Council Member Gonzalez invited those present with the Texas Barber College to the podium and stated that he was proud today to present them an award as their mission was to prepare students for examination by the Texas Department of Licensing and Regulation so they may practice in the state and they give back to the communities with free haircuts for children before school began each year; and because of this Mayor Parker presented a Proclamation to them proclaiming today as "Texas Barber Colleges and Hair Styling School Day" in Houston, Texas. At 1:58 p.m. the City Secretary began calling the public speakers.

Sister Jane Meyers, 9000 Bellaire Boulevard, Houston, Texas 77036 (713-219-5450) appeared and stated that she thanked the Mayor and Council for considering their request to create a 1,000 foot alcohol free zone around St. Agnes Academy; that HPD was on their campus until 6:00 p.m., but students were there later and they felt bars would create an issue for students leaving late; that they were very committed to the Sharpstown area for the long haul

and wanted to do everything to keep the area safe; and urged support of their 1,000 foot alcohol free zone. Council Member Lovell absent.

Council Member Hoang stated that he supported the 1,000 foot alcohol free zone and would support her with the same zone on the 18 acres in the future.

Council Member Jones thanked Sister Meyers for coming and stated that Council Member Hoang was working on this and she thanked him; and keeping alcohol from the area was good. Council Member Lovell absent,

Mr. John Cieslewicz, 1250 DuBarry, Houston, Texas (713-683-0703) appeared, presented information and stated that he was present regarding a letter from the City of Houston dated December 23, 2010, from the Public Works Department about the swell which drained water from his and his neighbor's backyard; that the plot map did not show any street or storm drainage so how could Public Works use it for proof of anything; that he used the map to show location of the swells; that the records in Public Works were not complete and they could produce no early records so they took the easy route and said the swells were not dedicated, but they had no proof they were not dedicated; that the city was using an ordinance passed in 1972 and an educated guess would be the ordinance was passed to control storm water in new subdivisions and not to block existing drainage; and the city needed to honor the storm water drainage it gave to homeowners 61 years ago Council Member Lovell absent.

Council Member Pennington stated that he believed this was in Council Member Stardig's district and they had discussed it, but he believed most lots were drained back to front and this was not the case in this subdivision; that he and Council Member Stardig thought this would be good for Council Member Costello to investigate with his committee. Council Member Lovell absent.

Council Member Costello stated that his staff had been working with the homeowner and the issue was more of what historical engineers called orphan ditches, where no one claimed responsibility of an existing ditch and the real question was were the lots designed to grade to the back because that was not done any longer and whether a permitted new house up the street was impacting the drainage in the area; that the problem was the city could not go out and randomly go onto private property when they did not have public access easements and Public Works was trying to ascertain if there was a public access easement; and Mr. Cieslewicz stated that it was not the whole subdivision, it was where the streets curved, it opened up a large area and the two back to back houses were there and it was scattered throughout the subdivision. Council Members Adams and Lovell absent.

Mayor Parker stated that they would continue to kick this around in Public Works; that she had given a series of written questions for the City Engineer; and the issue was not dead. Council Members Adams and Lovell absent.

Mr. John Branch, 4430 Castor, Houston, Texas 77022 (832-880-0414) appeared, presented information and stated that this morning he was present to praise Public Works and Susan Christin's team; that in the past 20 years she had done a great job with ordinances passed on special events, but to all employees who represented the city he wanted to say all must follow the rules; that to be in a parade you had to follow the same rules as others in it. Council Members Adams and Lovell absent.

Mayor Parker thanked Mr. Branch for coming and stated that she was familiar with the great work he did in Independence Heights. Council Members Adams and Lovell absent.

Council Member Gonzalez stated that he knew Mr. Branch and he worked hard in

Independence Heights; and upon questions, Mr. Branch stated that he worked as a parade organizer two weeks ago and he was to make sure they were lined up properly; that his letter would detail the incident, but he asked someone to stop because they were not registered and he asked someone to help remove them from the parade and he was hit by the vehicle they were asking to be removed and Special Events said he did the right thing. Council Members Adams and Lovell absent.

