All voting aye. Nays none. Council Member Sullivan absent. ORDINANCE 2010-0812 ADOPTED.

Council Member Lovell stated that she needed some clarification, what she would like to do was take the Historic Preservation Ordinance transformation part first, since that seemed to be the most contentious and they may do it in a way that they may pull some people over to vote on the main body of the ordinance, and Mayor Parker stated that yes she thought that was the appropriate way to do it since that was where the hard discussions were.

Council Member Stardig moved to suspend the rules to consider Item Numbers 34 through 34 e at this time with Item No. 34c at the beginning.

Each Designated Historic District shall be resurveyed within a period of 90 days upon passage of Ordinance No. 2010-_____¹ (the “Ordinance”). The Director of the Department of Planning and Development (the “Director”) shall give notice of the meeting by mailing a letter, sent by first class United States postage prepaid, to the owners of all tracts of land located within the Designated Historic District as shown on the most current Harris County Appraisal District records. The notice shall include the time, date, location and purpose of the public meeting. Following the public meeting, the Director shall mail a ballot to each owner of property within a Designated Historic District which will direct the property owner to return it to the Director indicating whether the property owner does or does not support the continued designation of the Designated Historic District. Each tract shall receive one ballot regardless of the number of owners of that tract. The ballots shall be returned to the Director by the later of (i) 90 days following the effective date of the Ordinance, or (ii) 30 days after the above-referenced public meeting has been conducted. . Tracts of publicly owned land, utility easements, and public rights-of-way shall not be counted towards determining support for or against remaining in a Designated Historic District.

The vote of the City Council shall be final.” – **(TAGGED BY COUNCIL MEMBER LOVELL)**

Council Member Stardig stated that she was presenting a substitute motion for Item No. 34c and had circulated her written motion as follows:

“I move to amend item number 34e on the October 13, 2010, City Council Agenda by amending Sections 2 and 3 of the proposed Ordinance to read as follows:

¹ City Secretary to insert the number of the Ordinance that appears as Item 13 on the October 6, 2010 City Council agenda.

Section 2. That the following provisions shall apply to all historic districts previously designated by the City Council other than the Old Sixth Ward Protected Historic District and the Main Street Market Square Historic District (“Designated Historic District”). The owners of property in a Designated Historic District who desire the City Council to repeal the designation may submit a request for reconsideration of the designation of the district. The request must be submitted in writing in the form prescribed by the Director of the Planning and Development Department (the “Director”) not later than 30 days following the date of passage and approval of this Ordinance. The request must be signed by the owners of at least 10 percent of the tracts within the Designated Historic District. The request shall identify the basis for the request, including any changed circumstances that render one or more of the criteria on which the designation or proposed designation was based no longer applicable.

As soon as practicable after receipt of a complete request for reconsideration of the designation, the Director shall give notice by mailing a letter, first class United States postage, to the owners of all property within the historic district as shown on the most current Harris County Appraisal District records. The notice shall include the time, date, and location of a public meeting on the request for reconsideration, which the Director will endeavor to conduct in or near the historic district. The card shall be deposited in the United States mail with proper postage affixed and postmarked or delivered to the Director not later than the fifteenth day after the date of the public meeting.

The Director shall consider each request for reconsideration pursuant to the criteria of Section 33-224 of the Code of Ordinances, City of Houston, Texas (the “Code”), the information on changed circumstances submitted with the request for reconsideration and the evidence of support for the repeal of the designation. The Director shall consider:

- (1) The criteria for designation of the historic district;
- (2) The provisions of Article VII of Chapter 33 of the Code that were applicable to the percentage of property owners required to initiate an application;
- (3) Any changed circumstances identified in the request for reconsideration; and
- (4) The current level of support for repeal of the district.

The Director shall make findings with respect to each request for reconsideration and shall report her findings to the City Council. The director may recommend with respect to a request for reconsideration that the City Council:

- (1) Take no action with respect to the designation of the historic district;
- (2) Repeal the resolution creating the historic district if the owners of 51 percent of the tracts in the Designated Historic District indicate that they do not support the continued designation of the Designated Historic District; or
- (3) Amend the resolution designating the historic district to reduce its boundaries.

The City Council shall consider the Director's recommendation and the criteria considered by the Director and determine whether to accept the Director's report and take the actions recommended. The decision of the City Council shall be final.

Section 3. That the following provisions shall apply to the proposed Houston Heights South historic district, whose application was filed prior to June 9, 2010 (the "proposed historic district"). The owners of property in the proposed historic district who desire the City Council to not consider the proposed designation may submit a request for reconsideration of the proposed designation of the district. The request must be submitted in writing in the form prescribed by the Director not later than 30 days following the date of passage and approval of this Ordinance. The request must be signed by the owners of at least 10 percent of the tracts within the proposed historic district. The request shall identify the basis for the request, including any changed circumstances that render one or more of the criteria on which the proposed designation was based no longer applicable.

