Council Member Davis absent.

Council Member Travis stated that this had been set as a high needs area already, which that means they were going to have this pre-engineered in 2017 and that was the first step in addressing the issue and he does encourage him and others to call 311 if they have structural flooding because this was the quickest and fastest way to get this high on the list.

Mayor Turner stated that he wanted to add to that, that flooding was a top priority and they were moving as fast as they can in that regard, there were four to five projects that were on the books right now that were almost ready to go but they were going to cost $311 million dollars to get there and they were looking at funding for that and he knows that he scheduled to be in Washington to meet with a delegation on July 7th to talk with them and at the same time they were talking to the Texas Water Board to maybe get funding and this Administration was looking was exploring all possible opinions to address flooding and flooding projects.

Council Member Davis absent.

Ms. Zainab Mabizari, 8181 Fannin St., 77054, (832)260-2823 appeared and stated she was a first year Medical Student born and raised a Houstonian, various members of the Muslim Community and friends had come out today to show that their community had a presence, they were appalled that a City that was as diverse was tolerating the bigotry in the government that was supposed to represent them; now they have laws against racial discrimination and hate crimes but they do not have laws of hate speech, this needs to change, if a concern of a religion that was not matching the foundation of this nation, they were blinded to the diseases that were plaguing America; Council Member Knox even once he twitted that equal rights was one that when exercised does not impact or detract another person’s rights but yet this was want his staffer chose to do and they were present today to like Members of Council know they would continue to forgive and take the higher road. Council Member Davis absent.

like this and she hopes that City Council would terminate Trebor Gordon and have no association with him. Council Member Davis absent.

Council Member Davis absent.

Council Member Knox moved that the rules be suspended to allow time Council Member to make a 3 minutes response to remarks of speakers on religion freedom and seconded by Council Member Laster, all voting aye, nays none. Council Member Davis absent. **MOTION 2016-0282A**

Council Member Knox thanked everyone today for speaking about this subject, the ability to petition the government to seek regress of grievance was fundamental to the form government, he appreciates and respects their opinions and the position that they hold on these matters, as he stated publicly before, he does not support nor does he endorse the comments that were made by Trebor Gordon which has caused so much pain to many in the City, his statements were by him, on his own time and were outside of his responsibilities as an employee of this office, as horrible as these comments were, his actions bring to light a more pressing issue for him and for the citizens of Houston, intolerance were a root issue displayed by Mr. Gordon, some had argued as many have said today that he must dismiss him from his office; however, was an opportunity to use this incident to actually combat intolerance in Houston, he does not believe intolerance can be overcome with more intolerance, he believes that the best way to combat intolerance with logic, reason, fact and respect; there was a time when people thought the Earth was flat and some of these people took the time to persuaded and correct these men with logic, reason, and face that the Earth was round instead of isolating or banning them from society and he attends to do the same with Mr. Gordon; he wanted to recap the facts as he understood them, Mr. Gordon attempted to deny accesses to a citizens to the Political process based on his beliefs that the Muslim faith was incompatible with the Constitution of the United States and the planks of the Republican party, the Harris County Republican Party defeated Mr. Gordons idea and elected to appoint the aggrieved party to the Precinct Chair and he commended that and when it became known that he was employed by his office, some decided to use Mr. Gordons comments for political purpose and we are, where we are today, if he succumbs to political correctness and dismiss Mr. Gordon without attempting to persuade him to reevaluate his position, he would be acting has intolerantly as Mr. Gordon did; the Constitution of the United Stated and the State of Texas does include his right to speak freely on any subject and having said that he does not condone or defend Mr. Gordons comments but he has chosen to address the underlining issue and work with Mr. Gordon; Mr. Gordon had enrolled and attend sensitivity training and would be tutored by him in American
History that related to the Constitution of the State and Nation and he also accepted the offer from the Islamic Community to help him which this would takes some time and if they were successful Mr. Gordon would broaden his world view and they would have achieved a victory over intolerance and if they were not successful he would not continue in his current employment, let us use this situation to come together as one family of Houstonians and help a family member over his sense of intolerance and he invites everyone to help him by using tolerance to combat intolerance in the City of Houston.

