

HOUSTON PARKS MASTER PLAN

PHASE II

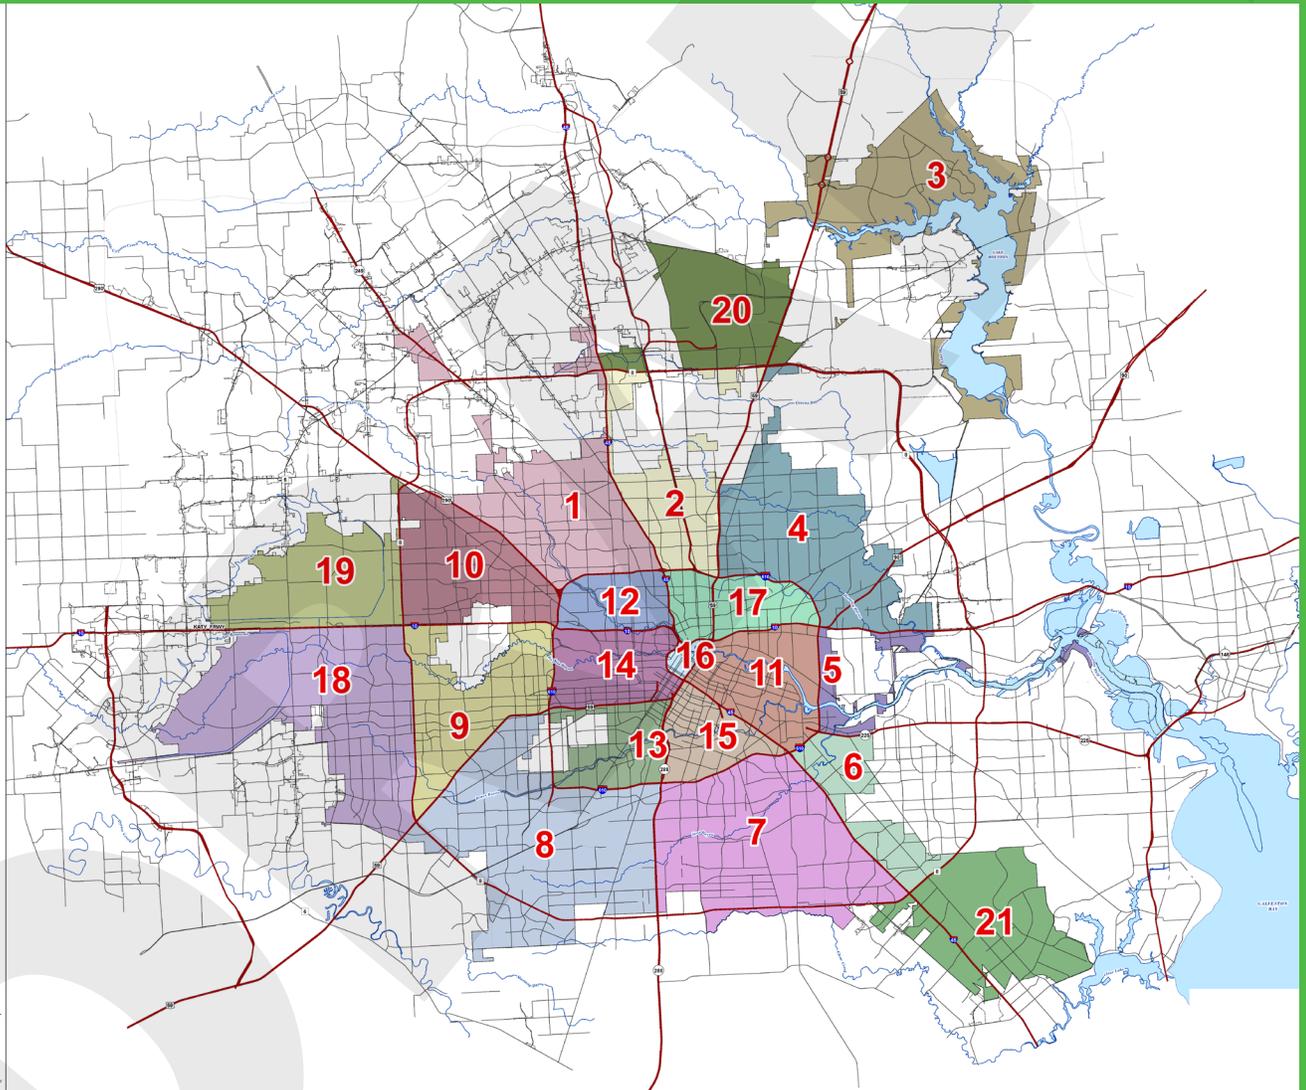

The Houston Parks and Recreation (HPARD) Parks Master Plan presents the vision of the residents of Houston and the goals, or Big Moves, to be made by the Department in the next 20 years. An online survey was conducted from March 2014 through July of 2014. Approximately 1,800 responses were received. Two-thirds of survey respondents identified connecting their neighborhood to hike, bike, and walk trails and revitalizing existing parks as their highest budgetary priority for HPARD.

HPARD performed a year-long initial assessment of each Park Sector in the City with support from the Planning and Development, the Health and Human Services and the Housing and Community Development Departments of the City of Houston, The Houston Parks Board, The Houston-Galveston Area Council and the Center for Sustainability at Rice University. Volunteer Interns from St. Thomas University, Texas A&M University, Lone Star College, and Texas Southern University were indispensable in this effort. Maps of areas of park need were created using data provided by the Trust for Public Land ParkScore™ Project; HPARD continues to partner with the Trust for Public Land to improve the methodology and assess park needs specific to Houston.

PARK SECTOR 5:

This Park Sector contains 52 acres of park land (Harris County , HPARD & other providers). There are approximately 8,500 residents, 74% Latino and there is a high percentage of youth. Based on the standard of park acreage of park land per 1,000 residents, there is no need for additional acres of park land in this Park Sector; however, as seen on the map there are some areas not served by parks.