As soon as practicable after receipt of a complete request for reconsideration of the proposed designation, the Director shall give notice by mailing a letter, first class United States postage, to the owners of all property within the proposed historic district as shown on the most current Harris County Appraisal District records. The notice shall include the time, date, and location of a public meeting on the request for reconsideration, which the Director will endeavor to conduct in or near the proposed historic district. The notice shall also include a card to be signed by the property owner and returned to the Planning and Development Department indicating whether the property owner does or does not support designation of the proposed historic district. The card shall be deposited in the United States mail with proper postage affixed and postmarked or delivered to the Director not later than the fifteenth day after the date of the public meeting.

The Director shall consider any request for reconsideration of designation of the proposed historic district pursuant to the criteria of Section 33-224 of the Code, the information on changed circumstances submitted with the request for reconsideration and the evidence of support for the rejection of the designation. The Director shall consider:

- (1) The criteria for designation of the historic district;

of the tracts in the proposed historic district indicate that they do not support the designation of the proposed historic district.

Notwithstanding any procedural requirements for designation in Article VII of the Code that have not been completed, the City Council shall consider the Director's recommendation and the criteria considered by the Director and determine whether to accept the Director's report and take the actions recommended. The decision of the City Council shall be final."

Mayor Parker stated that it was being distributed, that Item No. 34c was originally proposed by Council Member Pennington, that she understood that Council Member Pennington may be making other motions today but that he was in agreement with this substitute as was distributed to him last night.

Council Member Noriega stated that she would respectfully request a quick sum up and then they did need a minute to read it, but would appreciate an overview as they went into it so that she was clear.

Mayor Parker stated that Council Member Pennington's amendment provided for a resurvey within 90 days of all existing historic districts, the substitute was really a compilation of several of the amendments that Council Members had made with the addition of lowering the threshold for a resurvey from 25% to 10%, but also incorporated some of the other amendments and raised the survey period from 15 days to 30 days, that there were the substantive changes, it actually tracked the language that was in the HAR number three, the HAR letter.

After further questions and discussion by Council Members, Mayor Parker stated that there was going to be another amendment distributed by Council Member Rodriguez and it was going to deal with the pending three districts, that since they did not halt the process there were three pending historic districts, Heights South had completed it's public hearing process, it was coming up before Council, the feeling was that it was substantially complete and it ought to be subject to the resurvey provisions, that the other two, Woodland Heights and Glenbrook Valley, were still pending their public hearings, they would come to them under the new provisions with everybody fully informed of the "no means no" provisions and so forth, so the feeling was that it was appropriate to split the baby, with those two on one side and Heights South on the other.

Upon further discussion and questions by Council Members, Mayor Parker stated that this was offered as a substitute to Council Member Pennington's 34c on their agenda, that if it was an agreed substitution they could move forward, if not it was a new motion and they would deal with it as such, so she was giving Council Member Pennington the opportunity to review it; that to repeat the substantive changes, the original motion by Council Member Pennington would require a resurvey of all existing historic districts, the substitute gives a resurvey period of 30 days, but it lowers the bar from 25% to 10% of the residents of a historic district asking for a resurvey.

After further discussion by Council Members, Mayor Parker stated that Council Member Stardig's amendment properly referenced the main item, that Item No. 34e on their agenda was the main item, that her motion was a substitute on their agenda for Item No. 34c and the reason that it referenced Item No. 34e was simply because it was the main item and the document that they were amending.

Council Member Adams stated that publicly she did not support the 10% and now she was reading Council Member Stardig's amendment and did not know if it was a typo or not but she thought it was 10/30 but was reading 10/45, and Mayor Parker stated that Council Member

Adams had pointed out a typo.

After further discussion Mayor Parker stated that the item that Council Member Adams referenced had to do specifically with Heights South only, it was intended to be 30 days, it was a typo and needed to be corrected, they had that one district that was sort of in limbo and they needed to make sure they referenced it somehow, so that should be corrected to 30 days.

Council Member Noriega asked for a point of order and asked what was the appropriate procedure to correct a typo in this situation, and Mayor Parker stated that Council Member Stardig, who had presented a substitute to Council Member Pennington's would amend it in her written draft, they would all make the correction, and they would move forward.

Council Member Pennington stated that just for the record he would consent to the substitution of the motion.

After further discussion by Council Members, Council Member Noriega requested a point of order on the need to amend Council Member Stardig's amendment and Mayor Parker stated that according to the rules of Council all she had to do was resubmit a written one, that she thought that it was more appropriate if they just did it at the table, and Council Member Noriega stated that she did not think it was a problem, she just wanted the appropriate procedure followed so that they would be correct. Council Member Johnson absent.

Council Member Stardig stated that she would appreciate the opportunity to make the motion so that everyone at the table and the audience could hear what was going on so that it was clear, at the appropriate time, and Mayor Parker stated that the item that Anna Russell was using for the record had been changed, that Council rules were that if it was in writing it did not require a second, but she was allow Council Member Stardig, when they got through the comments, to make a new motion. Council Member Johnson absent.