Mr. Lance Hardy, 5206 Ridge West, Houston, Texas 77053 (832-352-2461) appeared and stated that he could not hardly talk at all; that his Lord Jesus Christ....; that Mayor White had sat right there....; that he was back again and had been here quite often; the passion of Christ for all; and much of his statement was inaudible. Council Members Sullivan and Rodriguez absent.

Mayor Parker stated that Mr. Hardy's time had expired and much of his statement was inaudible to them and if he had a request of Council he should share it with Citizens Assistance. Council Members Sullivan and Rodriguez absent.

Mr. Joshua Curry, 7443 Tallpines, Houston, Texas 77088 (713-450-2421) had reserved time to speak but was not present when his name was called. Council Members Sullivan and Rodriguez absent.

Mr. Roland Curry, 8707 Cowart, Houston, Texas 77029 (832-613-7301) appeared, presented information and stated that he thanked Council Members Jones and Johnson, etc., for all their help in a down payment program; that he was present because he had children and he tried to raise them right; that in their family they had gays, etc., and his son worked for Barnaby's Café and had much experience, but he was getting sexually harassed by a gay staffer and sat it out for a while, but then he could not take it any longer and they fired him; and he now had set up a website and had 1,000 hits and they were getting ready to have a protest of Barnaby's and would like a proclamation from the city; that the City of Houston could not expect the host Olympics and other special events with the attitude here in Houston. Council Members Stardig, Sullivan and Rodriguez absent.

Ms. Marilyn Pickeree-Champagne (did not wish to give address and phone number) appeared and stated that during the past eight plus years of pursuing litigation with Pfizer Company, Inc., to which her case was settled fully between herself and their president in a bitter sweet victory in 2009 there was other litigation to be pursued regarding her taking a certain prescription which caused her heart condition; and continued expressing her situation until her time expired. Council Members Stardig and Sullivan absent.

Mr. Craig Moore, Sr., 13907 Chuckwood, Houston, Texas 77038 (713-249-2625) appeared and stated that he had never been before Council, but was present now as on January 20, 2011, he was at home sleeping and was awakened by noise in his backyard; that a man with HPD written on his helmet had busted into his backdoor with others and he asked why they were present and he was told they had a search warrant as he assaulted someone and he said he had not done such, but gave the officers his name when asked and then asked to see the search warrant and was told they did not have to show him the search warrant or anything and there was about 8 of them ramshackling his house and he wanted to know the correct procedure; that they had been looking for his son and he told them he did not stay there. Council Members Stardig and Sullivan absent.

Mayor Parker stated that she wanted Lieutenant Gallier and someone from the Legal

Department to visit with Mr. Moore before he left. Council Members Stardig and Sullivan absent.

Upon questions by Council Member Jones, Mr. Moore stated that they said they had a warrant for his arrest and did not show him the search warrant; that they did not arrest him, they were looking for his son; that the officer stated his vehicle was in the driveway and another back under the carport which was just under Craig Moore and not Craig Moore, Sr., so it was his son's truck, but he told the officer he bought that truck when he was in the 11th grade in 1976 and then he did not even have a son, so the name on the paper was just Craig Moore; that they damaged his door, etc., and he got one name, Sergeant K. H. Bounds, with a phone number and was told to call the city clerk and pursue cost for damages. Council Members Stardig and Sullivan absent.

Upon further questions by Council Member Jones, Mayor Parker stated that she suggested he sit with someone with Legal and Lieutenant Gallier; that if the city made a mistake in entry she would assume they were responsible but would defer to the Legal Department; and Mr. Heilman stated that prior to the meeting they checked to see if a claim was filed and there was non from Mr. Moore; that he heard the scenario and would review it and see if it fell within the waiver of governmental immunity and address it accordingly; and upon further questions by Council Member Jones, Mr. Heilman stated that governmental entities had a protection known as governmental immunity and there was certain waivers under the Texas Tort Claims Act which addressed property damage. That a claimant may recover if it falls within the waver of the Act, but they would look to see if it fell within that waiver or any other; and Council Member Jones stated that she wanted to be kept in the loop; and Mr. Moore stated that he filed a claim; and Mayor Parker stated that he may have filed a report but not a claim for damages; and she would like him to work with them before he left. Council Members Stardig and Sullivan absent.

