

PARK SECTOR 5 SUMMARY

PARK SECTOR 5 PRIORITIES

These priorities were developed by using condition assessment information from site visits, standard-based needs analysis (NRPA standards and data provided by the Trust for Public Land ParkScore™ Project), and public input via an online survey, park user interviews, community events and Capital Improvement Plan (CIP) meetings.

1. Revitalize existing parks
2. Preserve environmentally sensitive areas
3. Develop Neighborhood connections to parks and trails
4. Develop partnerships with the school system and other entities
5. Acquire new parkland
6. Develop new park facilities

RECOMMENDATIONS

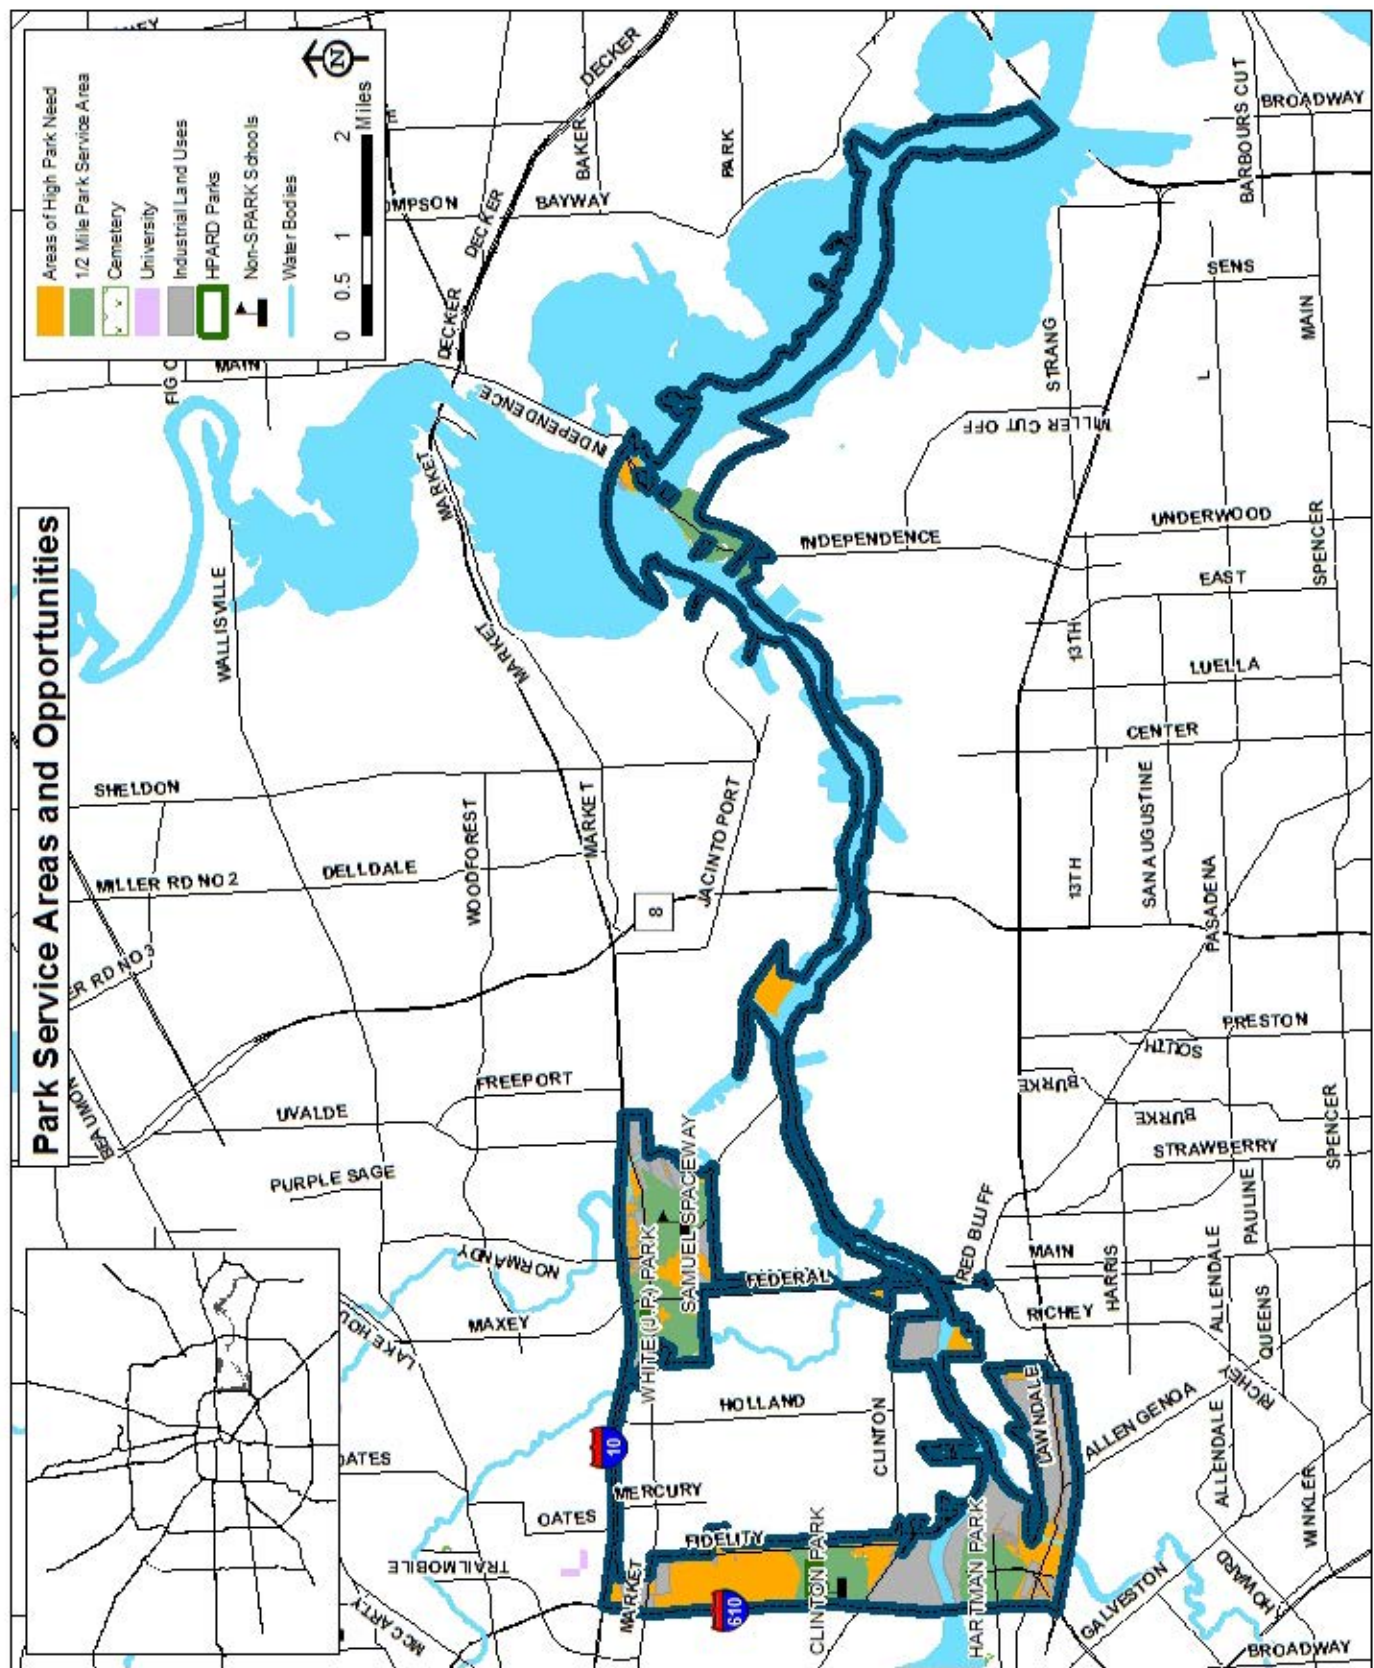

The parks in Park Sector 5 that have the highest need for redevelopment are listed from greatest need to least need: Hartman Park, Samuel Spaceway, and White (J.P.) Park.

At the current population, there is sufficient parkland; however, there are gaps in service areas in many areas of the Park Sector. As there is little redevelopment occurring in this sector, this Park Sector should be targeted for CIP and bond funds for future development and land acquisition. In addition, almost 68% of the population in this Park Sector has incomes considered to be low to moderate. Pursuing Community Development Block Grants (CDBG) for park improvements should be a priority.

A trail along Hunting Bayou is planned under the Bayou Greenways 2020 (BG2020 Initiative) program and will pass close to a residential area south of IH-10 and connect with the trails in Herman Brown Park north of this Park Sector. This Park Sector is deficient in dog parks, spraygrounds, and softball and soccer fields. There is potentially enough space at Clinton Park to allow for the development of fields within this park. However, because of the air quality conditions in the area, indoor recreational opportunities may be more adequate.