After further discussion by Council Members, Council Member Stardig stated that she would like to make an amendment when it was appropriate to correct the typo if needed, and Mayor Parker stated that the City Secretary had received Council Member Stardig's amended document and could clarify for everybody while she had the floor if she would like to move her amended document changing on the third page where it says "45 days to 30 days". Council Member Adams absent.

Council Member Stardig submitted an amended copy of her written motion and moved that it be accepted by the City Council, seconded by Council Member Lovell. All voting aye. Nays none. MOTION 2010-0737 ADOPTED.

After further discussion by Council Members, Council Member Clutterbuck stated that from her discussions with Mayor Parker she had made it clear to her that a Rule 12 Appeal was simply an appeal on the record and was not an appeal on the facts of the issue and asked if she could clarify that, and Mayor Parker asked if they would allow the City Attorney to address this.

Mr. David Feldman, City Attorney, stated that they were really talking about two different processes, that in terms of the Council's determination as to whether or not a designation was granted or a designation was removed that was not an appeal under Rule 12, so it was not just on the record.

Mayor Parker stated that the administration supported both motions for an appeal to Council, reluctantly, she did not know that Council Members were going to want to see a lot of them, but they supported it.

Council Member Clutterbuck asked if this was related to the appeal for the creation of a district or the designation of a particular landmark, as opposed to a Rule 12 Appeal on a conforming or contributing or potentially contributing structure, and Mr. Feldman stated that it was not an appeal to Council in connection with designation or in other words hearing the recommendation of the Planning Director in respect to designation or repeal of a designation, that was not an appeal, that was part of the process, that Council was the final determining body, it had the ultimate discretion, the Rule 12 was an appellate process that as she stated, could be used for example with respect to conforming and nonconforming structures.

After further discussion by Council Members, Council Member Clutterbuck moved to request a 5 minute break so she could read Council Member Stardig motion to amend Item No. 34e.

At 10:03 a.m. Mayor Parker stated that with the consent of Council they were in recess until 10:10 a.m.

At 10:11 a.m. the Houston City Council reconvened in the Council Chamber to complete the meeting.

After discussion, Council Member Clutterbuck stated that in Section 2 if a tract was owned by more than one person and only one person signed was that sufficient to represent a binding of that particular tract for purposes of the 10%, and Mayor Parker stated that was a question for the Legal Department, that her answer would be yes but would make sure the Legal Department weighed in, and Mr. Feldman stated that just one owner was necessary, and Council Member Clutterbuck stated that she wanted to make sure that was on the record.

After further discussion a vote was called on Council Member Stardig's motion to amend Item No. 34e. All voting aye. Nays none. MOTION 2010-0738 ADOPTED..

34. **WRITTEN Motion by Council Member Gonzalez** to amend Item 13a on the October 6, 2010, City Council agenda by amending Sections 2 and 3 of the Ordinance to change the number "15" to the number "30" where it appears in the first paragraph of each Section – **(Tagged by Council Member Lovell)** – was presented.

Council Member Gonzalez stated that he would withdraw his motion as it was now moot with the previous action.

- 34a. **WRITTEN Motion by Council Member Hoang** to amend Item 13a
Amendment #2 - Transition Provisions
Provisions for Reconsideration of Certain Historic Districts
Shall read as follows:

Section ____ . The request must be submitted in writing in the form prescribed by the Director of the Planning and Development Department (the "Director") not later than ~~45 day~~ **60 days** following the date of passage and approval of this Ordinance – **(TAGGED BY COUNCIL MEMBER LOVELL)** – was presented.

- 34b. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:
Amend Subsection (c) of Section 33-227
That the following provisions shall apply to all historic districts previously designated by the city council other than the Old Sixth Ward Protected Historic District. The owner of property in an historic district previously designated by the city council who desire the city

council to repeal the designation may submit a request of reconsideration of the designation of the district. The request must be submitted in writing in the form prescribed by the Director of the Planning and Development Department (the "Director") not later than 30 days following the date of passage and approval of this Ordinance. The request must be signed by the owners of at least 10 percent of the tracts within the historic district or proposed historic district. ~~The request shall identify the basis for the request, including any changed circumstance that render one or more of the criteria on with the designation or proposed designation was based no longer applicable.~~ – **(TAGGED BY COUNCIL MEMBER LOVELL)** – was presented.

Council Member Clutterbuck stated that she would withdraw her motion as it was now moot.

34d. **MOTION by Council Member Jones/Seconded by Council Member Pennington** "that they make the effective date from the date they post the petition or re-petition, whatever it was called" – **(TAGGED BY COUNCIL MEMBER CLUTTERBUCK)** – was presented.

Council Member Jones stated that she had presented the following written motion to substitute for Item No. 34d which would clarify the intent of the motion:

"I move to amend Item 34e of the October 13, 2010 City Council Agenda by amending the third sentence of Section 2 and the third sentence of Section 3 of the Ordinance to read as follows:

The request must be submitted in writing in the form prescribed by the Director of the Planning and Development Department (the "Director") no later than 15 days following the date a form for the request for reconsideration is first made available to the public by posting on the Planning and Development Department website."

