wrong, but now she had to pay to have her case heard in court. Council Members Johnson, Adams and Sullivan absent.

Mayor Parker stated that Ms. Scharck clearly pointed out confusing street signs, they did go remove the sign and did make it clear there was no parking, but she would have to go through the process and she thought the signs would be persuasive to a judge. Upon questions by Council Member Lovell, Mr. Lubike stated that his best friend owned Lone Star Bike CAB; that he was one of the managers; and Council Member Lovell stated that they had sent a message to Mr. Weatherford in Public Works asking when he thought...; that she agreed there should be pedicab stands and it was up to Public Works to make it happen and they sent an email to him asking when it could happen; that cab drivers in Houston did have to look nice; and Mayor Parker stated that this was the first time it came to her attention and it should have already happened, so a strong message was going to Public Works. Council Members Johnson and Sullivan absent.

Mr. Travis Stowers, 1719 Live Oak, Houston, Texas 77003 (832-275-9464) appeared and stated that he was owner of Lone Star Cab and they had companies in other cities; that they were godfathers of alternative transportation in this city, but received little respect; that they had a rough year, but he thanked them for listening and would appreciate anything they could do. Upon questions by Mayor Parker, Mr. Stowers stated that there was an issue of a stand at Reliant as well; and Mayor Parker stated if they need to talk about that..., she just needed to know whether to add it to the list; that they could not actually do anything at Reliant. Council Members Johnson, Sullivan and Noriega absent.

Upon questions by Council Member Lovell, Mr. Stowers stated that he was the owner and he had to assign to someone else as he was going into a coma so someone else was written owner; that he was not licensed to drive as yet; and Council Member Lovell stated that there was indication that would not happen because he would not qualify due to something in his past; and they had asked to get stands at Minute Maid. and he would like them to work together and get on the same page. Council Members Johnson, Sullivan and Rodriguez absent.

Council Member Lovell stated that they did need to sit with the Police Department and Public Works and figure out how they could make this convenient for customers and be safe, but on the issue children in laps she was opposed. Council Members Johnson, Sullivan and Rodriguez absent.

Council Members Johnson, Sullivan, Pennington and Rodriguez absent.

Council Member Lovell stated that they were new at this and they had brought excellent suggestions today and a meeting was set with Public Works to get this resolved; and she thanked them for coming. Council Members Johnson, Sullivan, Pennington and Rodriguez absent.

Mr. Matthew Parchem, 20980 Deusters, Porter, Texas 77536 (713-302-0659) appeared and stated that he was with Ready to Roll Pedicab and was present to express disappointment in how regulations were being enforced; that Downtown police were overzealous when at Reliant Stadium and on Washington Avenue there was no enforcement at all; that he wanted the Code enforced, but they went overboard, it was their company which had the guy with the dirty shirt as he had changed a tire and it had a few smudges; that he saw an incident where too many were loaded and the seat belt came off and one girl hit her head on the cement; that if they could work with police they could get a safe solution. Council Members Johnson, Sullivan, Pennington, Rodriguez and Noriega absent.

Ms. Shirley White, 2505 Fannin, Houston, Texas 77002 (no phone) appeared and stated that her passport was used to navigate to the U. Mr. Aurelio Cantu, 2310 Freeman, Houston, Texas 77009 (832-767-7855) appeared and stated that he was also present regarding pedicabs; that they tried to provide a service for tourists and residents and if they had a stand on the curb at Texas Avenue they could provide a simple three block ride, not necessary but enjoyable, at this time it was a hostile experience going behind police cars and looking for a small line of bikes in the dark; and they hoped to mend the broken bridges they now had. Council Members Sullivan, Pennington, Rodriguez and Noriega absent.

Mr. William Beal;, no address (no phone) had reserved time to speak but was not present when his name was called. Council Members Sullivan, Pennington, Rodriguez and Noriega absent.

Ms. Angela Hernandez, 8215 Gulf Spring, Houston Texas 77075 (832-310-6213) appeared, presented photos of her Labrador for viewing and stated that he was shot on April 25, 2011, by HPD; that they entered her property as a neighbor called in on a burglary; that the officer said he thought the dog was a threat as he went toward him, that the officer gave her sister a case number, business card and phone number for the Claims in the Legal Department;

when she called she was told he was property; that her dog was now blind and it is yet to be determined if his eye would need to be removed and closed shut; that anyone caring for anything living and breathing would be affected when something happened and she was present hoping she could be reimbursed for vet bills, he was still going through appointments and it was sad someone she loved and took care of nine years was considered property; and he was on his own property. Council Members Sullivan, Pennington, Rodriguez and Noriega absent.

