A1778716	CHIP	08/09/2021	SOUTH11	43.40	WOUND	26
<u>Description:</u> (Neutered male) 2 YEARS, BRINDLE / WHITE, STAFFORDSHIRE MIX DOG						
<u>FELV/ FIV or HW Status:</u> HIGH POSITIVE						
<u>Outcome Request:</u> PURRFURRED			<u>Reason:</u> COND SEVER			

Eval. Notes:

BEHAVIOR NOTE

Jumping at the front of the kennel, vocal, high wagging tail. Intrested in treats and any enrichment that contains food. Cover kennel and offer extra enrichment.

BEHAVIOR NOTE

Chip is still jumping in front of the kennel, even when I try to leash him and is still vocal. Once Chip is leash, he will run out of the kennel and will start jumping on me, I will turn my back on him and he will get off of me and will start walking . Once he's in the run, I tried to removed the leash and he started to jump on the gate door.

BEHAVIOR NOTE

08/25/21 15:29 upon approach of kennel gate, chip displays vocalizations, while jumping up on the kennel gate repeatedly. I was able to leash up and walk out of the kennel, he proceeded to jump on me through out the walk and began to get mouthy with my arms, although his bite inhibition seems to be good, never breaking skin and seems to be out of over arousal, i will work on his impulse control to help him redirect onto some thing more productive.
