Ms. Juanita Stephens, 3018 Stallings, Houston, Texas 77088 (281-447-7363) had reserved time to speak but was not present when her name was called. Council Member Noriega absent.

Mr. James Rasmus, who was previously added to the speakers list, appeared and stated that for a person to be involved they must first be informed and he was not a second class citizen and did not expect to be treated as one; that he appreciated the Mayor trying to save money if that was what this was, but he wanted to know what consideration was given in cutting people out. Council Member Noriega absent.

Mayor Parker stated that she wanted to clarify that every Council District was having at least one CIP and the only district with two was Council Member Sullivan's due to the distinct nature of the district; that she had been to Acres Homes many times and would be happy to go out again and they could make CIP requests known to her personally, but she did intend to treat Council Members around the table equally. Council Member Noriega absent.

Council Member Johnson stated that District B had two CIP meetings a couple of years because of the district's citizens; that he was not going to push the issue unless the citizens did, but unless they were going to have precedent set or rules laid out he would request two CIP Meetings for District B this year; and Mayor Parker stated that as she stated to the citizens she was happy to stand with him in any type of town hall meeting he wanted to have and she would be happy to have the discussion among Council Members as to whether they should open the CIP process so all Council Members could have multiple CIP Meetings and she would poll his colleagues, her attention was to try and treat Council Members equally if at all possible; and upon questions by Council Member Johnson, Mayor Parker stated that it was always appropriate to discuss CIP items with the Mayor it was not her intention to host a second full CIP Meeting, but she would be happy to poll all District Council Members to see if they wanted to create additional meetings, there was a financial impact to that, but she did not want to limit the access of citizens to the process; that District B's fate to more meetings did lie with Council Members, she made her decision, but would respectfully cede to the wishes of District Council Members if she made an incorrect decision. Council Member Noriega absent.

Council Member Bradford stated that there were nine District Council Members and he would suggest that treating everyone equally may not be fair as Acres Homes was a very large area within District B with a large number of senior citizens and underprivileged families; that the issue in the information sheet indicated in part the issue dealt with it costing \$60,000 in overtime to deal with another CIP Meeting, but it may could be mitigated and flex time or hours or use employees not required to be paid overtime and would re-urge the position by Council Member Johnson that equally may not be fair and maybe it should be based on benefit to the city and need; and Mayor Parker stated that she was happy to have two or three CIP Meetings in every Council District if it was the will of Council and it served the Council Members needs, but would point out that the Council Members had the ability to collect information and advance their CIP requests in anyway they chose to do so. Council Member Noriega absent.

Council Member Jones stated that District B did have seniors and many did not have money to get places and while she appreciated Kingwood and Clear Lake were geographically distinct some could argue they could afford to drive across town and she was trying to figure how demographics alone was a consideration; that Acres Homes was one of the more disadvantaged areas in the city and if there was a vote she would vote for them another meeting.

Council Member Lovell stated that she was an At-Large Council Member and they did not hold CIP Meetings, but they did attend them; that the memo said it was about \$60,000 for ten different events; that everyone at the table could argue they had a diverse district, every Council Member had an Acres Homes in their district and all had seniors.

Time for questions expired and Mayor Parker stated to continue the discussion she would need a motion; and Council Member Adams moved the rules be suspended for the purpose of extending the time for discussion of CIP Meetings, seconded by Council Member Lovell. All voting aye. Nays none. MOTION 2010-0117 ADOPTED.

Upon questions by Council Member Lovell, Mayor Parker stated that the direct answer was the money came out of the general fund budget and the departmental salaries; that the Public Works Director was paid whether he was there at midnight or 9:00 a.m., it had no impact; that the staff at the lower levels where they did overtime payments and even if it was one-third of what was estimated spread over nine more CIP Meetings it would be \$180,000 and a significant amount of money.

Council Member Adams stated that as a Council Member she liked knowing the community you served and taking advantage of its leaderships and would encourage Council Members to think outside the box; that since she was elected and knew there would be one CIP Meeting they took information provided at the CIP Meeting and took it to the various communities and shared it with them; that outside of their CIP they were having six additional town hall meetings to reach constituents in their community; that District D was 144 square miles and no way to accommodate 300,000 constituents and she would encourage Council Members be proactive and take their CIP information to individual town hall meetings; that budget was tight and time was limited and it was a collaboration with other departments to come out again.