In the 2014 survey, the top five priorities of residents in Park Sector 5 when asked what recreational needs existed in their Neighborhood were: hike, bike, and walk trails, upgraded community center, playground areas, indoor basketball courts, and an amphitheater/performing arts space. Other services and amenities that residents asked for in the write-in portion of the survey were: performing and visual arts programming, fitness and nutrition programs, arts and crafts programs, senior programming, swim lessons, and teen and youth enrichment programs. The Health of Houston survey revealed that 13.3% of the population received a diagnosis of diabetes by a professional (City of Houston level was 11.4%). Based on this health profile partnerships focused on recreational options and programming that promote healthy living should be explored.

PARK SERVICE AREAS

The Park Service Area map was produced using data provided by the Trust for Public Land ParkScore™ Project to show areas of park need. The green areas represent a ½ mile service area of public parks (city or county) and SPARK Parks (school parks open to the public after school) or other publicly accessible non-HPARD Parks.

The orange represent areas where there is not access to a park within a ½ mile. The degree of need (orange is high need) is based on population density, household income (less than \$35,000), and presence of youth (19 yrs or younger). The office and industrial land uses are represented in gray, to specifically highlight residential and commercial areas of need. Roughly 22% residential and commercial areas do not have parkland accessible within a ½ mile, as compared to the 55% of the population of the City of Houston. Non-SPARK schools are indicated on the map as black flags to explore as potential future partnerships for park space.

PARK SECTOR FACTS

- This Park Sector contains 52 acres of parkland (Harris County, HPARD & other providers). Of the 7,828 acres in this Park Sector, 1% of this acreage is parkland.
- There are approximately 8,500 residents, 74% are Latino and there are a high percentage of youths.
- Based on the standard of park acreage of parkland per 1,000 residents, there is no need for additional acres of parkland in Park Sector 5; however, as seen on the map there are some areas not served by parks.
- H-GAC population projections estimate that this area will add over 1,500 residents by 2040.

