Report No. 2016-01
September 4, 2015

The Honorable Annise D. Parker, Mayor
City Council Members
City of Houston, Texas

SUBJECT: Office of the City Controller
Updated Fiscal Year 2016 Audit Plan

Dear Mayor Parker and Council Members:

I am pleased to submit to you the Updated Fiscal Year 2016 Audit Plan. The basis of this year's Annual Audit Plan (Audit Plan) was the 2014 Enterprise Risk Assessment (ERA) performed by the Audit Division as required. Additional consideration is given to input from your Office, City Council Members, and Department Directors. This document will serve as the primary work plan to carry out the audit responsibilities in an efficient and effective manner. To enhance our effectiveness, our approach is balanced by conducting the audits using, in-house staff and by co-sourcing or outsourcing some projects requiring certain technical or specialized skills.

This Audit Plan includes performance, compliance/contract, monitoring, continuous auditing, and unannounced audits. Additionally, the plan provides for follow-up procedures and special projects.

We post the status of progress in executing our audit plan on a quarterly basis on the Audit Division webpage within the Office of the City Controller website.

Respectfully submitted,

Ronald C. Green
City Controller

Xc: Christopher Newport, Chief of Staff, Mayor's Office
Andy Icken, Chief Development Officer, Mayor's Office

BACKGROUND AND AUTHORITY –

The City Controller is an independently elected official who is granted authority through the Article VIII of the City Charter. Article VIII, Section 7, Audits, requires the City Controller to “…. be responsible for conducting internal audits, in accordance with professionally recognized auditing standards, of the operations of all City departments, offices, agencies and programs. The scope of internal auditing shall encompass an objective and systematic examination of evidence to provide an independent assessment of the efficiency and effectiveness of the city's system of internal controls and the quality of performance based on quantifiable criteria in meeting objectives…..” The City Controller assigns this responsibility to the City Auditor (through appointment) to be the executive in charge of the Audit Division, whose scope of work is contained under a separate Charter (Audit Division Charter). Audit results are issued to the Mayor, City Council Members and Department Directors.

AUDIT DIVISION ORGANIZATION –

At the end of FY2015, the Audit Division had a total headcount of 10, consisting of 8 professional audit staff, one support staff, and the City Auditor. Audit Division staff provide audit related services as their primary focus. Additional training, certifications, and experience will enhance staff ability to provide services.

The Controller’s Office utilizes internal and external audit resources to execute our mission and objectives and meet the needs and requests of our varied stakeholders. We currently have 8 professional service firms under contracts which will expire March 15, 2016.

APPROACH AND METHODOLOGY –

The Audit Division adheres to: 1) the Government Auditing Standards (GAS – commonly referred to as the “Yellowbook”) as promulgated by the Government Accountability Office (GAO) and 2) the International Standards for the Professional Practice of Internal Auditing as issued by the Institute of Internal Auditors (IIA – known as the “Redbook”). To assure compliance with these professional standards, the Audit Division undergoes a peer review every 3 years. The most recent peer review was completed November 1, 2013.¹

The Annual Audit Plan is a flexible commitment of the Audit Division within the Office of the City Controller which establishes areas that will be prioritized for audits in accordance with the responsibility and authority identified in the City Charter. The Audit Plan, approved by the City Controller, serves as a working document that considers items such as; the Enterprise Risk Assessment (ERA), input from the Mayor, City Council, Department Management, and results from previous audits. Due to continual requests for audit services, the increasing demand for non-audit services, and the required testing for planned activities, the Audit Plan will be monitored and revised as necessary throughout the year.

The professional standards noted previously require that the Audit Plan be grounded in risk-based methodology. An Enterprise Risk Assessment (ERA) is conducted annually on selected Departments on a rotational basis for efficiency and to ensure full coverage of all City Departments over a 4-5 year period².

