

CAPITAL IMPROVEMENT PLAN SUMMARY

The information below reflects last year's FY2022 - FY2026 Adopted CIP. As of May 2022, the CIP for FY2023 - FY2027 is still being developed. This section will be updated with the Adopted FY2023 - FY2027 CIP in the Fiscal Year 2023 Adopted Budget Book.

In November 1983, the City Council established a five-year capital improvement planning process for physical improvements to public facilities and infrastructure. By resolution, it became City policy to engage in a continuous five-year capital improvement planning process that includes annual review, revision, and adoption of a five-year Capital Improvement Plan (CIP). The five-year CIP is revised annually to include new projects, reflect changes in priorities, and extend the plan an additional year. The first year of the plan is the current CIP and it is revised throughout the year as needs dictate or when changes are made to existing approved capital projects.

The CIP provides a schedule for appropriation of capital projects. Details on capital projects for public improvement programs include allocations toward Fire, General Government, Homeless & Housing, Library, Parks, Police, Health, and Solid Waste Management projects. Enterprise capital programs include Airport, Storm Drainage System, Street & Traffic Control, Wastewater, and Water projects. Programs implemented citywide include Information Technology and Fleet projects. The City of Houston Fiscal Year 2022 – 2026 Adopted Capital Improvement Plan is available online at <http://www.houstontx.gov/cip/22cipadopt/>.

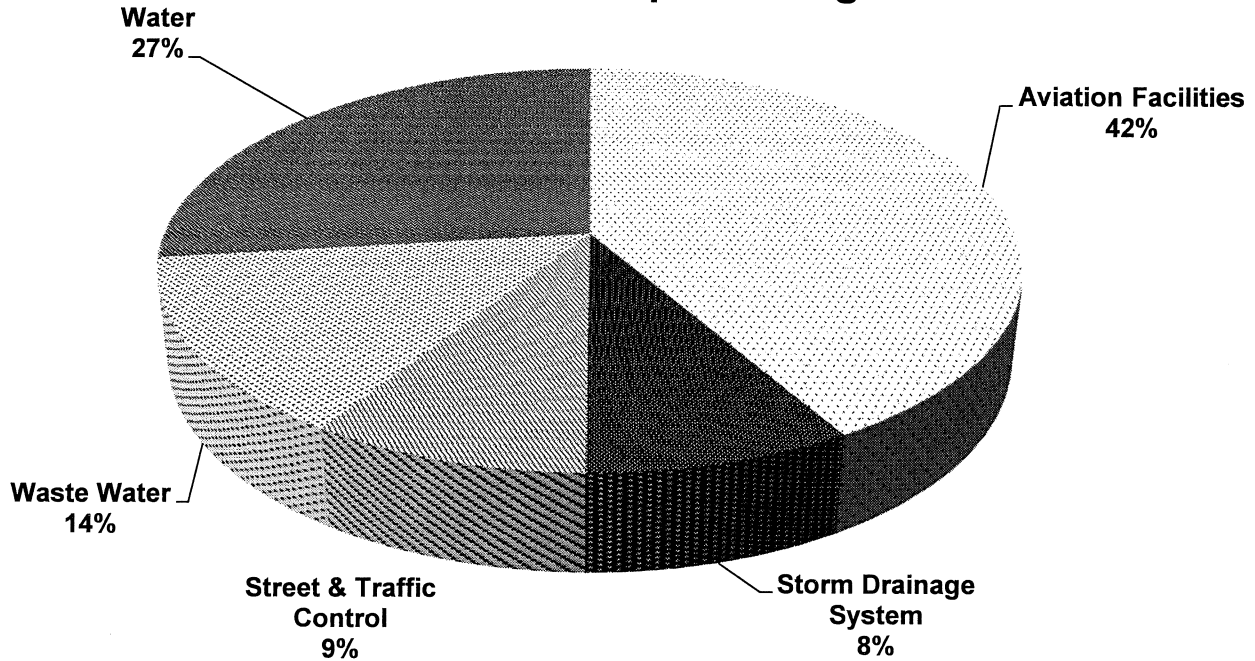

Presented below is a summary of the planned appropriations for the Adopted FY2022 - FY2026 CIP:

