

Lower Westheimer Corridor Study

Community Meeting 3

April 20, 2017

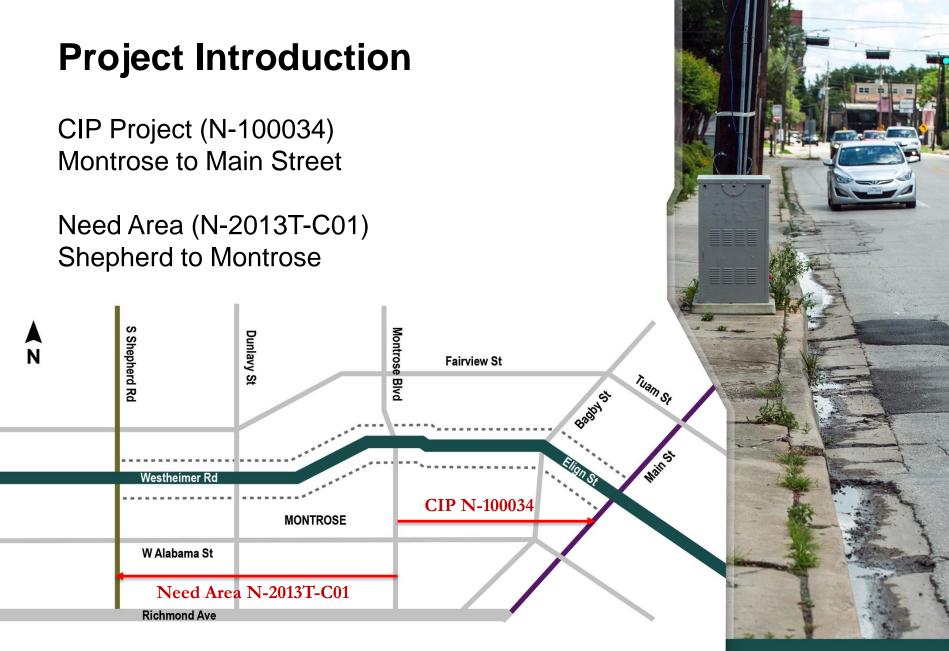

Overview

Lower Westheimer Reconstruction

Identified Corridor Needs

Corridor Needs Pavement Condition

Corridor Needs Parking Solutions

CKL-2561

Parallel Parking

Poorly Defined Areas

1 DUF

Head-In Parking

Undefined Entry

Corridor Needs

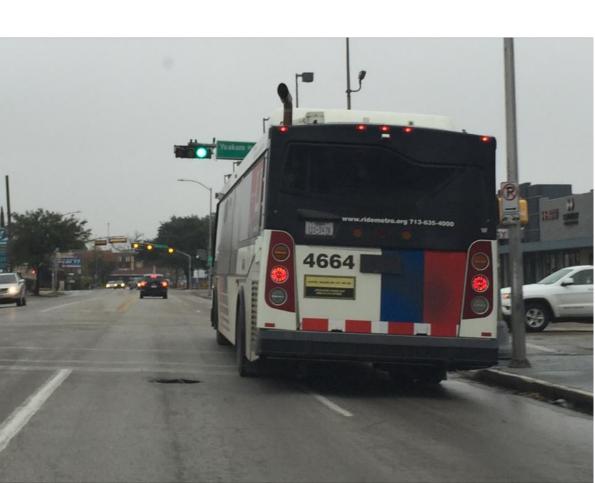

Pedestrian Safety and Accessibility

- Obstructions
- Uneven pavement conditions
- Inconsistent cross walk signals and striping
- Curb ramp accessibility
- No/narrow sidewalk sections

Corridor Needs Mobility – Bus Transit

Corridor Needs Mobility – Driveways

No Controlled Access

Design Inputs Requirements and Considerations

Policy and Design Guidance

Data Analyzed

- Infrastructure Design Manual (IDM)
- Modal priorities, constraints, and strategies
- Trade offs for constrained ROW
- Complete Streets
 Executive Order
- Major Thoroughfare Plan
- Bikeway Master Plan
- Best practices in and outside Houston
- Project objective and principles

Average daily traffic (ADT) current & future

- Block-by-block context sensitive design approach
- Historic & land use inventory to minimize impacts
- METRO routes and stops
- Bike route crossings
- On street parking inventory

Public Engagement

Enhanced Process

Jun. 6, 2016

Public meeting to review existing conditions, identify objective and principles

Nov. 16, 2016

Public workshop to confirm objective and principles, design charrette

Apr. 20, 2017

Public open house meeting to present project concepts

Stakeholder Advisory Committee (SAC) meetings prior to each public meeting. SAC meetings: May 3, 2016, August 16, 2016 & March 29, 2017.