This map was produced using data provided by the Trust for Public Land ParkScore™ Project to show areas of park need. The green areas represent a ½ mile service area of public parks (city or county) and SPARK Parks (school parks open to the public after school) or other publicly accessible non-HPARD Parks. The orange represent areas where there is not access to a park within ½ mile. The degree of need (orange is high need) is based on population density, household income (less than \$35,000), and presence of youth (19 yrs or younger). The office and industrial land uses are represented in grey, so as to specifically highlight residential and commercial areas of need. Roughly 22% residential and commercial areas do not have park land accessible within ½ mile, as compared to the 55% of the population of the City of Houston.

OPPORTUNITIES

Non-SPARK schools are indicated on the map as black flags to explore as potential future partnerships for park space. In addition to the existing 1.04 miles of trails inside the parks, a trail along Hunting Bayou (which passes close to a residential area) is planned according to the Bayou Greenways Initiative (BG2020).

PARK AMENITIES

The table below shows the total existing amenities (including, HPARD, County and SPARK Parks), the target goal per amenity, and the amenities needed based on population standards for each amenity.

AMENITY	PLAYGROUNDS	PICNIC SHELTERS	TRAILS (MILES)	OUTDOOR BASKETBALL COURTS	TENNIS	VOLLEYBALL	DOG PARKS	SKATE PARKS	COMMUNITY CENTERS	SWIMMING POOLS	OUTDOOR SPRAYGROUNDS	BASEBALL (LIT & UNIT)	SOFTBALL (LIT & UNIT)	SOCCER (LIT & UNIT)
GOAL	8	3	5	3	4	1	1	1	2	1	1	2	1	1
EXISTING	8	3	5*	3	4	1	0	1	2	1	0	2	0	0
NEEDED	-	-	-	-	-	-	1	-	-	-	1	-	1	1

* This number includes miles of trails currently planned along Hunting Bayou from I-10 to Federal Street under the Bayou Greenways Initiative (BG2020).
