

LAKE HOUSTON DAM SPILLWAY IMPROVEMENT PROJECT

HAZARD MITIGATION GRANT PROGRAM PROJECT

SAN JACINTO RIVER WATERSHED

The Lake Houston Dam Spillway project, located on Lake Houston along the San Jacinto River, will increase outflow capacity of the Lake Houston Dam. The project proposes installing new crest gates in the existing uncontrolled spillway. This will allow for rapid decrease of water levels in Lake Houston in advance of storm events to prevent or reduce upstream flooding.

	Total Cost	Federal Share	Local Share
Lake Houston Dam Spillway Improvement	\$47,170,953	\$35,378,215	\$11,792,738
Phase I: Design	\$4,375,199	\$3,281,399	\$1,093,800
Phase II: Construction	\$42,795,754	\$32,096,816	\$10,698,938

*Phase I timeline subject to procurement process and environmental approval