What We Heard

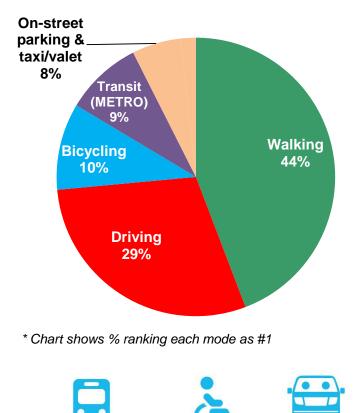

Project Objective

Support transit

- Improve access to local businesses
- Be aesthetically pleasing
- Preserve local culture and character
- Manage traffic safely and effectively

Survey Question:

Given the limited right-of-way on Lower Westheimer, please rank in order.*

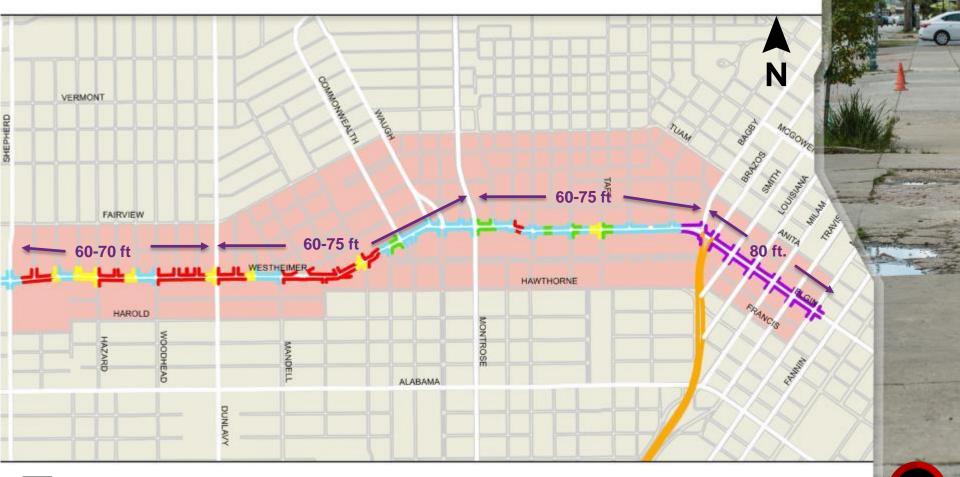

Right-Of-Way Constraints Expanding ROW is not desirable

Study Area

ROW Width (ft)

60 70 80 65 75

What We Heard Input Received – Priorities

Turning Lanes

Parking

Accommodate Buses

Wide Pedestrian Realm

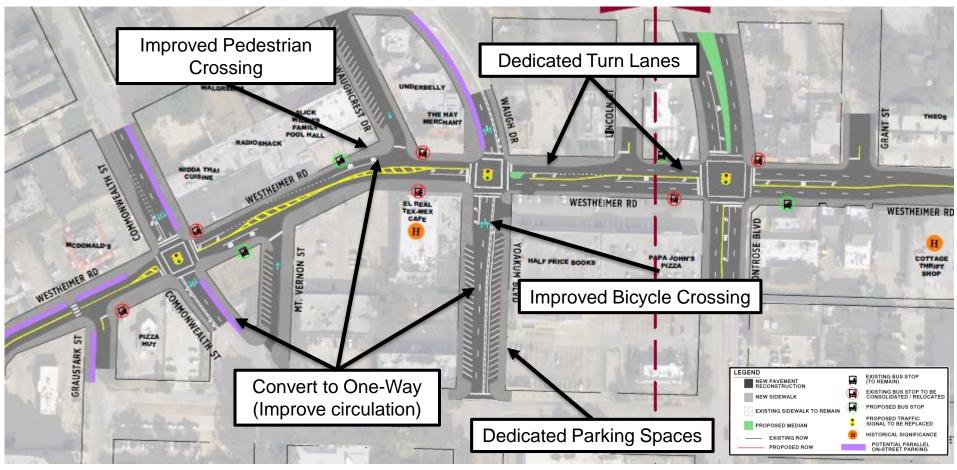

Proposed Solution Westheimer - Shephard to Dunlavy

On-street parking, bus accommodations, pedestrian realm and dedicated turn lanes vary along corridor. Refer to Roll Plot for higher level of detail.

