## Youth and Family Engagement

### Activities

Week of March 28 – April 1, 2022

#### Paper Bee Craft

**Materials Needed:** construction paper or regular paper in various colors, scissors, and glue

- Start by making the base for your craft. You can make it as big as a full-sized letter paper. Cut a strip of yellow paper. This one will make the bee body. You can draw the black stripes with a marker or glue the black paper stripes. Apply glue on one end and make a paper roll. Stick the paper roll on the base. If you haven't already, stick the black paper stripes on the bee body. This is how your body should be looking right now. Make a smaller yellow paper roll and stick it on top of the body one. This will make the bee's head. Add googly eyes or draw eyes. Cut a pair of wings out of white or light blue paper and glue them onto the bee's body. Cut a long triangle (stinger) out of black paper and stick it inside the bee's body. Lastly, cut two antennae and stick them above or on the bee's head. All done! Now you know How to Make a Paper Bee Craft.

#### Movie Night

Choose a family fun movie, make some popcorn and relax! Watching a movie as a family activity means lots of bonding and your home cinema experience will be a fraction of the cost of going to the cinema. For a totally stress-free evening, why not order a pizza so Mom and Dad don't have to cook? Many families make movie night into a fun weekly routine.