NEEDS ASSESSMENT FOR AMENITIES IN PARK SECTOR

The table below shows the total existing amenities (including, HPARD, County and SPARK Parks) as of 2015, the target goal per amenity, and the amenities needed based on population standards for each amenity using 2010 US Census Population. The last row shows the estimated number of amenities needed based on the H-GAC population projections for 2040 and standards used in the 2007 Parks Master Plan.

AMENITY	PLAYGROUNDS	PICNIC SHELTERS	TRAILS (MILES)	OUTDOOR BASKETBALL COURTS	TENNIS	VOLLEYBALL	DOG PARKS	SKATE PARKS	COMMUNITY CENTERS	SWIMMING POOLS	OUTDOOR SPRAYGROUNDS	BASEBALL (LIT and UNIT)	SOFTBALL (LIT and UNIT)	SOCCER (LIT and UNIT)
2015 Goal	8	3	5	3	4	1	1	1	2	1	1	2	1	1
2015 Existing	8	3	5*	3	4	1	0	1	2	1	0	2	0	0
2015 Needed	-	-	-	-	-	-	1	-	-	-	1	-	1	1
2040 Needed	-	-	-	-	-	-	-	-	-	-	-	-	-	-

* This number includes 3.8 miles of trails currently planned along Hunting Bayou from I-10 to Federal Road under the Bayou Greenways (BG2020) Initiative.

GUIDE FOR ESTIMATED COST OF NEW AMENITIES, PARKLAND, AMENITY RENOVATIONS AND OPERATION AND MAINTENANCE FOR PARK SECTOR

The table below contains costs estimates (in 2015 dollars) based on the needs assessment using 2010 US Census population and population projections provided by H-GAC per Park Sector for 2040, for both amenities and land in this Park Sector. In addition, the cost estimates (in 2015 dollars) for renovation of existing facilities and operation and maintenance are listed. A general explanation of each figure and its source is listed below:

1. **Cost of New System Amenities:** This is the estimated cost for amenities based on the needs assessment above. Costs are estimated for 2015 and 2040 based on costs of 2014 HPARD projects. These costs are a guide and do not include site specific constraints such as utility extensions, flood mitigation or the purchase of land if expansion of the park was needed for these amenities.
2. **Cost of Park Land:** This is the land needed to meet the parkland standards for 2015 and 2040 based on the 2010 US Census and the H-GAC estimated population projections respectively. Land costs are based on land values by Park Sector, provided by H-GAC, from 2014 HCAD values for properties greater than 5,000 sq ft in size and with no structures.
3. **Cost of HPARD Amenity Renovation:** The 2015 cost estimate is based on the assessment that 30% of the existing facilities in this Park Sector need renovation. The 2040 cost estimate is based on the assessment that the remaining 2/3 of the facilities from 2015 and 30% of the new facilities will need renovation to meet the population growth. Costs are estimated for 2015 and 2040 based on costs of 2014 HPARD projects.
4. **Annual Operation & Maintenance:** This figure is based on the national average for parks and recreation operational spending amount (\$63) per resident in 2013 according the Trust for Public Land publication "2014 City Park Facts." Houston spent \$29 per resident on parks and recreation per resident in 2013. This figure shows what the cost of spending this average amount per resident would be based on the current population and the projected population in 2040.

	1	2	3	4
	COST OF NEW SYSTEM AMENITIES	COST OF NEW PARK LAND	COST OF HPARD EXISTING AMENITY RENOVATION	ANNUAL COST OF OPERATION AND MAINTENANCE
2015	\$3,000,000	0 Acres- \$0	\$8,000,000	\$500,000
2040	\$600,000	0 Acres- \$0	\$18,000,000	\$100,000
TOTAL 2040	\$3,600,000	0 Acres- \$0	\$26,000,000	\$600,000

PARK SECTOR PROFILE 5

LOCATION AND POLITICAL BOUNDARIES

Park Sector 5 is located east of IH 610, west SH 148, south of IH 10, and north SH 225

Park Sector Size: 7,828 acres or 12.2 square miles

Population: 8,489 people, Density: 696 persons/sq. mi.

Political Boundaries within Park Sector 5:

- Council Districts: I and E
- Super neighborhoods contained in this Park Sector: Clinton Park Tri Community, Harrisburg/Manchester, Meadowbrook/Allendale, and Northshore
- TIRZ: N/A
- Management Districts: N/A