Enterprise Programs

The Adopted Capital Improvement Plan calls for the appropriation of \$2.9 billion in FY2022. Of the total appropriations planned for the current plan year, \$2.3 billion are from Enterprise Programs. Enterprise programs include projects that are primarily funded from user-fee supported funds, which address a full range of capital facility and infrastructure improvements and distributed among the five programs as illustrated in the chart below. The largest enterprise program with 42% of the enterprise allocation, is Aviation Facilities Improvements. These improvements are funded from various sources including the Airport Improvement Fund (Fund 8011), Airport Renewal and Replacement Fund (Fund 8010), Commercial Paper / General Airport Revenue Bonds and passenger facility charges.

FY2022 Enterprise Programs

** The Dedicated Drainage and Street Renewal Funds for Street & Traffic Control, Storm Drainage and METRO Projects Construction are not technically enterprise funds, but are grouped with Enterprise Programs for clarity.*

Public Improvement Programs

The citizens of Houston approved a Bond Election for \$625 million in November 2006, \$410 million in November 2012 and \$495 million in November 2017. Public improvement projects include vertical and horizontal construction projects for general public use, services, and safety. Significant projects are the continued construction, rehabilitation and renovation of the library system; continued implementation of the "Parks Master Plan" program; public safety facilities; replacement, rehabilitation and construction of fire stations; and replacement or upgrading of solid waste facilities. However, the focus of the Fiscal Year 2022-2026 Adopted Capital Improvement Plan is Hurricane Harvey Recovery.

Of the \$137 million in the public improvement programs, General Government utilizes approximately \$60 million at 43% of the total. Public improvement programs are funded with both non-debt and debt funding sources. The majority of the FY2022 public improvement program projects will be funded with General Obligation bonds.

Note: Figures may not add to 100% due to rounding.

Citywide Programs

The Citywide programs include projects that may impact the Houston area citywide or departmental operations. The Citywide programs for FY2022 total about \$74 million. Fleet Management constitutes 74% of the funding allocation with \$55 million. Technology projects make up the remainder with a \$19 million allocation. The Fleet and Technology programs provide improvements and equipment necessary for City services and business processes. Fleet will use funding to purchase new vehicles for departments citywide.

FY2022 Citywide Programs

Non-Debt Funding Sources

Funding sources which support the CIP include but are not limited to bond proceeds and commercial paper, Metropolitan Transit Authority funds, Harris County funds, Houston Parks Board funds, Federal Aviation Administration funds, Airport Improvement funds, Texas Department of Transportation funds, and Enterprise system user fees. Both Public Improvement and Citywide programs use non-debt funding sources to supplement department needs.

Presented below is a summary of the planned appropriations for FY2022 - FY2026 with the percentage of non-debt funding sources used by each program:

General Obligation Bond Summary Fiscal Year Planned Appropriations (\$ Thousands)		
	FY2022- FY2026	Leverage of Non-Debt Funding Sources

Impact to Operating Budget

Capital improvement costs in the CIP are classified into two categories: direct project costs and associated increases to annual operational costs. Examples of direct project costs include purchases of land or facilities, design and construction of new facilities or renovation of existing facilities, and initial equipment purchases for new or renovated facilities. Operating costs include staffing, maintenance or service (including electrical) costs related to new, renovated or expanded facilities. The impacts of operating costs on capital projects are monitored closely for inclusion in the annual operating budget.

FISCAL YEAR 2023 BUDGET

Presented below is a summary of the projected General, Aviation and Houston Public Works operational costs associated with the Adopted FY2022 - FY2026 CIP:

Anticipated Appropriations

The following table outlines anticipated appropriations within the Capital Improvement Plan for FY2022 for Public Improvement, Enterprise, and Citywide programs over \$10 million. These projects include all funding sources available to the City of Houston, including partnerships with other governments and private entities. Planned appropriations are correlated to spending. However, due to the nature and length of construction timelines, spending can span multiple fiscal years.