Council Member Costello stated that as chairman of the Drainage and Flooding Committee he was proposing, and his staff was trying to meet with each Council Member, to have opportunity to take the committee on the road in a town hall format because of the fact people could not come to the Council Meeting during business hours and they would be meeting with all Council Members.

Council Member Jones stated that Mayor Parker mentioned department directors were on salary and got paid regardless; and Mayor Parker stated that she suggested any Council Member was welcomed to schedule a town hall meeting which was done on a regular basis and it was appropriate and she had made that offer. Council Member Lovell absent.

Mayor Parker stated that the time limit was again exceeded and to continue discussion a motion was needed; and Council Member Johnson moved the rules be suspended for the purpose of extending the time for discussions of CIP Meetings, hearing no second the motion died for lack of a second. Council Members Johnson, Lovell and Jones absent.

Council Member Hoang stated that Ms. Kristopher should continue; and Ms. Kristopher stated that all saw the news on sex crimes to women and she was asking the Mayor and Council to make April "Whistle Blowers Month" yearly; that females deserved a stand; and Council Member Hoang thanked Ms. Kristopher for coming and educating all on how to protect against sex offenders; that he had a wife and small children and was concerned. All voting aye. Nays none. Council Members Johnson and Sullivan absent. MOTION 2010-0119 ADOPTED.

Ms. Maria Carmen Tomayo presented information and she and her interpreter stated that on April 27, 2008, she had an accident with a drunk driver supposedly, she and her daughter were hit and she suffered severe injuries and felt the officer at the scene, because he did not put down the driver was drunk or give him a sobriety test, the insurance company was saying they would not pay her according to her injuries because the report did not say he was a drunk driver; that the officer put injuries were equal and because of that they would not pay and they only gave her what was normal for an accident; that two constables were at the scene and had put the other driver in their vehicle stating he was drunk, however, HPD arrived and there was a controversy over him being drunk. Council Members Johnson and Sullivan absent.

Council Member Jones stated that her memo showed the other driver was cited; and Mayor Parker stated and it should indicate his insurance was responsible for the accident; and Council Member Jones stated that this seemed to be a dispute for the Civil Courts and she probably needed a lawyer. Council Members Johnson and Sullivan absent.

Mayor Parker stated that Citizens Assistance and Lieutenant Gallier were present to meet with her. Council Members Johnson and Sullivan absent.

Council Member Gonzalez stated that he hoped she and her daughter had time to recover, it seemed there were two issues, one whether the officer should have pursued some investigation for possible intoxication and second, the compensation for injuries and damages, it seemed it would be based on injuries and not what the officer observed in claims of insurance. Council Members Johnson and Sullivan absent.

Council Member Noriega stated that one of her staff would join with Lieutenant Gallier on their discussion and she was very sorry she had such a dreadful accident, but it did seem to be an insurance issue. Council Members Johnson and Sullivan absent.

but she received a written reprimand for it because she was supervisor and so did her manager, but she was fired and that was on her paperwork, but her manager was still there. Council Members Johnson, Sullivan and Rodriguez absent.

27. ORDINANCE **AMENDING CHAPTER 42 OF THE CODE OF ORDINANCES, HOUSTON, TEXAS**, relating to subdivision and development; containing findings and other provisions relating to the foregoing subject; providing for severability; containing a savings clause – **(This was Item 5 on Agenda of March 3, 2010, TAGGED BY COUNCIL MEMBER JONES)** – was presented. Council Members Sullivan and Lovell absent.