Mayor Parker stated that she was sorry this happened to her dog; that many at the Council Table were dog owners and dog lovers; and it sounded as if it were a very tragic and unfortunate incident for her; that she did understand at the scene she was given the officer's card, supervisor information, etc., and information on how to file a claim; and Ms. Hernandez stated that was correct. Council Members Sullivan, Pennington, Rodriguez and Noriega absent.

Upon questions by Council Member Lovell, Ms. Hernandez stated that her dog's name was Bruce; that her neighbor had called police because someone was breaking into his home and it ended up that it was his stepson; that the dog was in her yard behind the fence; that the officer wanted to check to see if a suspect was in her yard; Council Member Lovell stated that the mascot at BARK was someone that came into the yard and the dog was aggressively protecting its property and they tried to taser it and it would not go down so they were going to shoot, but stopped and BARK came and said it was not a dangerous dog, it was doing its job; that she knew officers had a lot to do, but there should be something better than just shooting a dog when it was in its own yard and she would like some guidance as it did not seem the officer was in a life threatening situation; and maybe the chair of the Public Safety Committee could see if there was another way of going about this; and she was sorry about her dog. Council Members Johnson, Sullivan and Rodriguez absent.

Council Member Pennington stated that maybe a former officer on Council may have an answer as to whether there was training on how to handle dogs, but with regard to this situation it may be a good idea to try and assist her; and Mayor Parker stated that at this point what she wanted was a claim against the city for legal bills for the dog and it would be through Legal and she believed she had been given information for that; and she was not talking of this situation, but to the Council Members this was a common occurrence, many drug houses used dogs for patrolling and often would stake dangerous ones near their entrances and the shooting of dogs, unfortunately, was becoming more common; and it may be a good idea to get what the policy was from the department. Council Members Johnson, Sullivan and Rodriguez absent.

Mr. Norman Nelson, P. O. Box 68424, Houston, Texas 77268 (713-854-7246) had reserved time to speak but was not present when his name was called. Council Members Johnson, Sullivan and Rodriguez absent.

Council Members Johnson, Sullivan and Rodriguez absent.

Mayor Parker stated that it was a really large water bill; that she would point out the city did reduce the bill by half and it was still a very large water bill, but it had been addressed in some form by the city and under the Code of Ordinances it was what was allowed; that she

would ask Mr. Gary Norman with Public Works if there was any other relief in such a situation that they could offer. Council Members Johnson, Sullivan, Hoang and Rodriguez absent.

Mr. Don Linden, 1205 Mansfield, Houston, Texas 77091 (713-476-9074) appeared and stated that he lived in Acres Home and he did security planning and requested the meter be placed within his fenced area of his property and he was told it would be done, but it was not and now he had this very large bill; that he was suggesting the city get its act together; that he understood people taking the money for water and sewer hookup was not employees of that department and there was obvious miscommunication. Council Members Johnson, Sullivan, Hoang and Rodriguez absent.

Mayor Parker stated that when he initially asked for the water meter he wanted it behind the gate on his side rather than the public side where they were normally placed; and Mr. Linden stated that was correct; and Mayor Parker stated that honestly she did not know the policy on that and she did not know if his problem could be solved, but Mr. Norman was present and they would start with him to see if there was any other relief. R. 14641, involving returning to the Apollo Space Mission which meant they would build cities on the moon and he was sure all were for it, but first you had to turn to the banking system. Council Members Johnson, Clutterbuck, Sullivan, Rodriguez and Lovell absent.

from the city website the 2010 census and went through a series of exercises studying the redistricting map and this proposal took District J and made it a new district on the west and northwest part of town and tried to save as much of District C as possible and reconfigured Districts A, C and G to be more compact and maintain more of the neighborhoods traditionally in the districts with minor changes in Districts F and K and there was no changes in Districts B, D, E, H and I. Council Members Johnson, Clutterbuck, Sullivan and Rodriguez absent.

