14. ORDINANCE related to the Fiscal Affairs of the City; approving the annual budgets of the City of Houston, Texas, for Fiscal Year 2018, including provisions for future adjustment to certain fund balances; making various amendments to the proposed budgets; authorizing certain

transfers; re-designating a cash reserve in the Fund Balance; establishing a cost for copies of the budget; making other provisions related to the subject; making certain findings related thereto; providing a repealing clause, providing for severability- was presented,

Mayor Turner stated that he wanted to make some general comments with the Amendments, this is the Budget for the 2018 and initially the Budgetary shortfall was \$123 million dollar and as indicated by Kelly Dowe and Chris Brown in the last week Proposition One, the Revenue Cap, Factor in Population and Inflation there is going to be an additional reduction of \$7.3 million in Property Taxes which adds to the \$123 million dollars which takes it up to \$130 million in terms of Budgetary shortfall and because of some Legislature action that has been taken place that relates to the TNC, vehicles for hire, the City no longer has any jurisdiction over the vehicles for hire, like Lift or UBER, it is now regulated by the State of Texas and that will also have a budgetary impact a little over \$2 million dollars but balances out to \$1.9 million dollars and lastly in relates to the Election on the Pension Obligation Bond, they have not factored that in and that is \$1.5 million dollars for the Election and when they factor all that in the Budgetary Shortfall \$130 million dollars and what this Budget does in terms, there had been Department Reductions of \$49.6 million dollars, there is a Fund Balance that is drawn down to \$46.2 million dollars, the land sale to the Juvenile Detention of \$12.5 million dollars, the Zoo deferral is \$5.0 million dollars, the 611 Walker deferral is \$4.7 million, with this Budget and if they approve it, the Fund Balance would be at 8.9% and in dollars it would be \$179.1 million dollars, the Budget Stabilization Fund will be fully funded in this Budget and that is at \$20.1 million dollars, there will be 4 Cadet Classes but looking for a 5th Class, there are minimum layoffs that are included in this Budget; they maintain in this Budget transfer to Rebuild Houston, fully funds CIP with \$34.1 million dollar transfer, they are fully funding the Pension cost, in FY17 Pension all funds, \$404.5 million dollars, in FY18 Pensions all funds, \$384.2 million dollars; the General Fund itself is 1.4% higher than last year which is \$32 million dollars due to the debt services; in terms of the Budget itself the Recurring Improvements from the Department reduction and other things of that nature is about \$50 million dollars, on the Non-Recurring a onetime payment of \$80.3 million dollars and in regards to the Revenue Cap, without the Revenue Cap, just this year alone, they were not able to utilize an additional \$29 million dollars and he will say to them this is a bare bones budget and the reason being they do not touch over the \$500 million dollars in deferred maintenance, they do have some additional Items in respect to the Fleet because they do have an aging Fleet, the Police, Fire and Solid Waste and he requested his team to looking about addressing the aging Fleets and in respect to the Firefighters he does want to recognize that they have not received a pay raise since 2014 and they do need to have a conversation in regards to that and that is part of the negotiation process but just to recognize that is an issue that is still out there that they do have to address; and as they move forward he is going to ask to try to stick with the Budget that was brought forward, they have tried to balance all of these concerns, it is a conservative budget, it does not address all of the issue that is in front of them because they do not have enough to all the things that need to be done and he believes that they are taking steps in the right direction but they are not there yet.

MOTION 2017-0262 ADOPTED

Written Motion by Council Member Davis to amend Item 14 as follows:

“Market Based Revenue Opportunities

This amendment is follow up to an amendment I proposed last year that asked to City to begin looking at opportunities for new streams of revenue through advertisements. Since tabling my amendment, the City’s own consultant firm has identified this potential stream of revenue as an opportunity to support the long range financial outlook for the City. Market Based Revenue Opportunities (MBRO) simply put is utilizing the existing assets the City of Houston has (i.e. building, fleet, population, etc.) and finding innovative ways to monetize these assets. Some examples are advertising, Municipal Marketing Partnerships, and Secondary use of public real estate.

Peer cities such as “Chicago, Los Angeles, New York and Philadelphia all generate significant revenue from MBROs” (PFM). In fact the City of Houston Combined Utility System currently participates in an MBRO program for it’s sludge.

This amendment requires that within 90 days the City will determine whether to hire a firm that will identify Market Based Revenue Opportunities for the City. A report will be given to City Council Economic Development Committee on the City’s findings.”