Mayor Parker stated that the administration supported the motion, that she wanted to let Council Members see the petition before they formally post it so that everybody understood what it looked like, they should have it up, she hoped, by Friday so that they were not dragging it out, but she was not going to promise that because she wanted Council Members to be comfortable with the form of the petition, that Council Member Jones substitute just clarified and aligned it with what just passed.

After further discussion by Council Members, Council Member Jones stated that this was to make sure that the clock did not start ticking on the deadline until they had it out for the public.

A vote was called on Item No. 34d as substituted by Council Member Jones written motion. Council Member Sullivan voting no, balance voting ye. MOTION 2010-0739 ADOPTED.

Mayor Parker stated that Item No. 34e was the main item and asked if there were any other amendments to the transition document.

34e. **ORDINANCE** establishing a process for the reconsideration of the designation of historic districts within the City of Houston designated or pending designation by the City Council in connection with the amendment of certain provisions of Article VII of Chapter 33 of the Code of Ordinances, Houston, Texas, relating to Historic Preservation – **(This was Item 13A on Agenda of October 6, 2010, TAGGED BY COUNCIL MEMBERS JONES, JOHNSON, CLUTTERBUCK and SULLIVAN)** was presented. All voting aye. Nays none. Ordinance 2010-0813 ADOPTED AS AMENDED.

33. **WRITTEN Motion by Council Member Adams** to amend Item 13 on the October 6, 2010, City Council Agenda by adding a new Section 27.5 to follow Section 27 of the Ordinance, as follows:

“Section 27.5. That Section 33-253 of the Code of Ordinances, Houston, Texas, is hereby amended to read as follows:

‘Sec. 33-253. Appeal.

(a) An applicant aggrieved by a decision of the HAHC with respect to any certificate of appropriateness may appeal to the planning commission by filing a written notice of appeal, stating the grounds for the appeal, with the director within ten days following the date the HAHC renders its decision.

(b) The planning commission shall consider the appeal at its first regularly scheduled meeting for which required notice can be given. The planning commission shall consider the application, the findings of the HAHC and any evidence presented at the meeting at which the appeal is considered. The planning commission shall reverse or affirm the decision of the HAHC based upon the criteria applicable to the certificate of appropriateness. If the planning commission does not make a decision on the appeal within 30 days following the planning commission's hearing on the appeal, the decision of the HAHC with respect to the application for the certificate of appropriateness shall be deemed affirmed.

(c) An applicant aggrieved by the decision of the planning commission on an appeal from a decision of the HAHC may appeal to the city council. The city council shall consider the appeal at its first regularly scheduled meeting for which the required notice can be given. The city council shall consider the appeal under the provisions of Rule 12 of Section 2-2 of this code. At the conclusion of the city council's review of the matter, the city council shall reverse or affirm the decision of the planning commission. The decision of the city council shall be final and exhaust the applicant's administrative remedies.

(d) The director shall provide the applicant with notice of the time and place of the meeting at which each appeal will be considered by mail no less than ten days before the date of the meeting.” – **(TAGGED BY COUNCIL MEMBER LOVELL)** - was presented.

After discussion and questions by Council Members, Mr. Feldman stated that it was an appeal on the facts, but it was the facts that were contained in the record, that no additional evidence was presented, that City Council served as an appellate body and the review that they would undertake was what they would call a substantial evidence review, they find evidence in the record to support the determination or not; that they could not consider any evidence outside of the record, just like an appeal to a Court of Appeals or to the United States Supreme Court, and Mayor Parker stated that they could not prevent someone from coming and speaking at the public session, they would not be allowed to consider it but it would be up to them to use their judgment on that, and Mr. Feldman stated which he would see more as argument, that they could not consider any additional facts, the record was what it was.

A vote was called on Item No. 33. All voting aye. Nays none. MOTION 2010-0740 ADOPTED.

Council Member Clutterbuck stated that she would withdraw Item No. 33a.

33b. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

Amend Sec 33-228

e. If the HAHC finds that the subject of an application does not qualify for a certificate of non designation, the HAHC shall deny the application and shall notify in writing of the denial, if the HAHC denies the certificate of non designation the property shall be subject to the provisions of section 33-223 of this code for the time specified therein, and of their right to appeal the decision on the record to the city council pursuant to section (f) of this chapter

f. Appeals to City Council.

Appeals of the rulings of the HAHC may be made to Houston City Council pursuant to Section 2-2, rule 12 of the Code of Ordinances.

Every appeal that is authorized by federal law, state law, the City Charter, or city ordinance to be made to the city council from a decision by an officer, agency, board or commission shall be reviewed by the city council, without the taking of further evidence by city council, on the basis of the record of the decision from which the appeal is taken. Consideration of appeals may be scheduled at any specific time on the agenda, irrespective of the order of business established by these rules.

