

mission

To provide integrated family centered mental health care to improve the health and wellness of Houston-area youth.

about bewell beconnected

Be Well, Be Connected offers access to mental health care for youth ages 9-17. Eligible youth include students from six Houston area school districts* as well as youth who are referred from the community. School-based screenings, referrals, and home and community-based services are provided. Direct services are offered to youth who are experiencing disruption and interference in their lives from serious emotional disturbances (SED), including first episode psychosis and bipolar disorder. The services include family support that is offered in their homes and communities.

*Houston ISD, Pasadena ISD, Sheldon ISD, Spring ISD, Conroe ISD, and Raul Yzaqure Charter Schools.

how do I get help?

If a student is experiencing an immediate crisis: please call 911 and have them transferred to the nearest emergency center.

A student can self-refer or be referred by a teacher, parent, or counselor.

Call 713-798-2567 or
email bewellbeconnected@bcm.edu

who are we?

Mayor Sylvester Turner's Office of Education and the City of Houston, Baylor College of Medicine - Department of Psychiatry, Meadows Mental Health Policy Institute, Texas Children's Hospital, and Harris Health System are bringing together a broad coalition of providers and partners to provide oversight and guidance for this work. The collaboration also includes Depelchin Children's Center, Hackett Center for Mental Health, Harris Center, Legacy, Menninger Clinic, Trayt, Inc., University of Houston Department of Psychology and Social Work, and Veteran's Mental Health Care Line. Our services are made possible by a Systems of Care Grant from the Substance Abuse and Mental Health Services Administration.

For more information, please call: **713-798-2567**

who will benefit from our services?

Direct services are offered to youth, ages 9-17, who are experiencing disruption and interference in their lives from serious emotional disturbances (SED), including first episode psychosis and bipolar disorder.