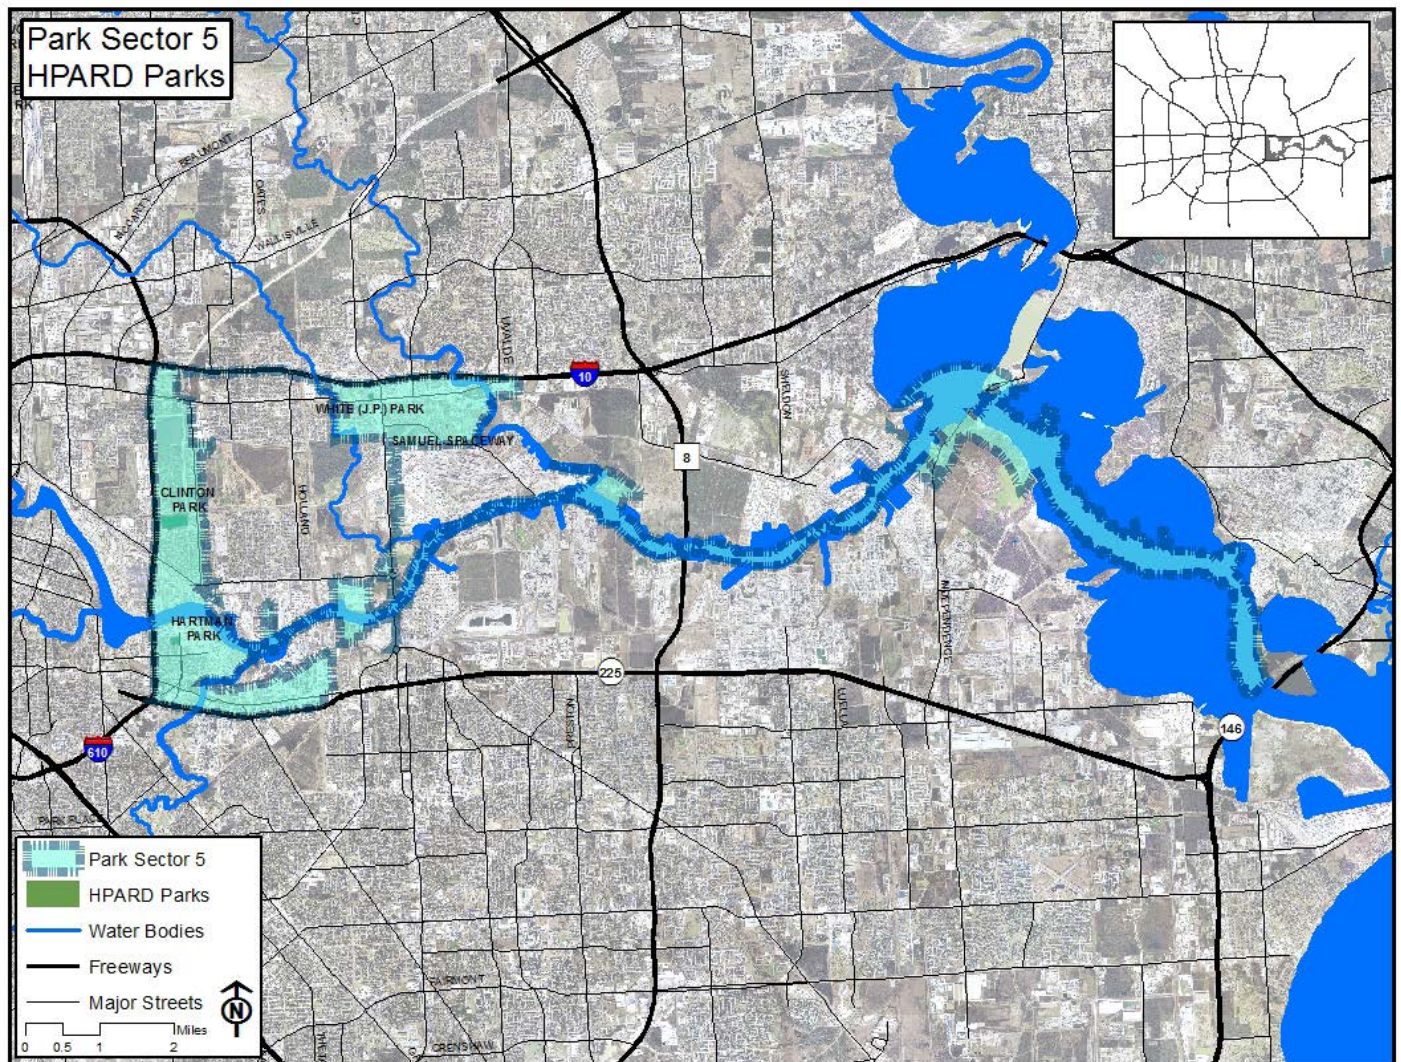

FIGURE 1. PARK SECTOR 5 BOUNDARY AND HPARD PARKS

DEMOGRAPHIC PROFILE

Ethnicity

	Park Sector 5 Population	Park Sector 5 Percent of Total	Houston Population	Houston Percent of Total
Total Population	8,489	-	2,119,831	-
Hispanic or Latino	6,290	74.1%	919,668	43.8%
Non-Hispanic White	512	6.0%	537,901	25.6%

Non-Hispanic Hawaiian or Pacific Islander	-	0.0%		
Non-Hispanic Some Other Race	21	0.3%	26,828	1.3%

TABLE 1. PARK SECTOR 5 ETHNICITY (2010 CENSUS & CITY OF HOUSTON PLANNING AND DEVELOPMENT DEMOGRAPHIC DATA)

This Park Sector contains about 0.4% of the population of Houston; the majority (74%) of the residents are Hispanic/Latinos, followed by Non-Hispanic Blacks (19%), and Non-Hispanic Whites (6%). The most dense portion of the Park Sector is the northern area of the Park Sector closest to IH-10.

The age profile for this Park Sector shows that the percent of population under 19 (35%) is higher than the percentage of the rest of the city (28%). Further breakdown of the age groups, as shown in Figure 2., reveals that there are more (27%) youth 5-19 years old than the rest of the City of Houston (20%). The other age groups in this Park Sector roughly mimic the patterns seen throughout the rest of the City. These demographic trends can help inform future programming and park improvements.

FIGURE 2. CITY OF HOUSTON VS. PARK SECTOR 5 AGE CITY OF HOUSTON ORTS BY HPARD PROGRAM AGES (2011 AMERICAN COMMUNITY SURVEY, CITY OF HOUSTON PD)

TABLE 2. CITY OF HOUSTON VS. PARK SECTOR 5 AGE CITY OF HOUSTON ORTS WITH FURTHER BREAKDOWN FOR ALL PROGRAM AGE GROUPS

Housing

There are only a total of 2,695 housing units in this Park Sector. The percent of vacant housing in Park Sector 5 (11.4%) is roughly equivalent to the vacancy rates for the entire city (12.3%). Home ownership for this Park Sector (52.4%) is higher than the City of Houston's home ownership rate (39.7%), similarly, the share of renters (36.2%) is below that of the city's as a whole (47.1%).