Council Member Pennington stated that he knew Legal was aware but they not only had state law involved, but federal civil rights and Constitution issues and that was not mentioned; and Mr. Moore stated that it was mailed to the City Secretary.

Reverend Joe Lopez, 1333 Wellsriver, Houston, Texas 77041 (832-891-2724) had reserved time to speak but was not present when his name was called.

Ms. Lora L. Mayes, 2331 Alassio Isle Court, Missouri City, Texas 77489 (713-592-6428) had reserved time to speak but was not present when his name was called.

Mr. Joseph Moore, 8927 Bellflower, Houston, Texas 77063 (713-384-3853) appeared and stated that he was present asking for a more expeditious way to pass the tow truck agreement with the City of Houston; that certain documentation had to be in prior to submitting, first apply with the state board to have a license, insurance requirements, etc., and up until a couple of months ago a policy was in place where they could apply and be get their plates, ID, etc., but along the line someone changed policy and he had \$47,000 he saw collecting dust for the last month and a half and an insurance bill, mortgage payment, etc., coming up and his truck was collecting dust; that he would like to know if they could be issued a temporary permit and allow them to work because Auto Dealers was a governing body and tow truck owners knew before they submitted their contract all documentation had to be in order and he would like them to revert the old way and allow them to start getting an income instead of waiting six weeks; that there must be a more expeditious way of doing this. Council Member Jones absent.

Mayor Parker stated that she agreed; that for his particular issue she had a statement

which said it was sitting in the Chief's Office and she would try and make sure that did not happen again, but she understood he was contacted by the department and they expected it to be available sometime today; that she would follow-up with the department; and Mr. Moore stated that he spoke to them before about the four wrecker rule; that previously a wrecker ran over someone and they found he had been drinking, but it was found it was not his fault, the older couple pulled out in front and he believed if they would go back to the four wrecker rule they would slow down and the public would be out of harms way.

Upon questions by Council Member Jones, Mr. Moore stated that the system used to be the first four wreckers on the scene had opportunity to load the car, but this needed to be done quick; and Council Member Jones stated that with four they would still rush; and Mr. Moore stated that it would slow it down; that the system had been working; and Council Member Jones asked for statistics; and Mayor Parker stated that she was not aware of statistics along those lines and did not find this a compelling argument.

Upon questions by Council Member Lovell, Mr. Moore stated that he was not speaking of SafeClear; and Council Member Lovell stated that inside the city they had the SafeClear Program and if they were caught speeding and reported they would have to go through retraining and then if they violated it they were thrown out of the program; and Mr. Moore stated that SafeClear pertained to highways and he was referring to neighborhoods and prior to SafeClear they had a four wrecker rule; and Council Member Lovell stated that she did not follow his logic, if there was an accident wrecker drivers were not allowed to speed and if they were caught or it was reported they could be fined. Council Member Costello absent.

Mr. William Beal, 5814 Overdale, Houston, Texas 77033 (no phone) had reserved time to speak but was not present when his name was called. Council Member Costello absent.

Mr. Tony Morris, 2400 South Loop West #515, Houston, Texas 77054 (832-785-4855) appeared, presented a book for viewing and stated that he was present today on behalf of the kindred spirit of Mr. Marvin Zindler, it was 1-1/2 years ago when he asked Mayor White if anything special would be done for him as for the past 40 years of his life he stood for much and for the City of Houston, Texas, and was a great patriot and citizen; that he was colorblind to all and did not look at economic conditions, etc., the book being passed around had to do with one of Marvin's "Angels" who did plastic surgery for children all around the world, he was still doing his work and he and Marvin's other "Angels" should be looked at and shown appreciation. Council Member Costello absent.

Mayor Parker stated that clearly Mr. Zindler had a tremendous influence on the City of Houston and would be worthy of an appropriate honor from the City of Houston. Council Member Costello absent.

Council Member Jones stated that she agreed he was a great guy; and upon questions, Mr. Morris stated that to start off a memorial in the Miller Outdoor Theater gardens would be good, a bust of him, and maybe a governmental building should be named after him, or a gallery to show his legacy; and Council Member Jones stated that she would agree he was a hero in this city and it was a great idea. Council Member Costello absent.

