

## Lake Houston Wilderness Park Games:

### Scavenger Hunt

This is a self-guided game; it's great when having to wait for programs. Start off your hunt at the Nature Center and try your luck finding the items on the list! This program is entirely outdoors and a Lake Houston Wilderness Park waiver is required for all participants. There is not specific time limit for this game.

### Oh, Deer

**30-40Min**

Students learn about animal populations and the factors that limit them. Deer need food, water, and shelter in order to survive; if one of these factors is not available then the deer cannot survive. We'll talk about what could limit a resource and even throw in the effect of predators on the population! This is a fun, fast-paced (there will be running) game. This program is entirely outdoors and a Lake Houston Wilderness Park waiver is required for all participants.