Council Member Jones stated she would be voting for it, that they had a lot of neighborhoods that were concerned about people who were trying to do replats and variances in their neighborhoods and not getting sufficient notice about what was going to be there, that they had concerns about meaningful notice and hearings so what the amendment did was, one, when they drive by the land that was going to be replatted, requested a variance or special exception and have those white signs up, in the past it said variance number and that it was going to be at the City Hall Annex on Thursday at 2:30 p.m. and they did not know when to go, that sometimes it would be deferred and people might want to come and complain or give their two cents to the Planning Commission and there was no meaningful notice, so now on those they had to put how they were seeking to change the character of the neighborhood so that it would be the neighborhood on notice about what they wanted to do, which was important, that they also had to send written notification and expanded the number of people who were noticed, that at first for variance or replats they had to notice 200 feet, which in some neighborhoods were two houses and in other 250 feet, which was two and a half houses, that now it went all the way down the street and catches some from behind because when they change the character of the neighborhood and put more people there sometimes it changes the traffic flow or the parking so it was a good thing and she was thankful that they were finally getting to it, they had been working on it for two years.

Mayor Parker stated that Council Member Jones might not know this but they actually passed the ordinance for the white signs when she was on Council, the reason being that very few people had computer access, that sounded like it was a long time ago but it really was not quite that long ago, that this was a great improvement.

Council Member Sullivan stated that was also a project that he worked on in part with Marlene Gafrick and she did an extraordinary job bringing in pictures and maps to his office and going over them and showing different examples of how they would apply to an urban setting versus a Heights area setting and also they were sure to include business communities for business properties and how they would be affected, both as the applicant and as a neighbor, so to Ms. Gafrick and her staff he wanted to thank them for working so close with him on this.

A vote was called on Item No. 27. All voting aye. Nays none. ORDINANCE 2010-0212 ADOPTED.

All voting aye. Nays none. ORDINANCE 2010-0213 ADOPTED.

9:00 A.M. - **REPORT FROM CITY CONTROLLER AND THE CITY ADMINISTRATION REGARDING THE CURRENT FINANCIAL STATUS OF THE CITY** including but not limited to, a revenue, expenditure and encumbrance report for the General Fund, all special revenue funds and all enterprise funds, and a report on the status of bond funds – was presented.

At 9:08 a.m. Mayor Parker recognized Mr. Ronald C. Green, City Controller and Ms. Michele Mitchell, Director of Finance.

Mr. Green and Ms. Mitchell reviewed the Monthly Operations and Financial Report, a copy of which is in the City Secretary's office for review.

Ms. Mitchell stated that she knew there were questions on Ike and would like to address some of them; that FEMA funds received or pending, the funds received through 3/9/10 were \$164.1 million, that equaled 90% of \$182.9 million, and that included Katrina funds that were involved, that \$18.7 million was yet to be received, that the City had been advised by the State that \$8.9 million would be disbursed next week, which would equal \$172 million or 95% of funds received, that the remaining amount of \$9.9 million were for PWs in the FEMA approval process, they were currently being developed, that there was only one obligation bundle for \$125,000 that was currently owed by the State to the City, that the Federal Highway Administration's total claims were \$5.6 million, they had approved funds of \$1.8 million, which was to be received within 30 days to 90 days, that claims pending approval, at this time, with the highway were \$3.8 million, that claims under development were \$4.9 million, that currently PWs being processed or developed, Debris Removal PWs for \$5.9 million had been signed and was currently in the FEMA approval process, that was when it was over a million it had to go to Washington, that FEMA was developing two more Debris Removal PWs and those would total about \$2.4 million, that they were also developing three Mutual Aid PWs which totaled about \$1.5 million.

Mayor Parker stated that she wanted to point out that she had distributed a memo at the table giving them a deeper look at the FY2010 Budget and some of the challenges and decisions that they face for the 2011 Budget, that she did not expect them to completely process it now but in the context of what they were discussing this morning she would encourage them to look at it and if they would go to the PowerPoint presentation that was attached and zip through to page 7 where they see the change in expenditures and revenues they would very graphically see what the issues were.

Upon questions by Council Members, Mayor Parker stated that she wanted to point out that this was traditionally the time of year when the City Controller certifies the funds available to the end of the year, there was no magic date when that had to happen but it was his responsibility to make sure that they end the year with a balanced budget, that while all of these options were being considered the situation was still fluid because they were still awaiting numbers from Harris County Appraisal District, and if the Controller wanted to chime in she was not exactly sure what his time table would be but the issue for the new Council Members, and knew there were many around the table who did not help getting them here but would certainly be taxed with help getting them out of where they were, that when they report the Controller's projection and the Finance Department's projection ultimately it was the Controller's projection

that trumped and when the Controller was lower, and at this point it was by \$12.5 million, if they could not convince the Controller that was the actual number that was an additional budget gap, to close.

