

RETAIN, MEASURE, ACHIEVE

Retain Adult students, Measure Their Gains, and Help Them Achieve Their Goals

Adult Basic Education (ABE) Students encounter challenges beyond those faced by traditional students. Many factors may pull them from their studies before making the gains needed to improve their lives. Programs support these ABE students, but they are understaffed and often lack contemporary tools to work efficiently.

The WorkReady Mobile App empowers ABE programs to support their students to their fullest potential. WorkReady Mobile raises interactivity, supports students' retention and achievement, and provides instant reporting of their successes.