The director of each department (or a designee), or the presiding officer of a board, commission or agency, or a hearing examiner (the "hearing officer"), as appropriate, shall conduct an evidentiary hearing, the record of which shall be made by a certified court reporter of any matter that may be appealed to the city council. The term "record" shall include, but is not limited to, a transcript of oral testimony, exhibits offered and considered, written or oral responses, answers or questions, and all documents reviewed or considered by a hearing examiner or officer, commission or agency, board, or department director or his designee at an evidentiary hearing.

Each presiding officer or hearing officer shall give written notice to any party appearing in an evidentiary hearing that:

(1) A court reporter is required to prepare a record in order for there to be an appeal to the city council;

(2) The party must request, in writing, the presence of a court reporter at the hearing before the hearing officer not less than 24 hours prior to such evidentiary hearing; and

(3) The party requesting the court reporter agrees to pay all costs of the court reporter, including preparation of transcript(s) for appeal to city council.

(4) Except as otherwise provided by the city Code, the party appealing to city council shall submit the complete court reporter-certified record to the city secretary as required by this Code within 60 days of the decision of the officer, agency, board, or commission whose decision or action is the basis of the appeal. Failure to submit the requested or required records within the required time period shall constitute an untimely appeal to city council and a waiver by the appealing party to an appeal before city council.

In the event that an appeal to the city council is filed by a party to a decision, the city council shall consider the appeal solely on the basis of:

(1) The written record of the hearing conducted below; and

(2) The written exceptions, if any, of each party to the proceeding to the facts and administrative rulings and decisions made by the officer, agency, board or commission.

In the event the city council finds that the record is incomplete or inadequate, the city council may refer the matter to the officer, agency, board or commission for further proceedings to complete the record. All decisions of the council on the record, other than a referral for further proceedings, as described above, shall be final and not subject to further appeal or rehearing.

~~Delete (g) If the city council designates as a landmark or archaeological site a building structure object or site that is the subject of an unexpired certificate of non designation, the designation shall not be effective until the expiration of the certificate of non designation. If the city council designates an historic district, the designation shall not be effective with respect to an individual building, structure, object or site located within the historic district that is the subject of an unexpired certificate of non designation until the expiration of the certificate of non designation with respect to the individual building, structure, object or site. - (**TAGGED BY COUNCIL MEMBER LOVELL**) - was presented.~~

Council Member Hoang stated that he would withdraw Item No. 33d.

- 33e. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

Amend Sec 33-221.1

The notice shall include a card to be returned by the property owner which shall indicate whether the property owner does or does not support designation of the historic district. The director shall mail notice to the owners of all property within the proposed historic district that the public hearing before the HAHC has been cancelled. – **(TAGGED BY COUNCIL MEMBER LOVELL)** – was presented.

After discussion by Council Member Clutterbuck, a vote was called on item No. 33e. All voting aye. Nays none. MOTION 2010-0742 ADOPTED.

33f. **WRITTEN Motion by Council Member Lovell** to amend Item 13 on the October 6, 2010, City Council Agenda by amending Section 25 to replace the words “total added height” with the words “plate height” in the one instance it occurs. – **(TAGGED BY COUNCIL MEMBER LOVELL)** – was presented.

After discussion and questions by Council Members, Council Member Clutterbuck asked if the deed restrictions allowed a higher height, and there were not many of these, if the deed restrictions allowed a structure to be built to 40 feet, but the plate height calculation under Council Member Lovell’s amendment did not allow the building to go to that, even at the front, she worried that they set themselves up for legal challenges and would like an answer on the record, which would be the prevailing height that was specified by the deed restrictions or the plate height calculation or the highest of the two.

Ms. McAbee, Legal Department, stated that in this particular regulation for the must approved it did not specify whether the regulation or the deed restriction prevails, the general principle was that the most restrictive of the regulation or the deed restriction would apply, an example of that was if a neighborhood had a five foot setback and the City had a twenty five foot setback the City’s regulatory setback would prevail over the building line established in the deed restrictions, and that was just the general principle that would be applied in this particular instance.

After further discussion by Council Members, a vote was called on Item No. 33f. Council Member Clutterbuck voting no, balance voting aye. MOTION 2010-0743 ADOPTED.

33g. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

Amend Sec 33-241

(b) (1) b. The total added height of the addition does not exceed 1.25 times the plate height of the existing structure or the tallest existing building in the District, whichever is higher. – **(TAGGED BY COUNCIL MEMBER LOVELL)** – was presented.

Council Member Clutterbuck stated that she would withdraw Item No. 33g.

33h. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

Amend Sec 33-201:

Contributing Structure means a building , structure, object, or site that reinforces or that has conditions which if reversed would reinforce the cultural architectural or historical significance of the historic district in which it is located and that is identified as contributing upon the designation of the historic district which it is located. ~~The term also includes any structure that was identified as partially contributing in any historic district designated prior to the effective date of this ordinance.~~ – **(TAGGED BY COUNCIL MEMBER LOVELL)**

Council Member Clutterbuck stated that she would withdraw Item No. 33h, that the reason

she had initially deleted the last sentence of the definition of a contributing structure was because she was concerned that some structures that may be deemed partially contributing but would require a lot of work and money that it would be too difficult to bind those properties owners and essentially force them to bring it to be contributing, but after a series of discussions with Phoebe Tudor who explained to her that the term was basically a legal term of art in the historic community and she wanted to state on the record that her understanding of that term of art was instead to encompass structures, that for example to the eye were contributing structures but may have, for example, aluminum windows in them, so it was important for her to be able to state this on the record, what a potentially contributing structure was and was not in layman's terms.