Income

The median household income for this Park Sector (\$29,875) is significantly lower than that of the City of Houston (\$48,322). In this Park Sector seventy-three percent (73%) or 1,822 households in this area have an income below the Houston median household income. According to the City of Houston Housing and Community Development data (low or moderate income derived from 2000 Census as per federal regulations) 69.7% of the population is low to moderate income; therefore, this area could qualify for Community Development Block Grant (CDBG) funds.

Educational Attainment

Within Park Sector 5 the percent (6%) of individuals 25+ years of age with a Bachelor's degree or above is drastically lower than the relative percent for the entire City of Houston (28%). Conversely, the percentage of those within this Park Sector with a high school degree (27%) is higher than that of the City of Houston (23%).

FIGURE 3. EDUCATIONAL ATTAINMENT (2011 CITY OF HOUSTON PD)

Community Health

The Health of Houston Survey 2010 data (aggregated by Park Sector by the Houston Department of Health and Human Services) shows that 25.1% of the adult population in this Park Sector is considered obese, as compared to 30.8% for the entire population of the City of Houston. The survey also showed that 13.3% of the adult population received a diagnosis of diabetes by a professional, which is above the level for the entire city (11.4%). In addition, this survey inquired about physical activity level and the results indicate that almost 11% of the respondents in this Park Sector engage in a moderate physical activity for 5 or more days a week, which is lower than that of the entire city (32%).

The national initiative, Healthy People 2020, has a goal to increase the amount of adults who engage in moderate physical activity for at least 5 days a week for 30 minutes to 47.9% of the population. The current national average of adults engaging in this level of aerobic activity is 43.5%. Finally, the survey shows that more than half of the population (59.1%) does not engage in moderate physical activity at all, which is almost three times the rate for the entire city (21.2%). As HPARD plans and prioritizes investments for future parks and trails, it should take into account the accessibility of parks, amenities provided and the impact to the health of the community in the long term. HPARD is an active participant in the Healthy Communities Initiative, Community Transformation Initiative, Healthy Kids Houston, and the Sustainable Communities Houston-Galveston Regional Plan, among other efforts. This involvement should continue with an emphasis on partnerships, measurable outcomes, and engagement with the community to encourage physical activity and help identify physical barriers to park access.

LAND USE ANALYSIS

This Park Sector is heavily industrial due to its proximity to the Houston Ship Channel; over forty percent (41.1%) of the land acreage in Park Sector 5 is industrial land use. Almost a quarter (24.8%) of the acreage is related to transportation and 13.3% is undeveloped land. Less than 450 acres in this Park Sector are for residential purposes (single-family and multi-family). The residential areas are clustered south of I-10 and east of Loop 610.

