

I-45 from Memorial Drive to Quitman

Project Scope – Contractors will replace the I-45 northbound bridge at White Oak Bayou, construct a new connector bridge at White Oak Bayou as well as replace the bridge deck and other miscellaneous work on I-45 from Memorial Dr. to I-10.

- ▶ Contractor – **Balfour Beatty**
- ▶ Cost - **\$19.64 million**
- ▶ Project Schedule – **575 days**. Work began on the project December 2015.
- ▶ Length of total project – **1.072 miles**

While crews work in the vicinity of the bike trails, closures will be needed for safety reasons. The closures will allow bridge construction activities such as demolition, foundation work, and beam hanging for the spans over the trails.

The bike trails will be closed intermittently January 2016 through the summer of 2017.