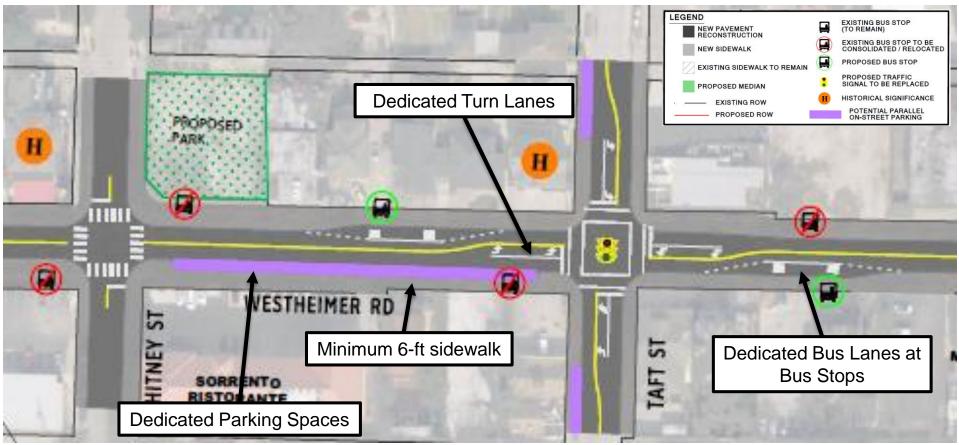

Proposed Solution Westheimer – Dunlavy to Montrose

On-street parking, bus accommodations, pedestrian realm and dedicated turn lanes vary along corridor. Refer to Roll Plot for higher level of detail.

Proposed Solution Westheimer –Montrose to Bagby

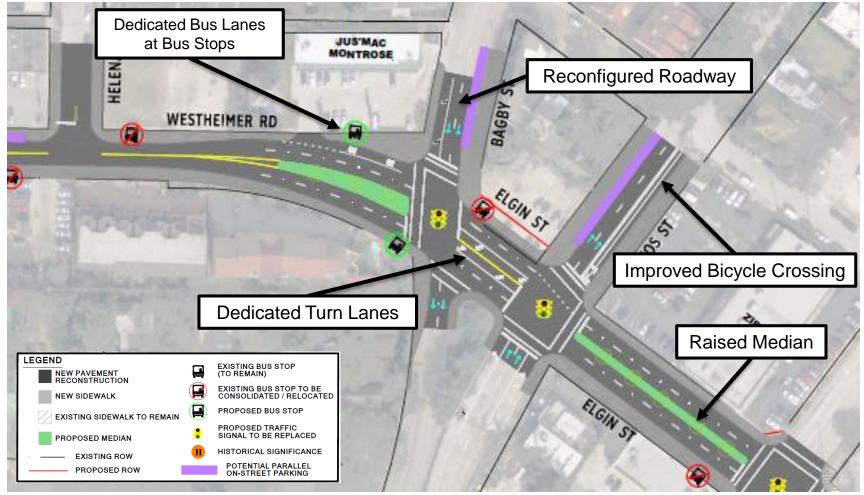

On-street parking, bus accommodations, pedestrian realm and dedicated turn lanes vary along corridor. Refer to Roll Plot exhibit for details.

Proposed Solution

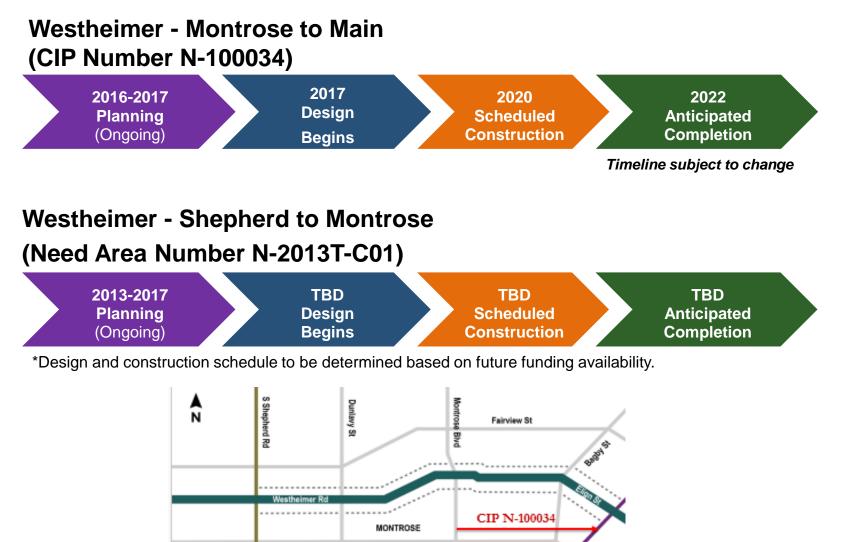

Westheimer – Bagby to Main

On-street parking, bus accommodations, pedestrian realm and dedicated turn lanes vary along corridor. Refer to Roll Plot exhibit for details.

Project Timelines

W Alabama St

Richmond Ave

Need Area N-2013T-C01

We Want Your Input