Council Member Hoang thanked Mr. Morris for bringing up the legacy of Mr. Zindler; that when he was alive he had opportunity to work with him; and all should be in deep gratitude of him; and upon questions, Mr. Morris stated that the city knew what they could and could not do and this was not an unusual request; that a bust or statue in a great park, maybe Discovery Green and allow children to observe and hear.

Ms. Lori Foster 20922 Twisted Leas, Cypress, Texas 77433 (281-935-7556) appeared

and stated that she owned a business for attention getting devices and was a member of the Houston Business Advocacy Association, a coalition of about 500 different businesses, who were concerned about the ban of attention getting devices and hardships caused to small businesses and some members had even moved outside the city to conduct business and be able to use the devices; that most members were working with Council Members to bring back attention getting devices and it was her understanding that at least 11 were favorable to the ideas set out by their association; that Council Member Lovell stated if she was wrong and people were losing businesses she would be the first to bring it up and ask it be taken back to the way it was; and now she believed they could see people were hurting; that they also said the attention getting devices looked tacky, but now the same corridor was even tackier because of deserted businesses with graffiti all over; that their association worked with Council Members and Mr. Icken on a proposal to help businesses and the City of Houston with a permitting and licensing structure to bring revenue and Mr. Icken suggested concentrating on just one or two devices which deemed most effective and their studies showed it was giant inflatable's followed by pole banners or pennants; and proposed the city give a six month trial allowing inflatable's and then revisit to see if it was effective in increasing revenue.

Council Member Sullivan stated that he had not been a proponent of attention getting devices and applauded the efforts of the committee at the time and would continue with supporting their ban; that he had also given thought to asking the city to impose the restrictions in the LPA and SPA agreements to offer relief to homeowners outside the city; that too many signs was a blight on the community and he would like to make it more restrictive.

Council Member Lovell stated that she had not received a request from her organization to meet with her at all; and Ms. Foster stated that they called three times, but would call again; and Council Member Lovell stated that she had seen none; that they had considered the large attention getting devices as dangerous and a couple had now caught on fire outside the City of Houston and that argument would have her still defend the ordinance; and if she had written statements that businesses closed because they could not use an inflatable device she would change; and Ms. Foster stated that there was a fire, but it was deemed arson.

Council Member Hoang moved the rules be suspended for the purpose of extending the time for questions of Ms. Lori Foster, seconded by Council Member Gonzalez. All voting aye. Nays none. Council Member Jones stated that she thought they got it right with the ordinance and she would like data linking business failure with attention getting devices. Council Member Lovell absent.

Upon questions by Council Member Adams, Ms. Foster stated that the companies who needed the attention getting devices had gone out of business and one attention getting device business had moved to San Antonio. Council Member Lovell absent.

Council Member Sullivan stated that he wanted to acknowledge the hard work of the Sign Administration Department people; that they had been very responsive to his calls and he wanted to give them a public commendation. Council Member Lovell absent.

Ms. Kenya Thomas, 4914 Drew Forest Lane, Houston, Texas 77364 (832-207-0566) had

Mr. Steve Nguyen, 607 Bellaire Boulevard, Houston, Texas 77072 (832-475-6161) appeared, presented information for viewing and stated that Vietnamese served politically in many offices and nine months ago Council Member Hoang said he would not seek reelection, therefore he said he would try and run for the district and immediately his two children who were six and eleven started getting smeared by Council Member Hoang on the internet and he had a copy; that he was a fighter for democracy and Council Member Hoang tried to smear him; that he wanted to know if any of their community leaders, including himself, were assassinated they knew who to investigate. Council Members Sullivan and Jones absent.

Council Member Lovell stated that she was going to let this pass but could not; that those were serious words and given what happened in Tucson she would like to ask such terms like assassination not be used in this Chamber; that she would like everyone here to be far more responsible about their words and what they said. Council Member Bradford absent.

