application;
3) A cumulative total is kept; and
4) The first lot that represents a cumulative total of at least 70 percent (60 percent for applications in city designated historic districts), becomes the proposed special minimum lot size area.
The applicant is responsible for obtaining and posting (2) signs on each blockface within the boundary of the proposed Special Minimum Lot Size Area within ten (10) days of an initially completed application. The Planning and Development Department will inform the applicant of an initially completed application to post signs (see Sample Notification Sign below). The signs (minimum size: 2’ x 3’) shall be placed within fifteen feet from each right-of-way bordering the area. Each sign shall face the R-O-W with print large enough to be legible from the R-O-W. The applicant is responsible for contacting Planning Staff once the signs are in place. The applicant shall use reasonable efforts to maintain the signs to the end of the process.