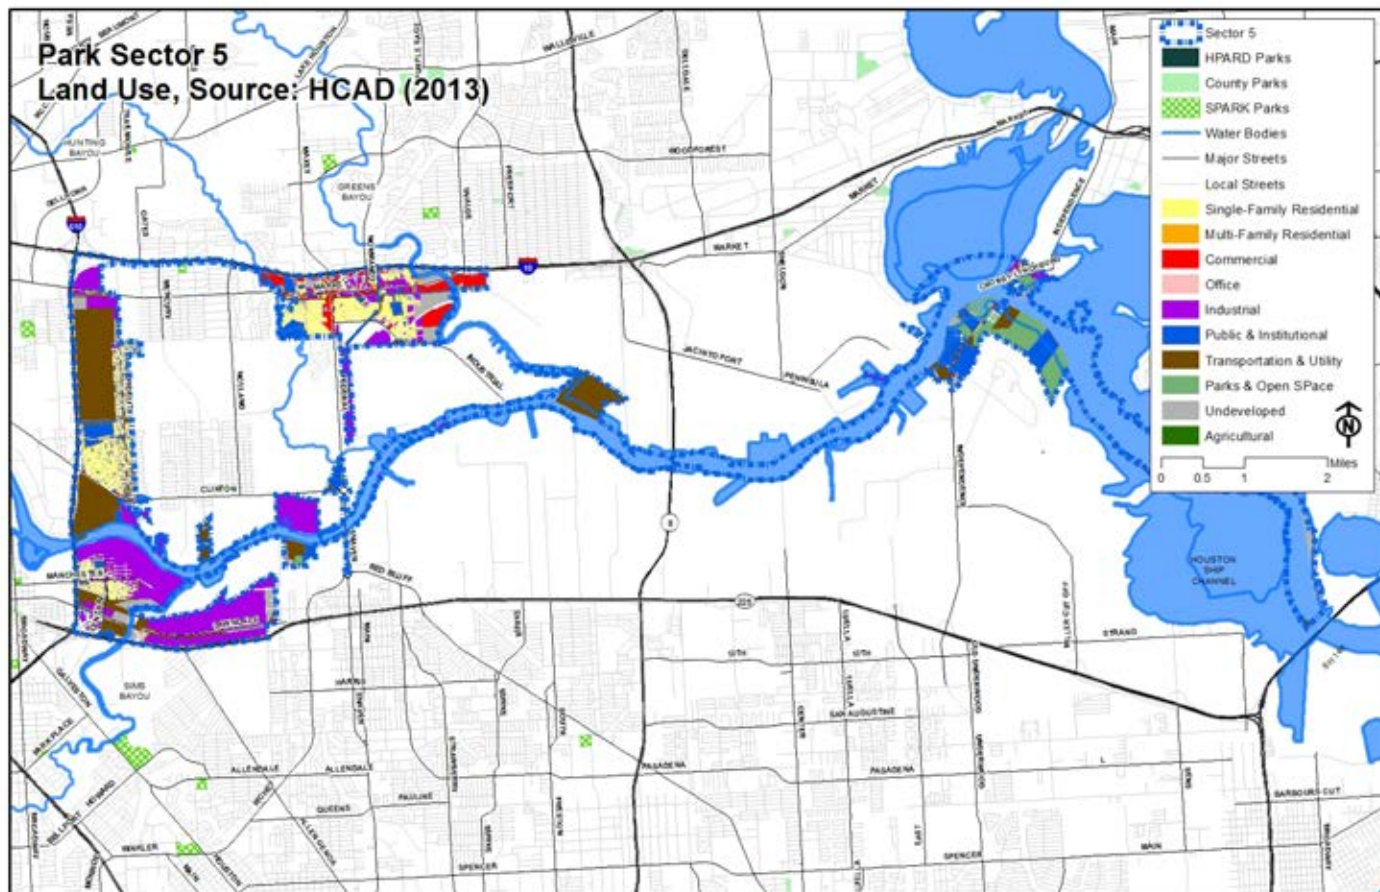

FIGURE 5. PARK SECTOR 5 LAND USE MAP (2013 HCAD) AND HPARD, COUNTY, AND SPARK PARKS

	Number of Parcels	Percent of Parcels	Acreage of Parcels	Percent of Acreage

TABLE 5. HPARD PARKS, ACREAGE, AND TRAILS INTERNAL TO HPARD PARKS, BAYOU AND URBAN/SHARED USE TRAILS IN PARK SECTOR 5

The Houston Parks and Recreation Department (HPARD) operates 4 parks in this Park Sector, accounting for 44.66 acres of parkland. Harris County operates 2 parks in this Park Sector that total of 6.90 acres of parkland. HPARD maintains 1.04 miles of trails inside the parks. There are two pedestrian/bicycle crossings over IH-10 that connect into Park Sector 4 to a series of bike routes that eventually make their way to Herman Brown Park. A 3.8-mile trail along Hunting Bayou (of which 1.5 miles is inside the city limits and passes close to a residential area) is planned according to the Bayou Greenway Initiative (BG2020).

Total Acres		1,200	

TABLE 8. TRAILS INTERNAL TO STATE PARKS IN PARK SECTOR 5

Open and Green Space

To determine level of service the 2007, Master Plan outlined standard distances based on park classification as well as population. Analysis in this section will be done based on population (acres/1,000 people) as well as park accessibility within a ½ mile radius using data provided by The Trust for Public Land ParkScore™ Project. Figure 6 below shows the level of service (LOS) based on the 2007 HPARD recommended standards of a number of acres per 1,000 people using the 2010 Census population. According to the HPARD recommended standards per park type (2007 HPARD Master Plan Criteria Facility Needs) 0.005 acres/1,000 people for a Pocket park, Park Sector 5 meets the standard. According to the HPARD recommended standards per park type (2007 HPARD Master Plan Criteria Facility Needs): 1 acres/1,000 people for a Neighborhood park, Park Sector 5 also meets this standard. For the HPARD recommended standards per park type (2007 HPARD Master Plan Criteria Facility Needs): 1.5 acres/1,000 people for a community park, HPARD fulfills this standard in Park Sector 5.

