

## FY2019 ANNUAL FINANCING PLAN

The FY2019 Annual Financing Plan (AFP) is a projected schedule for the sale of City bonds, notes and other financings expected in FY2019. The AFP lists the projected amount of issuance, the timing of the sale, the security for the issue, the issue type (a new issue, redemption or refunding) and the method of sale.

In FY2019, four transactions are being planned (separate or combined) along with continued issuance under the City's commercial paper programs for a total ranging from \$50 million to \$2.3 billion. The uses for the proceeds from the debt issuances include pension obligations, capital improvements, equipment purchases, and cash flow needs. Included in the range provided above, are seven liquidity facilities with expiration dates in FY2019 that will need to be either renewed or replaced after a review of whether such liquidity is still needed.

As the name expresses, the AFP is a plan. The timing and amounts of the sales may vary, but the stated programs will generally be carried out within the parameters cited. The FY2019 AFP is outlined below.
