

# The Houston Department of Health and Human Services is inviting you to participate in 2014-2015 Houston Vision Partnership Clinics

Since 2007 the Houston Department of Health and Human Services (HDHHS) has worked with various eye care providers and public organizations to provide no cost, quality eye exams and eyewear to children ages 6 ---18.

During this clinic students who have failed a prescreen vision test or are identified by a school representative as having vision problems are transported to the initiative by their school to receive a comprehensive eye exam and eyewear if needed. Eyewear is delivered to the school within 3---4 weeks from the date your student was seen at the clinic.

If you have a student who has a need for vision correction and there are limited or no resources to solve the issue, then this project is for them.