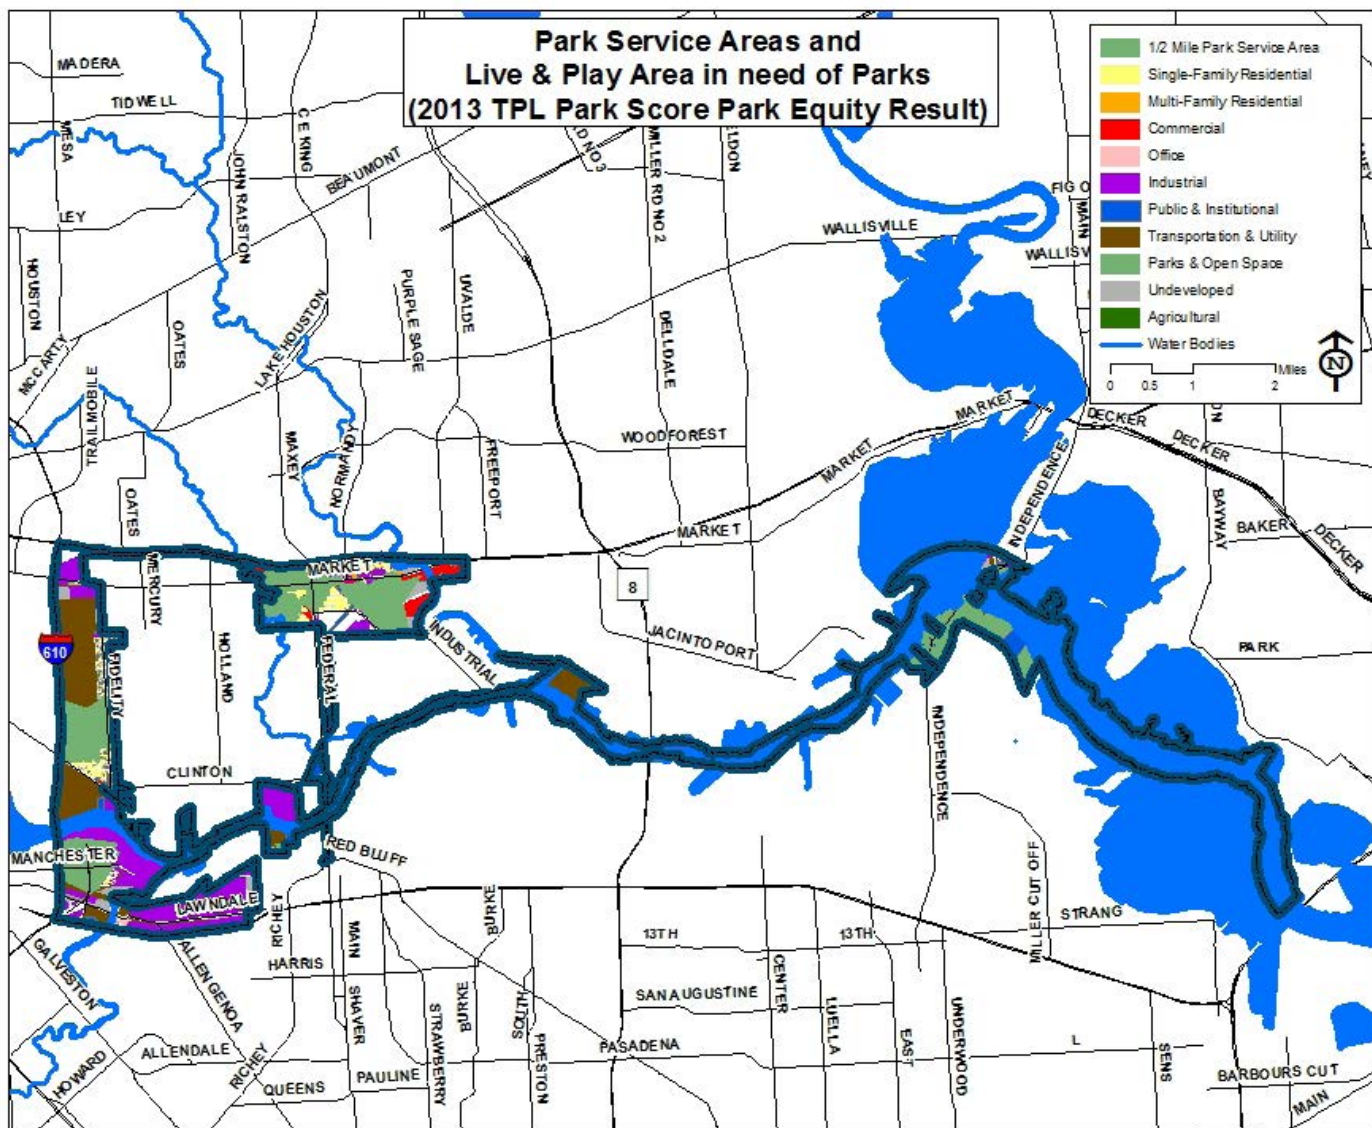

Park Type	HPARD Park Number	HC Park Number	Other Providers	HPARD Acreage	County Acreage	Other Providers	Total Park Acreage	HPARD Recommended Standard	Current HPARD LOS	Current Total Inventory LOS	HPARD NEED (2010 Population)	Total Inventory NEED 2010 Population

TOTAL	1	2	0	44.65	6.90	0	51.55				-23.39	-30.29

TABLE 9. PARK SECTOR 5 HPARD LOS AND PARKLAND NEED ANALYSIS.

A negative number in the last two columns means there is a surplus, a positive number means there is a need.

Another way to measure the level of service provided by parks is by looking at a “walkable” distance (1/2 mile radius) from the park regardless of the size of this park. The Rice University Shell Center for Sustainability published the Houston Sustainable Development Indicators: A Comprehensive Development Review for Citizens, Analysts, and Decision Makers and used ¼ of a mile distance of persons living from a park as a sustainability indicator for quality of life and determined that 44% of residents have access to a public space (King 2012). The Trust for Public Land (Trust for Public Land (TPL)) ParkScore™ Project study mapped the park needs of the City of Houston based on accessibility by density, age, and income. The methodology used by Trust for Public Land (TPL) ParkScore™ Project factors in the accessibility to a public park within ½ mile considering freeways and major thoroughfares as barriers to park access. Trust for Public Land (TPL) ParkScore™ Project found that 45% of residents have access to public spaces (Trust for Public Land (TPL) 2012). The map was produced using data provided by Trust for Public Land (TPL) ParkScore™ Project. The areas in green on the map in Figure 7 represent the area within ½ mile of existing parks not blocked by freeways or major roads. Roughly 22% of the live/play areas (residential= yellow and orange and some commercial= red) in this Park Sector are not served by a park, significantly lower than that of the entire city (55%). This percentage was calculated by subtracting the areas served, industrial areas, and acreage of private parks from the total acreage of the Park Sector. According to the acreage level of service analysis in Figure 6, no parkland is needed. However, to service the areas in the single-family neighborhoods that are not currently being served along Clinton Drive and Market Street, the development of a Pocket or Neighborhood sized park might be appropriate.