Evaluation of these factors provides indicators for prioritizing potential projects for the upcoming year. In other words, this points us in the direction of “what” to audit. We then identify the available resources to determine the volume of activity to include in our plan (see Audit Resource Allocation section below).

¹ See 2013 Peer Review reports at http://www.houstontx.gov/controller/audit/peerreview.html
² See 2015-08 FY2014 ERA Update under separate cover.
AUDIT RESOURCE ALLOCATION –

Annually, the Audit Plan prioritizes the Audit Division’s limited resources of budgeted staff and funds based on the ERA. The Audit Plan, therefore prioritizes expending efforts on either common Key Business Processes or Departments having a perceived high or moderate risk profile rating. Specific risk factors related to internal controls, estimated liability, and levels of exposure are used to identify and prioritize risks. As such, the City’s audit function serves as a risk evaluation resource.

The number of projects that are proposed is based on consideration and an evaluation of:

- Current headcount within the Audit Division;
- Average number of hours used on a typical audit engagement;³
- Other types of ongoing services that the Controller’s Office provides; and
- Unplanned requests from Mayor, City Council, or other Department Management,

USE OF EXTERNAL CONSULTANTS

For projects that involve circumstances where; 1) The use of experts/specialists is required; 2.) The independence of the Audit Division as an organization is impaired; or 3.) There is the potential for significant political sensitivity, the Office of the City Controller may elect to use external consultants. NOTE: A budgeted dollar amount is approved for the use of these resources.

AUDIT PROGRAMS –

Upon the City Controller’s approval of the Audit Plan, specific audit programs will be developed for each activity to be audited within the fiscal year ending June 30, 2016. The audit programs will be designed with regard to business services, compliance and other requirements, performance considerations, management input, and specialized skills in order to meet the specific audit objectives of each project. All audit programs, workpapers, and reports will be prepared in accordance with:

- Relevant standards issued by the American Institute of Certified Public Accountants;
- Government Auditing Standards (Yellow Book); and
- The Institute of Internal Auditor’s International Standards for the Practice of Internal Auditing (Red Book).

Where applicable, disclosure of nonconformance will be provided.

STATUS AND UPDATES TO ANNUAL AUDIT PLAN –

The specific projects conducted throughout the year may be a sub-set of the list provided in the Audit Plan. The nature, extent, and timing of audit activities will vary as a result of the differences in the nature of operations, organizational structure, and resource availability.

The Audit Division will also provide any assistance to City’s management or City Council when they request special projects (assuming the available resources exist, and depending on the context and priority of the assignment as it relates to risk, exposure, fraud, waste and/or abuse). These special projects will normally be performed in addition to planned audit work. If the assistance requires the use of external consultants, additional funds may need to be provided by the appropriate departments and/or City Council.

³ The Audit Division is a member of the Association of Local Government Auditors (ALGA), which provides aggregated data on internal auditing for local governments, including resource utilization (average number of hours per project).
Executing the Audit Plan involves an update and status process that is scheduled weekly between the City Auditor and the City Controller. Additionally, the Audit Division posts a high-level status report on the Audit Division’s website, accessible from the City Controller’s Webpage. Feedback to the Division in the form of Post-Audit Surveys and Requests for Audit Services is also available from the Audit Division’s website.4

Professional auditing standards (both GAO and IIA) require audit resources to be allocated to projects based on continued risk assessment methodology. There are currently 4 major components to the ERA Process (1) Review of selected departments on a rotational basis, (2) Significant Events occurring during the FY, (3) Changes to major process, structure, leadership within the City, (4) Consideration of Information Systems.

**FOLLOW-UP PROCEDURES**

In order to help initiate change and continued improvement, we communicate with responsible management at regular intervals, and obtain a status of progress on implementation of corrective actions. These communications are formally documented. Additionally, samples of items are tested on a periodic basis, depending on the magnitude, impact, and cost-savings with the results being published as formal reports that disclose status of open items and assess the overall remediation process employed by management.