Council Member Gonzalez stated that he supported Council Member Lovell's comments; that residents did elect Council Member Hoang and he felt he and done a tremendous job serving them; and he wanted to make all mindful. Council Member Bradford.

Mr. Stephen Sherman, 11715 Bandlon Drive, Houston, Texas 77072 (281-879-5688) appeared and stated that he was present as he had anticipation; that he appreciated Council Members Lovell and Gonzalez remarks, but thought Council should be aware of the fact that elements in the community were trying to create dissention there; that he too received emails about various political persons stating they had inappropriate actions and the Mayor responded recently to a concern of something deemed to be political; that Vietnamese here did an outstanding job of assimilating in this country, unfortunately he believed there were elements within the community influenced by those outside the community who were trying to create dissention here and that was why he did not support a certain consulate coming here at this time.

Mayor Parker stated that every community had its feuds, etc., but as Council Member Lovell so eloquently said the issue should be about how they carefully phrase it.

Council Member Hoang thanked Mr. Sherman for coming and stated that he was sure he never sent out emails; that he was elected as a Council Member to represent not only the Vietnamese constituents, but all communities and he had to think of the best for the City of Houston. Council Member Sullivan absent.

Council Member Jones stated that Council Member Hoang was also the vice chair of the International Business Initiatives Committee and they were trying to make Houston a destination city, to be the business capital of the world and they went to many consulates, etc., and it was important to recognize they had to be nice to all countries. Mr. David Nguyen, 3411 Horn Beam, Houston, Texas 77082 (713-876-6699) appeared, presented information and stated that he was not just speaking for himself, but was very concerned about the tax money, the \$400,000 for the Vietnamese community, much money was spent for renovation for the community, but they could not use it because occupancy was only 100 and every time they had meetings they had to have a quorum of 200 so even if it was fixed it could not be used. Council Members Stardig, Sullivan, Rodriguez and Lovell absent.

Council Member Jones stated that in his information he had HUD officials; and upon questions, Mr. Nguyen stated that he sent evidence in email and they needed to read the information; and Council Member Jones stated that she would look at it. Council Members Sullivan, Rodriguez and Lovell absent.

"Brad" Bradford and Jolanda "Jo" Jones; Mr. David Feldman, City Attorney; Ms. Marty Stein, Agenda Director; and Ms. Marta Crinejo, Assistant Agenda Director, present.

At 8:30 a.m. City Secretary read the descriptions or captions of items on the Agenda.

At 9:05 a.m. Mayor Parker called the meeting to order and stated that they would start with the Mayor's Report. Council Members Stardig, Adams, Sullivan, Pennington, Lovell, Noriega and Jones absent.

Mayor Parker stated that this was another update on Rebuild Houston, that as she had indicated they were going to be bringing information to Council as rapidly as they could compile it, they had been putting together the finishes touches of their analysis of how much impervious cover they had in the City of Houston and what categories, that Mr. Dan Krueger, Public Works, and Mr. Andy Icken, Chief Development Officer, were going to walk through what the current status of their research was and the closest approximation that they could come to of what the fees and charges would be. Council Members Stardig, Adams, Sullivan, Lovell, Noriega and Jones absent.

Mr. Andy Icken, Chief Development Officer, and Mr. Dan Krueger, Director, Public Works and Engineering Department reviewed a PowerPoint presentation titled "Rebuild Houston Phase 2 Drainage Charge and Exemption Analysis", a copy of which is in the City Secretary's office for review; and stated that they were fulfilling what they told them they would do in January, that Dan Krueger had mention that the website would be kicked off this month, that it was an explanation of what drainage was all about and a linkage to many of the presentations and technology they were using so that the public would fully understand how the process was going on. Council Members Adams, Sullivan, Lovell, Noriega and Jones absent.

