Householder Moved into Housing Unit
City of Houston

- In Houston, 55% (427,291) of the householders moved into a housing unit (whether Single-Family, Condo or Multi-Family units) between 2000 and 2009.
- Only 4% moved into a housing unit prior to 1969 (29,259) based on the proportionate share to the total units, according to the 2012 data.
- Householders are the same as in occupied housing units, per U.S. Census Bureau's definition.