Mayor Turner stated that he thanked everyone for coming down here and expressing their views and on behalf of this entire City, this was a City that welcomes everyone, welcomes the diversity but they certainly have a lot of work to do that they were just inclusive as they were diverse, they certainly welcome everyone here regardless of their faith, their religion, their race, their gender, their age, this was a welcoming City and he looks forward on continuing this discussion and looking forward in sitting down with Council Member Knox as they address this issue and move forward but he does not want anyone to think that this City devalues anyone base on their faith, religion or what they may look like of what their orientation maybe and they were inclusive City and he does not want to lose sight of that.

Council Members Stardig, Davis, Boykins, Green and Knox absent.

Mayor Turner stated he wish he could address the flooding right now, it is a top priority and they were certainly expediting it, for things that had been neglected or overlook, the growth and development that has taken place in the City was going to take a little time to try to address it and it was a top priority and they were moving as expeditiously as they can within the financial constraints to address them.

received a letter and she would make this simply and stated "I understand this event has caused you to suffer a financial hardship and I, on behalf of the City, sincerely apologize to you and I am certain however, that you want the City to operate within the parameter of the law and in this case that means the loss is not sustained by the Houston taxpayers and I know this does not seem fair but it is legal" and then he referred too, the Civil Practice and Remedies 101.021 which was fine but there was another one that was read Chapter 101.215, Liability of a Municipality, a Municipality was liable under this chapter for damages arising from it government function which was those functions that were enjoined Municipality by law and were given by the State as part of the State Sovereignty. Council Member Davis absent

Members of Council questioned Ms. Castillo at length.

Mr. Adrian Garcia, no address, no phone, appeared and stated that he was present to address the Near Northside issues as others have today regarding the community concerns, he first wanted to thank the Mayor as well of Chief Montaivo for the investigation and he also wanted to thank Council Member Cisneros and Mayor Turner for attending the Super Neighborhood meetings and in the meeting they heard of the angry, frustration and the distrust and the only thing he can think of in his years of service had seen an event like this that had shocked, stirred an angrier a community, he just had not seen that, he had seen his fair share of homicides but one like this was not something he had witnessed before, no child deserved to die like this and his neighborhoods want to offer suggests that may help ease the tension. this Salvation Army draws these people into the community, the 30 or 40 people sitting on Main street at any given time where not from the community, they were drawn there by the Salvation Army; he was requesting the City pull the funding and requesting that the City sue the Salvation Army as a public nuisance.    the President and CEO of a City Wide 501C3 called Scenic Houston and their mission was to

   encourage the development of Visual Character of all of the streetscapes, in Houston, the way we

   were built, the way laid out, visual character, community pride, health safety walk ability, clearer air

   was all very well represented by street tree plantings, they were very supportive because it meets

   their mission and the City Council was employing the tools of this Ordinance, the greens corridor

   designation along Yale which has such significant street trees was a great demonstration project of

   how this could be employed in other appropriate areas stretching across Houston; they were turning

   Broadway Street, 1.87 miles, a similar length to this project, they were taking a featureless, flat, gray

   airport corridor and stretch it into a green tree corridor and Trees of Houston was a part of this, they

   were planting 410 new trees, the trees were live Oaks; there had been a lot of support from different

   folks and Scenic Houston feels very strongly about, they were a City Wide Group, not just a Yale,

   Heights Group. Council Members Davis, Martin and Green absent.

   lived in the Heights for the last 31 years, he was a Member of the Urban Forestry Committee of the

   Heights Association and he had been extremely very busy with a small group of community activist

   that were trying to get this first Yale Corridor designated because they think it was extremely

   important, Houston’s Verdant Tree Cover was one of its most important assets and when you think of

   Houston, you think the image was defined by a tree cover; he had worked in 32 different countries

   and he can tell them from his experience that Houston, from a tree point of view, was one of the

   greenest cities in the World, in his world anyway and this was something that they should know

   about, should be publicized and it should be one of the major assists, the trees define Houston

   Image, in this particular corridor which it really was a demonstration project because it had not

   happen before, it not only enhance walkability, it would improve health, provide shade and improve

   property values and also act as buffer to increasing commuter traffic that was coming down through

   the Heights at the moment, they think it was very important, they had followed the Ordinance in every
detail and when they see the information, he was sure, that they would realize that their 90 days were extremely busy and it had taken two years from when they decided to do this and they would like to encourage Council to support this and this could be replicated in appropriate areas in all of the Council Members Districts.