33i. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

Amend Sec 33-223:

(b) The protected status provided in subsection (a) above ends on the earliest of the following dates, but not later than 90 days after the application has been deemed complete pursuant to section 33-221 (d) (1) of this chapter.

Delete Section (5) In the case of the denial of a certificate of non designation by the HAHC the 181st day after the decision of the HAHC – (TAGGED BY COUNCIL MEMBER LOVELL) – was presented.

Council Member Clutterbuck stated that it was her understanding that the Planning Director and people in the Legal Department had asked her to amend this from 90 days to 180 days, that she believed they had confirmed this, that she had submitted in writing an amendment relating to that, "instead of 90 days it would be 180 days".

Mayor Parker asked if Ms. McAbee or Ms. Gafrick would give her the effect of this motion.

Ms. Gafrick stated that they had looked at the timeframe and what this did, it created a definitive time period when a historic district application needed to be complete, the proposed 90 days left properties in a historic district that were pending designation protected, the 90 days removed the protection if they did not get it completed and they looked at the time frame that it took to go through with the new procedures to create a district and 180 days gave them that cushion.

Mayor Parker stated that she did not want to lose the two pending districts that they had not addressed, Woodland Heights and Glenbrook Valley, in this, did it have an adverse impact on those.

Ms. McAbee stated that those districts Ms. Gafrick would know when the applications had been filed, but of course three of those pending districts had been held and now had to go through the continuation of their process, but thought that it did create a question about whether they would lose their protection pending designation, pursuant to these terms.

Mayor Parker stated that she supported the substance of Council Member Clutterbuck's motion if they could make it not apply to those three that were pending, that because they had held up this process for a number of months they may not have a fair shot at getting their status, the question was if they could reset their clock from today, that the question was to Council Member Clutterbuck.

Council Member Clutterbuck stated that she would submit an amended motion amending it verbally that in addition to saying not later than 180 days after the application had been deemed complete that this amendment "does not apply to applications currently received and pending", seconded by Council Member Noriega.

Mayor Parker asked the Legal Department if that satisfied the intent, and Mr. Feldman stated currently pending, specifically Heights South, Woodland Heights and Glenbrook Valley, and Mayor Parker asked Council Member Clutterbuck to incorporate that into her motion.

Council Member Clutterbuck stated that it was incorporated; "specifically Heights South, Woodland Heights and Glenbrook Valley", seconded by Council Member Noriega.

A vote was called on Council Member Clutterbuck motion to amend 33i. All voting aye. Nays none. MOTION 2010-0744 ADOPTED.

33j. **WRITTEN Motion by Council Member Clutterbuck** to amend the proposed Historic Preservation Ordinance as follows:

WHEREAS, the foregoing shall apply only to historic districts created following the passage of this ordinance. Historic districts created prior to passage shall be controlled by the provisions of this chapter that were in effect at the time of the designation of the historic district. Existing districts wishing to extend the protections of the revised ordinance may do so by following the procedures proscribed in Sec. 33-221.1 of this chapter – (TAGGED BY COUNCIL MEMBER LOVELL) was presented.

After discussion, Council Member Clutterbuck stated that Item No. 33j was now moot and would withdraw the amendment.

Mayor Parker stated that there were three new amendments today, all of which the administration supported.

Council Member Pennington presented, the following written motion to amend Item No. 33k;

"I move to amend item number 33k., relating to the Historic Preservation Ordinance, on the October 13, 2010, City Council Agenda by amending subsection (b) of Section 33-237 of the Code of Ordinances, Houston, Texas, as set forth in Section 21 of the proposed Ordinance to read as follows:

- (b) A certificate of appropriateness is not required for the reconstruction of a contributing or noncontributing structure that was completely or partially destroyed by a fire, natural disaster, or other damage not intentionally caused by the owner of the structure only if the reconstruction is built within the same footprint and has the same exterior features as the contributing or noncontributing structure.

A vote was called on Council Member Pennington's motion to amend Item No. 33k. All voting aye. Nays none. MOTION 2010-0745 ADOPTED.

Council Member Rodriguez presented the following written motion to amend Item No. 33k.

