

Census 2020 Response Rates

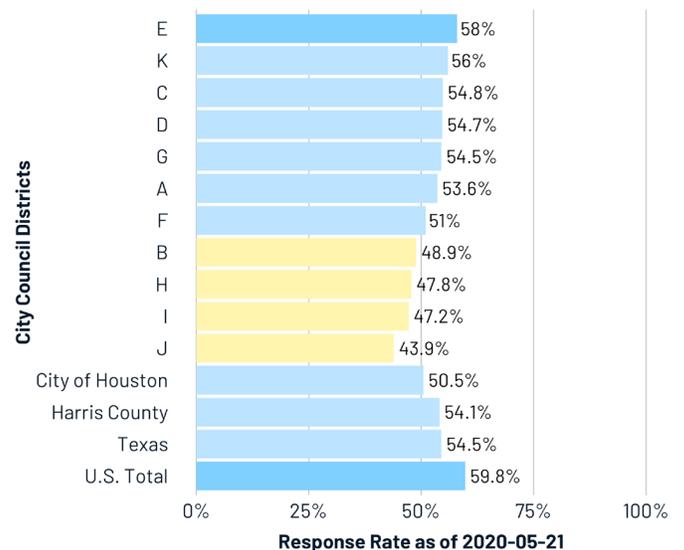

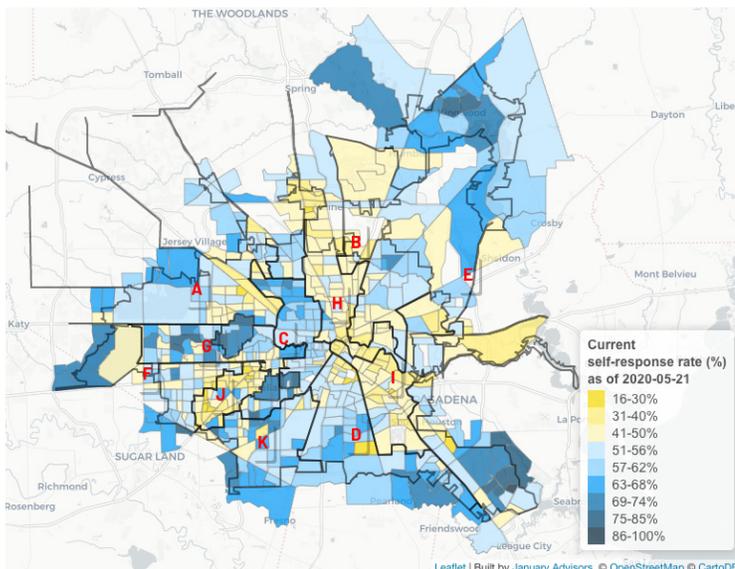

Weekly City Council progress report on self-response rates, May 21, 2020

This week's highlights:

- City of Houston passed 50% response rate! Seven districts (E, K, C, G, D, A, F) have response rates of 50% or greater.
- District E has the census tract with the highest response rate in the city (85% in #340400).
- Districts I and J have the lowest overall response rates. Tract #432701 in Districts F and J has the lowest response rate of 19.4%, with 2,000 households still left to respond.
- City of Houston lags behind Harris County, Texas, and the national average, but Districts K, E, D, C, and G are outperforming the rest of the state.

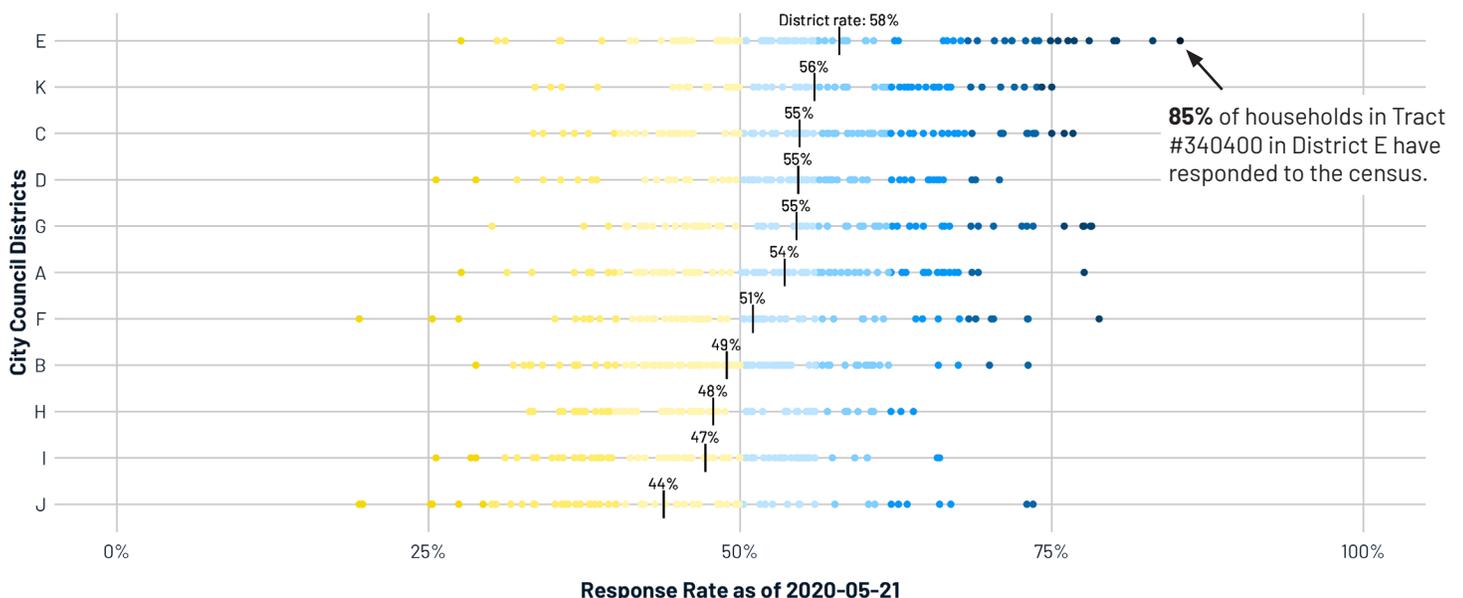

Total response rates by city council district

District E leads the way, but all districts lag behind national average. Colors correspond to legend on map.

Response rates by census tract across city council districts

Each dot represents a census tract. Some census tracts cross district boundaries. Colors correspond to legend on map.
