Youth and Family Engagement

Activities

Week of May 16 – May 20, 2022

Geocaching

Geocaching is like a modern-day treasure hunt. Instead of using paper maps and compasses, geocachers rely on the Geocache app on their phones and GPS to find the treasure. The cache can be as simple as a Tupperware, or it might be a weather-proof container specifically for geocaching. Typically, there is nothing of monetary value in the cache.

Rockhounding

Rockhounding is a lot more fun than you think! Starting is easy. Brainstorm a list of the top 5 rocks in your region. Next, challenge youth to help you find them.