Mr. Green stated that the Mayor had certainly summed it up correctly and this was the time that they were about to certify the budget or not certify the budget, that as was customary they were just waiting on a few more analytics, the largest one being Harris County, so they should expect that to happen in the next couple of weeks, that they would provide some guidance and work with them all as well on being realistic with their forecasting. Council Member Lovell absent.

Council Member Pennington stated that the Health Benefits section, the second bullet, it was not intuitive to him why operating expenses would decrease by \$1.4 million because of lower rates and wondered if they could explain to him how that happens, and Ms. Mitchell stated that she would have to check on that and get back to him because she believed that it would have to do with less claims, as it related to that, it was the information that they got from Health Benefits Department, that she was not here yesterday and did not see it and if they would bear with her she would get them that information, that she did not see the correlation either.

Upon further discussion and questions by Council Members, Mayor Parker stated that she was assuming that Council Members had the big budget book, more detail, so that they could drill down, that the departments did individually make presentations and they had the ability to ask any series of questions that they wanted, preferably in advance, so that they could prepare answers to get to the broader policy issues, and third, she had asked since they had uniquely qualified experts around the Council table, Council Members Bradford and Gonzalez, she had asked them each individually to sit with her and work through some of the operational side of the Police Department to look for efficiencies, that in the same way Council Member Adams was uniquely experienced in the Solid Waste Department and she hoped to tap her expertise in that and if Council Members wanted to drill down one on one with the department directors, again, this was a policy making body and she did not intend for them to go line by line through the budget, but these broader policy decisions this was the time to rethink everything that they did, they could call it zero based budget or call it performance based budget or they could simply call it reexamining the services that they provide but considering the budget constraints they were going to have to do that, so she would encourage each Council Member to take a piece and run with it and they would work with them on doing that, that all department heads would appear individually and talk about their budgets, but she was also offering the opportunity, if Council Members were interested, to spend some time in depth and they would put a support team around them to help them get their questions answered; that one of the reasons that she had structured the offer to Council Members who really wanted to, many Council Members wanted to take the broad landscape, but there were some Council Members who had a particular interest in certain departments and she was happy to facilitate that, but it would be coordinated through her office and they would work through the budget with them and the operational issues with them so the appropriate boundaries would be maintained.

Ms. Mitchell asked Mayor Parker if she would like for her to take the opportunity to briefly go over the one packet so that they could understand other than just the graphs, or would she like for her to try to meet with them individually, that it would be interesting for them to know where they were last August, when it was presented, to where they were today, and Mayor Parker stated that certainly she believed it was appropriate for an informational exchange, unfortunately she did not load the graphs for the audience and asked if Ms. Mitchell was talking about the PowerPoint presentation and Ms. Mitchell stated yes, and Mayor Parker asked if she had the presentation available so that they could load it, that if Council Members would not object they could move to Council Members presentations.

Upon questions by Council Member Adams, Mayor Parker stated that these were options and if she had neglected to put something on here and Council Members thought about something that could be added the range of options she would certainly welcome the assistance, but they wanted to lay everything out, not that they were planning to do these things, but that these were things that were available, that they would be replenishing the Rainy Day Fund by the end of the year, by September 2010, so that it was split over the two budget cycles so when they show the remaining budget gap, that was with repaying the Rainy Day Fund, but then they get down to the Rainy Day Fund has been paid back, but did they really need it, that was why they say borrow from it and always showing the intention to pay it back; and Ms. Mitchell stated that she and the Mayor would work on it together as to how they pay it year over year, back into the fund if that was something that was necessary, that they were looking at definitely ten by the end of the year and they were trying to stretch another five to go back at the end of the year but by September they were required at the end of those two years to have all of it back.

Council Member Clutterbuck moved to accept the Monthly Operations and Financial Report, seconded by Council Member Costello. All voting aye. Nays none. MOTION 2010-0129 ADOPTED.