"I move to amend Item 33k on the October 12, 2010 City Council Agenda by adding a new Section 33.1 to the proposed Ordinance, which shall read as follows:

Section 33.1. That the applications for designation of the proposed Glenbrook Valley and Woodland Heights historic districts, which were filed before the effective date of this Ordinance, shall be governed by the former provisions of Article VII of Chapter 33 of the Code of Ordinances, Houston, Texas relating to the designation of historic districts, which are hereby saved from repeal for the limited purpose of their continued applicability

to these previously filed applications for designation. The Director of the Planning and Development Department, based on information received during public hearings on the applications, may recommend to the City Council that the designation of either or both of the proposed historic districts be reconsidered pursuant to Section 3 of the Ordinance establishing a process for the reconsideration of historic district designations adopted in conjunction with the passage of this Ordinance.”

Mayor Parker stated that they had discussed how these were pending in the process, they would have full public hearings and would be coming to Council in the future.

A vote was called on Council Member Rodriguez’s motion to amend Item No. 33k. All voting aye. Nays none. MOTION 2010-0746 ADOPTED.

Mayor Parker stated that this was an issue that had not stood in the way of moving forward on the ordinance but was something that came in late and she appreciated Council Member Lovell working with some of the religious organizations in the community to draft this.

Council Member Lovell presented the following motion to amend Item No. 33k as follows:

“I move to amend Item 33k on the October 13, 2010 City Council Agenda as follows:

(1) By amending Section 33-201 of the Code of Ordinances, Houston, Texas as set forth in Section 3 of the proposed Ordinance by adding in appropriate alphabetical order the definition of “*place of worship*” which shall read as follows:

“*Place of worship* means a building, structure, object or site, owned by a nonprofit religious organization for a period of ten years prior to the later of _____² or the date an application for designation of an historic district that includes the building, structure, object, or site is filed with the department and that is used primarily for worship or conducting religious services. A place of worship does not include ancillary buildings used for administration, schools, living quarters, or meeting halls not primarily used for worship. An organization may establish that it is a nonprofit religious organization through a determination letter from the United States Internal Revenue Service that the organization is tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code or other equivalent evidence.”

AND

(2) By amending Section 33-250 of the Code of Ordinances, Houston, Texas, as set forth in Section 27 of the proposed Ordinance to read as follows

Sec. 33-250. Ninety-day waiver certificate.

(a) The director shall not issue a 90-day waiver certificate for any protected landmark or for any property located within the OSWPHD.

(b)The director shall not issue a 90-day waiver certificate for any property located within any historic district other than a place of worship.

(c) Only for landmarks, archaeological sites, and places of worship within an historic district, if for any reason a certificate of appropriateness

¹ Editor to insert effective date of the Ordinance.

has not been issued on or before the ninetieth day following the scheduled submittal deadline at which a complete application for a certificate of appropriateness was received by the director, then the applicant, upon request to the director, shall be entitled to the immediate issuance of a 90-day waiver certificate, which shall for all purposes be the equivalent of a certificate of appropriateness.

(d) Before the expiration of the 90 days, the applicant shall consult with department staff to explore alternatives to the actions proposed by the applicant to mitigate the reasons for which the certificate was denied. Notwithstanding the foregoing, any landmark or architectural site for which a 90-day waiver certificate is granted pursuant to the provisions of this section shall not be eligible for any tax exemptions or other financial benefit authorized by the city council for the property based on its designation pursuant to this article.”

Mayor Parker stated that whether municipalities could impose their ordinances on religious institutions as to the various preservation ordinances had been litigated, they appreciate that the Archdiocese and also the Episcopal Archdiocese also contacted the City about this, they wanted to be part of the historic ordinance, they very clearly were only trying to exempt their actual sanctuaries, the place of worship, not the other buildings around their facilities, but it prevented them from treading into that area and she wanted to compliment the Archdiocese because they had agreed to begin discussions with the City of land marking some of their historic churches voluntarily and they truly appreciate that.

Council Member Sullivan stated that he was an Episcopalian at Christ Cathedral Church downtown and when Mayor Parker says place of worship he thinks of their cathedral with the pews, but there were several connecting buildings on that same City block that were at least as historical as the main sanctuary, could Mayor Parker make a comment on that, and Mayor Parker stated that they would be under any appropriate Historic Preservation Ordinance and they would be like any other citizen bringing their proposed changes to the Archeological and Historical Commission, they just wanted specifically to have control over their sanctuary, their actual place of worship, that they wanted to support the ordinance, they believed in historic preservation, obviously they had saved that historic church.

A vote was called on Council Member Lovell motion to amend Item No. 33k. All voting aye. Nays none. MOTION 2010-0747 ADOPTED.

33k. **ORDINANCE AMENDING CHAPTER 33 OF THE CODE OF ORDINANCES** relating to Historic Preservation; making findings and containing other provisions relating to the foregoing subject; containing a repealer; providing for severability – **(This was Item 13 on Agenda of October 6, 2010, TAGGED BY COUNCIL MEMBERS JONES, JOHNSON, CLUTTERBUCK and SULLIVAN)** - was presented.

After discussion by Council Members, Council Member Sullivan stated that for the record he was born at 511 Arlington in the Heights, that they then moved to Spring Branch, that he and his wife purchased their first home in Montrose, that he did know what they were fighting for, that his chief concern was private property rights and how they might be eroded, that he would be opposed and voting no.