Upon questions by Mayor Parker, Mr. Richardson stated that he had submitted it first to Ms. Wallace and she arranged an appointment with Mr. Jerry Wood and both were very helpful and the Planning Department was extremely helpful; and Mayor Parker stated that you did not need to submit an entire map for it to be considered, but Council had to have the entire map before them before they could take action because they had to understand the implications, but they were trying to encourage people to put their maps in early and as he demonstrated Planning would meet with you and the deadline of submitting a map was this Friday at 4:15 p.m.; and upon questions, Mr. Richardson stated that he took this map and submitted it, but did intend to redraw and show super neighborhoods, etc., and he would do so before that time. Council Members Johnson, Clutterbuck, Sullivan and Rodriguez absent.

Mr. Ray Washington, 14907 Bathurst, Houston, Texas 77053 (713-826-6627) appeared and stated that he was president of Super Neighborhood 40, etc., and today was asking Council to move Precinct 336 into the newly formed District K, the reason being that a member of their Southeast Coalition, Mr. John Martin, was also Precinct Judge and president of Canaberry Village and he resided in the area; that the community felt they would better be served in District K and it would be better for their economic development. Council Members Johnson, Sullivan, Rodriguez and Noriega absent.

Mayor Parker stated she was sorry he was having a problem with the Houston Housing Authority, it was not actually the City of Houston; and Mr. Wynne stated that Houston subsidized his rent at the Christian Towers; and Mayor Parker stated that she would like her Citizens Assistance folks to direct him to either the Houston Housing Authority, which may be handling vouchers to help with his rent, or the Housing Department; that they would try and find the right avenue to make a proper complaint. Council Members Johnson, Sullivan, Rodriguez, Lovell and Noriega absent.

Mr. Green and Mr. Dowe reviewed the Monthly Operations and Finance Report, and Mr. Green reviewed the Quarterly Investment and SWAP Reports, a copy of which is on file in the City Secretary's office for review. Council Members Adams, Pennington, Hoang and Lovell absent.

Upon questions by Council Member Sullivan, Mr. Green stated that as to the increase for C&E for Management, Consulting and Legal Fees they would have to get back with him, that those were the numbers that were reported to him, and thought the Mayor may or may not know, that he did not know if it was a special project they were working on, that he knew there were some issues, or they were making some changes over there so that may have to do something with that, and Council Member Sullivan stated that a follow up email would be fine.

Council Member Sullivan asked how did they capture and identify health care insurance savings and also since potentially they would have fewer people paying into the City's pensions fund would that increase the liability on the City with any contractual obligations they had with the pension fund, if any, did they have any makeup to do if they let a certain number of employees go, and Mr. Dowe stated that in the health care they were removing the dollars in FY12 Budget associated with a like plan that those people had been in in FY2011, so if they were in an HMO plan they were moving HMO type dollars from FY12, that was going on in a position by position basis based on the person that the department was laying off, that the department puts it in and they do a review of position by position change that the department had made; that as to the pension they were obligated to pay on a percentage basis, that for Municipal, he thought, it was mainly the concern there, so their contract was percentage based in the out years, that when there was a new actuarial study it could have some sort of effect but in the current fiscal year it did not have any effect on the makeup, that it was in arrears, the actuarial studies look back at investment performance and contributions over past years so some part of that would be picked up, that there could be a lot of change, obviously in investment results and performance that could make up for that, that they would just have to pick it up in the next actuarial study.

Council Member Gonzalez stated that he had the same question as Council Member Sullivan on C&E so if they could follow up with him on that as well; that on the lower than anticipated revenues at the Municipal Courts was that due to lower ticket issuance or just payment, and Mr. Dowe stated that it was a combination of all three, that it depended on a revenue stream by revenue stream, that it could be a different answer in that one revenue stream could be lots of tickets but low collection, that one could be low collection but lots of tickets, that it was a slight change, they were under earlier in the year and they had seen some really positive trends later in the year and they just did not expect that those positive trends later in the year were going to make up for the underage they had earlier this year; that employment was absolutely trending up at the City, they had really strong employment growth six months in a row, which always there was a very strong correlation to employment growth and sales tax growth so they continue to see that trend, they had seen increased employment and then two months later when they get the sales tax rate, absolutely, they see that swing as well and as he mentioned a couple of months ago, but the trend was also good on property tax, they had seen higher appraised values in the initial reports that they had gotten from the Harris County Appraisal District then they had anticipated a year ago and six months ago, so trends were positive on both of those fronts.