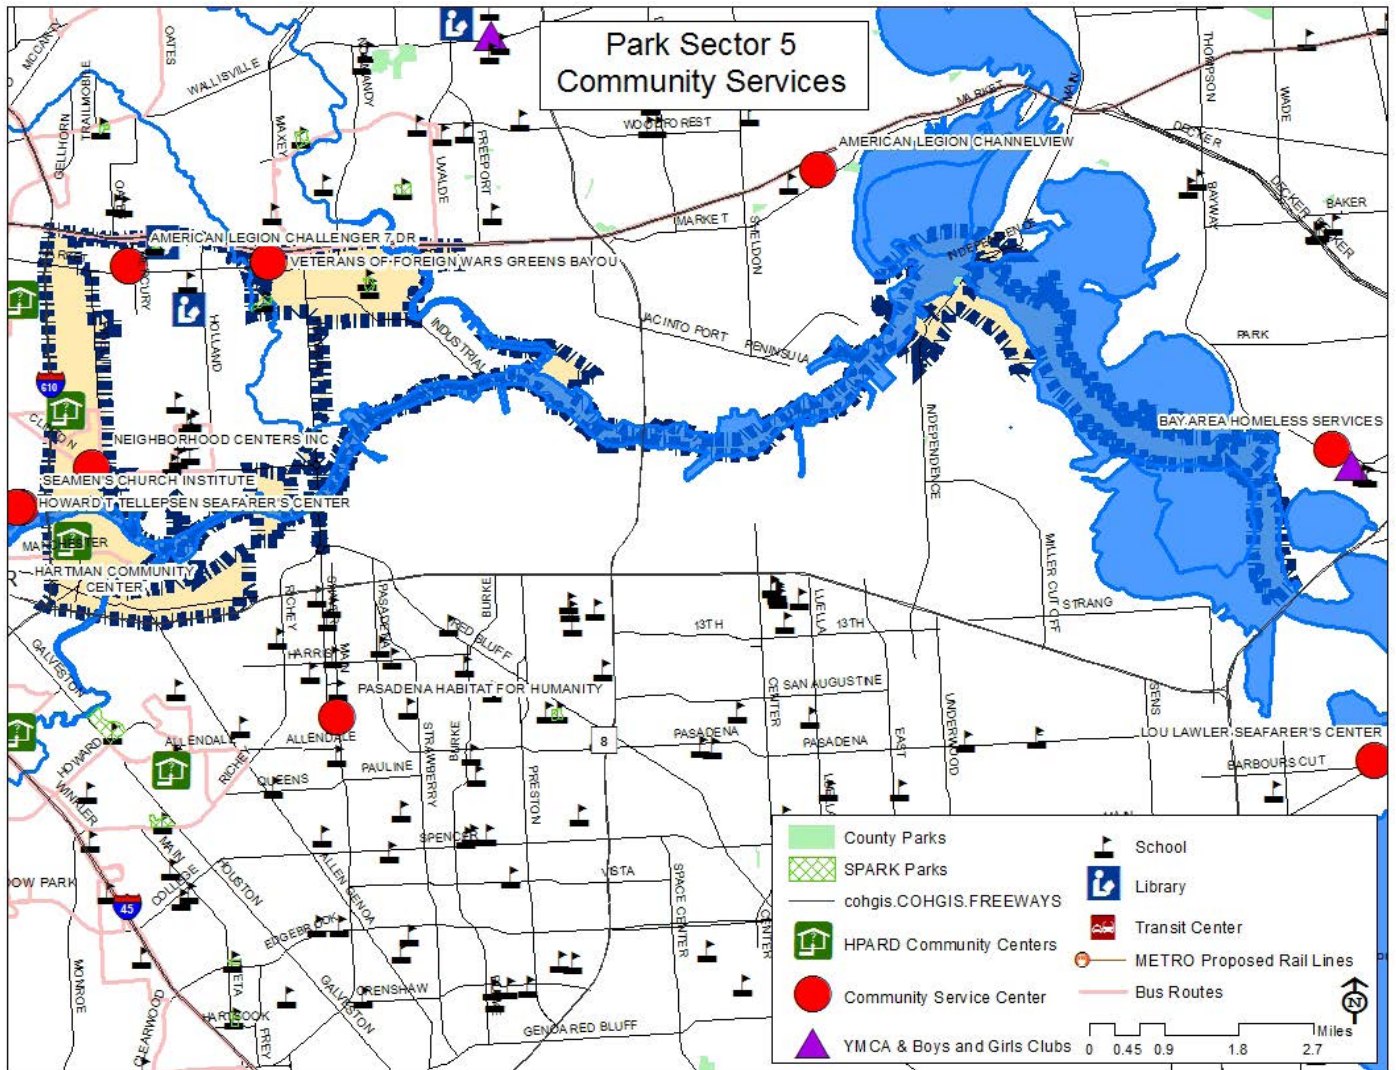

FIGURE 8. PARK SECTOR 5 COMMUNITY SERVICES AND PUBLIC TRANSIT

Amenities-Level of Service

The 2007 HPARD standards by amenity have been applied to the amenities in Park Sector 5. The first column after the recommended HPARD standards indicates the level of service (LOS) accounting for HPARD facilities only, the total inventory standard accounts for facilities from all providers. Then, the standard for each amenity is compared to the 2010 Census population data for this Park Sector to determine if the standard has been met or if more amenities are needed. The last two columns show the number of facilities needed to meet the standard using HPARD inventory only and using all providers in the Park Sector. According to these recommended HPARD standards, HPARD, Harris County and other providers are meeting the needs of the residents for playgrounds, picnic shelters, trails, outdoor basketball courts, tennis courts, volleyball courts, skate parks, community centers, swimming pools, and baseball fields. This Park Sector is deficient dog parks (1), spraygrounds (1), softball fields (1), and soccer fields (1).

	HPARD	Harris County	Other Providers	Total	Recommended HPARD Standard		Current HPARD Level of Service		Current Total Inventory Level of Service		HPARD NEEDS Over/ Under Service	Total Inventory NEEDS Over/ Under Standard