Mayor Parker stated that she wanted to thank them for their presentation and stated that as she had indicated they were going to be bringing information before them on a regular and consistent basis to make sure that everybody was moving forward at the same speed; that obviously the critical pages in the report, pages 10, 15 and 16, where they actually see the numbers were as they promised that they would be able to see the impact of any exemptions and they could see what the fees would be, that she was actually pleased when she first looked at these numbers, there had been some rather hyperbolic statements in the community, bordering sometimes on the hysterical, about what the fee might actually turn out to be, that she would compliment the departments, a pretty good job with the ballpark estimate at the beginning and what the cents per square footage would be and the different categories to get to the target, that they would notice on page 16, where they actually put the dollars to it, it was more than \$125 million, the simple reason being that the Charter says that they had to set a fee and to collect \$125 million, that they had to bake in a default rate and an appeal rate and so forth, that it was not like they were trying to slide anything in, a lot of how they set the fee would depend on how aggressively they decide to collect the drainage fee and that would be something that they would decide as they go into the ordinance making process, they had clearly stated their intent to be a very aggressive collector of monies owed to the City and they would just have to decide how much they were willing to do in this one; that there were no votes on this information, this was purely keeping Council and the public aware of the work that was being done as rapidly as they could compile it and get it in front of the Council Members, that the schedule of votes, as Mr. Icken had indicated, at the end of the presentation, that there were a number of stakeholder groups that they were attempting to engage and as she had stated previously, if they had any of these organizations that they needed to visit with they would be happy to do that, that she knew that Council Member Costello had been scheduling presentations as well, that now they actually had some data to take out to those organizations and they hope to have a productive community dialog going forward, that again, she was also pleasantly surprised to see that the amount of property held by potentially exempt organizations, the County, school districts and religious organization, a relatively small amount of property and a relative small dollar impact. Council Members Stardig, Adams and Noriega absent.

Upon questions by Council Members, Mr. Icken stated that with respect to the Clear Lake City Water Authority, Clear Lake was included in all of the properties, it was included in the category of residential or commercial or whatever it was, that they had not completed the analysis nor had they initiated any conversation yet with the Clear Lake folks, however, what they expected was that the ordinance would kick in on July 1, 2011 for all citizens in the City of Houston and they had a commitment to provide a conveyance services to them, including the

people of Clear Lake, so it was their view that the projects that were needed in Clear Lake would be paid for by the fee as they would in Acres Homes or other parts of the City, they would certainly have a dialog with the City and would certainly include Council Members in those conversations as they proceed; and Mayor Parker stated that the privately owned and maintained drainage systems in the presentation was a reference to what, and Mr. Krueger stated that there were some small systems that would not be part of the City's municipal separate storm sewer system and those properties, even though they may be within the city limits, would not be inclusive, and Mayor Parker stated that did not include, in this scenario, include Clear Lake, and Mr. Krueger stated that was right, and Mayor Parker stated that they had previously indicated that they would, at the appropriate time, enter discussions and negotiations with the water authority down there as to what portion of the drainage system was actually covered by the fee paid by the citizens down there and what portion of the drainage profile would need to be covered by their fee, and Mr. Icken stated that the clear distinction that they had made was that they all operated under the Clean Water Act and they had a discharge permit from the EPA, that in cases where the entity was not part of that discharge permit then that was under this category, that Clear Lake was part of the City's discharge permit, the so called MS4 Agreement and as such they believed it belonged in these categories.

Council Member Sullivan stated that he would make a request to Council Member Costello that he consider coming out to Council districts to present the same information that was going to be presented at that Southwest Multi Service Center, that he would like for them to bring it out to suburban districts so that they could have some input and have some first hand from the committee what the plans were, and Mayor Parker stated that would be part of the two CIP meetings that he would have.

Upon further discussion and questions by Council Members, Mr. Icken stated that they did not have all of the answers right now, they said that they were going to come back with the issue on the billing later in this process, that all they were trying to do today was the extent of the properties that existed and would be impacted, that the billing process that they were going to use and the enforcement techniques used were all subject for Council consideration as they brought this to a finality; and Mayor Parker stated that there was a lot of refinement that they needed to do on all of the numbers and the chart on page 16 did not mean that everyone would pay \$5 or \$4, that was a representative average sample.

After further discussion by Council Members, Mayor Parker stated that she wanted to thank Mr. Icken and Mr. Krueger for the presentation, that the Council Members had the PowerPoint presentation in their offices, that they would be back next week to try to begin to flush out what an ordinance would look like, that again it would not be a final product, it was designed to get their questions and comments as they moved forward.