Mayor Parker stated that the building permits were up as well significantly, and Mr. Green stated that he would agree that they were trending upward as Mr. Dowe had mentioned, that sales tax was up and they expected that to continue to go up but they were still a little guarded on their side so that they do not over extend themselves, that the employment rate in the City was certainly going up as well as the National Unemployment rate was down last month as well, that housing sales, existing housing sales were good indicators for them as well, but the prices were holding steady in the real estate area, that property tax, as Mr. Dowe stated, while they may have seen some information in the newspaper last week that the overall anticipated receipts would not be as high, but the good thing was that it was higher than they thought it was, so he thought it was a good thing for them that they did not budget the astronomical increase in the property tax receipts that they would receive so all in all they were looking at some positive trends but still being guarded.

Mr. Dowe stated that on termination pay it was a moving target, that it was going to be paid in FY2012, the terminations were effective July 1, 2011 so it was being budgeted into the next fiscal year.

Council Member Costello moved to accept the Monthly Operations and Financial Report and the Quarterly Investment Report, seconded by Council Member Clutterbuck. All voting aye. Nays none. Council Member Jones absent on personal business. Council Members Johnson, Gonzalez, Rodriguez, Lovell and Noriega absent. MOTION 2011-0348 ADOPTED.

Council Member Adams stated that she wanted to release her tag on Item No. 23, and Mayor Parker stated that they would call it later. Council Member Rodriguez absent.

Council Member Clutterbuck stated that she was concerned about the way the bonding authority was inextricably linked to the purchase of land on Main Street from the City of

Houston, that there were two documents that showed that link and she did not know if they were artfully worded or if they really did reveal what was intended but it gave her pause, that the first was a document from December by the Midtown TIRZ, December 30, 2010, that on page 2 said that the initial bond issuance, which would be this one, would partially be to offset cash diverted from existing projects for the acquisition of the City's Main Street site, the subsequent issuances would fund Midtowns 2011 to 2015 CIP; that additionally on April 7, 2011, Andy Icken produced a memo to Mayor Parker that said with the increased bond authorization, the item they were voting on now, Midtown would be able to purchase the Main Street property and implement it's 2011 to 2015 CIP, that she did not believe that was the best way to accomplish what they were trying to accomplish and she was concerned that whenever they linked a land purchase with CIP bond issuances, that she would like to see the bond issuance be a little bit lower and not be linked to the purchase of land, which she understood they would be voting on in the next week or two.

Mayor Parker stated that this land had intended to be on the block for a while, they had been in negotiations with a private sector potential purchaser and were approached by the Midtown TIRZ, that it was not something that the City went to them, that they believed that this was part of their overall strategy for the redevelopment of the Tax Reinvestment Zone area and believed that it would not only accomplish their goal to sell a piece of property that was surplus, but also help in the overall generation of tax revenues for that area. Waterhouse Coopers produces this every year and believed it was their fourth year and an effort, in their words, to shed light on what makes major cities healthy, that it was a fascinating report and she brought it to everyone's attention because they went through dozens and dozens of inducers, airport access to the central business district, classroom size, commute time, cost of living, crime, cultural vibrancy, entrepreneurial environment, hospitals, housing, hotel rooms, life satisfaction, literacy and enrollment, mass transit coverage, math and science skill attainment, natural disaster risk, recycled waste, skyline impact and skyscraper construction activity, traffic congestion, total tax rate, and the one item that she was quite sure was the reason as far down as number 11, they rate them on thermal comfort, which measured the average deviation from optimal room temperature in a City, which was technically 72 degrees, that they take the January and July heat inducers and calculate that for the City using an online tool that integrates the average temperature and average morning relative humidity for each city during each month, that she was quite sure that their humidity and temperature rating was the one thing that really brought them down, that she found the report fascinating and kudos to the good people and the businesses of the City of Houston, that it was available online or she had a copy of an abbreviated version; that she wanted to give kudos to Catherine Murphy and Barbara Hite of her office, she received a very nice letter from Mr. and Mrs. Roman, who contacted her office about a CenterPoint Energy gas leak on his property, that as they knew the City did not govern that but he was extremely frustrated from the lack of response from CenterPoint Energy, that Catherine took his call and Barbara handled it and a day after the situation was resolved, weeks before CenterPoint Energy promised that they would take care of it.