After further discussion by Council Members, Council Member Clutterbuck stated that one of the most challenging aspects of this process had been some of the public perception of what went on at the Historical Commission, that she had spoken to the Mayor about her concerns about some of the allegations of a lack of transparency or allegations of frankly ethics breeches,

that if a person had a relative appearing before the commission that should absolutely render the ability of that member of the commission, they should be compelled to leave the Chamber, she had expressed to the Mayor her strong concerns that ethics rules that applied to the City Council should apply to all of their organizations and it was essential that they affirm that and that their lawyers speak up and assert the essential rules of ethics that were imposed by this body and feel free to instruct the commission accordingly, if the commission did not show the highest level of integrity and inspire confidence in the process then they were only going to continue to have challenges going forward and that would be ashamed for all of the hard work that had gone into this which she believed was an excellent ordinance and she looked forward to supporting it.

Mayor Parker stated that Mr. Feldman was champing at the bit on that one, and Mr. Feldman stated that he did not think that Council Member Clutterbuck had anything to worry on that one.

After further discussion by Council Members, Mayor Parker stated that the 30 days, the chance to reconsider was for the existing districts where they were admittedly changing the ordinance, that for new districts coming in there was not a reconsideration, once they went to it everybody goes in with their eyes open and they were protected historic districts, that if there were neighbors who decided they wanted to create a historic district and they gather together and present a petition to Ms. Gafrick to create a historic district, if they were not a historic district by fact, or if they could not generate enough of support from their neighbors they go away and were not allowed to come back again for a year, then they could try it again but obviously if nothing changes in that course of time they were still not a historic district, but they had to wait a year if they were a failed historic district before they could apply again; that they had the ability as an individual property owner to come to the Archeological Historic Commission, to the Planning Commission and ultimately to City Council to say that for x reason they ought to be able to alter their house, they ought to be able to make changes to their house, that she would point out that there were some districts that were going to need some hand holding but that very much wanted to become historic districts, Independence Heights, which was present yesterday, were meeting with her tomorrow and one of the things that they were going to ask was that they work with them to create a protected historic district in Independence Heights, they may not be able to get deed restrictions but they could get these protections which would protect some of their area, that she did not know if they could get Council Member Johnson to where he wanted to be in this particular ordinance.

After further discussion by Council Members, Mr. Feldman stated that in addition to proposing, what they would see some time in the near future, an overhaul of Section 18 of the Code of Ordinances, they had discussed the need to adopt some specific rules with respect to the Historical Commission under Chapter 171 of the Government Code in terms of what constituted a substantial interest that would require somebody by law to recues themselves from participating, that they would address that completely; and Mayor Parker stated that Mr. Feldman conducted an ethics seminar to which all board and commission members were not just invited but informed that they must either attend or go though the on-line version, she did not know where they were in working their way through that but their board and commission members were expected to undergo ethics training.

Council Member Lovell stated that she would ask for a roll call vote on Item No. 33K.

After discussion Council Member Adams stated that she wanted to put on record that if anyone had any concerns about this and her decision there was a young lady that they had all voted for, her initials were MAP, that meant that she had the direction, Mayor Annise Parker, that she was putting all of this on her and Council Member Lovell, so when the heat comes to her, because it was already coming, she was going to ask them to step in because they did

have to do this compromise and it was not an easy decision for her, that she wanted to put all of that on record.

After further discussion by Council Members, Council Member Johnson stated that he needed some clarity on the historic district, could one individual who owned multiple parcels of property create a historic district that would then leave these row houses in place that in his opinion had not been to the benefit of the community but had to been to the detriment simply because they were renting to whoever would pay the \$300 a month, and Mayor Parker stated that the answer was yes, they could if they owned the properties individually and were platted individually and they were historic, that was the ultimately property right, they as property owners wanted to preserve that, they certainly had the ability to make an application to the City and 67% of the properties within the proposed historic district would qualify, that she would clarify that, that how the land was owned was important, that if it was one big tract that was one property owner, but if there was individually platted tracts those were multiple owners, but yes to what he was saying, the direct answer to his question it was certainly possible for that to happen, and that vote had to come to this body.

A roll call vote was called on Item No. 33k as amended.

Council Member Lovell stated that she stood with Eleanor Tinsley as the last of the billboards came down and she watched the tears roll down her cheeks and she wondered what it would feel like to make such a difference and today she came close to it, that it took her 30 years and she was very grateful to her colleagues that it did not take 30 years, although it felt like it on many days, that she wanted to thank her staff who had worked tirelessly and had done such a great job, that she wanted to thank the Legal Department, the Planning Department, Marty Stein and Mayor Parker for giving her the opportunity to have a feeling like Eleanor Tinsley and to her colleagues thank you very much, even those who voted “no”, to the citizens of Houston and to the stakeholders and to her family.

Mayor Parker stated that they had an item that was tagged earlier in the meeting and Council Member Sullivan, always true to his word, had said that he would come back on that item, and Council Member Sullivan stated that he would release his tag on Item No. 10.
